COUNCIL APPROVES TEMPORARY ROAD CLOSURE - UNNAMED ROAD, AYR - MR L PREVITERA

(I-DESIGN)

940861 - 03-03-01 & RC 09-08 - Mr M Ingle, Design Office Manager Report - Temporary road closure - Unnamed Road, Ayr - Mr L Previtera.

Moved Cr. Loizou, seconded Cr. Haynes that Council offers no objection to the temporary closure of part of the unnamed road adjoining the northern boundary of Lots 1 RP721664 and Lot 2 RP729537.

CARRIED

CLAUSE 10

COUNCIL ENDORSES THE BURDEKIN DRY TROPICS NRM REGION PEST MANAGEMENT STRATEGY

(I-ENV)

941361 - 01-04-02 - Ms T Jensen, Manager Environment and Health - Report - Burdekin Dry Tropics NRM Region Pest Management Strategy - June 2009.

Moved Cr. Lewis, seconded Cr. Gazzola that Council endorse the Burdekin Dry Tropics NRM Region Pest Management Strategy.

CARRIED

CLAUSE 11

COUNCIL APPROVES DEVELOPMENT APPLICATION FOR RECONFIGURING A LOT - 469 TRENT ROAD, AYR - MR GARY STEWART

(I-PLANDEV)

941402 - Sub 08-43 - Mr S Great, Manager Planning & Development - Report - Development application for reconfiguring a Lot - 469 Trent Road, Ayr - Mr Gary Stewart.

Moved Cr. Dalle Cort, seconded Cr. Lewis that Council approves the Development Application for Reconfiguring a Lot (Subdivision) at 469 Trent Road, Ayr (Lot 1 on RP749224, Parish of Antill, County of Gladstone), subject to the following conditions:

GENERAL

1.1 The Council will not release the formal Plan of Reconfiguration until all rates and charges in arrears in respect of the land, the subject of the application, are paid in full;

1.2 Pay the sum of \$95-60 calculated on the basis of a charge of \$23-90 per lot to be levied on the Council by the Department of Environment & Resource Management for each new valuation;

1.3 Grant Council an easement, minimum width of 50 metres, for drainage purposes over the existing drainage path as defined in figure 9.7 of the Ayr Flood Study, Dec 2001. The easement is to be granted free of compensation and be prepared by Council's solicitor with all costs involved including survey costs, preparation and registration of the

easements to be borne by Council;

1.4 Install culverts of sufficient capacity to convey an ARI 5 year flow, with an overflow path capable of conveying an ARI 20 year flow without aflux, where the access corridors of proposed lots 13 and 14 cross existing easement K, RP735794. Calculation of the culvert size is to be certified by an engineer who is both registered under the Professional Engineer's Act 2002 and is a current Registered Professional Engineer of Queensland.

ROADWORKS

2. The construction of any crossovers to give access to the land is to be the owner's responsibility and to the satisfaction of the Chief Executive Officer.

PROPOSAL PLAN

3. The reconfiguration of the land must be carried out generally in accordance with:-
(a) (i) the proposed Brazier Motti plans numbered 54791/12G;
(ii) the plans, specifications, facts and circumstances as set out in the application submitted to Council;

Except where modified by the conditions of approval and any approval issued there under; and

(b) any approval issued under this approval; and
(c) any development permit for operational works relating to the reconfiguring of a lot.

PUBLIC UTILITY SERVICES

4. If any existing public utility service including telephone, electricity, water, sewerage or gas needs to be altered or relocated to complete the reconfiguration the developer must bear the cost of alteration or relocation.

CARRIED

CLAUSE 12

COUNCIL APPROVES DEVELOPMENT APPLICATION FOR RECONFIGURING A LOT - BRUCE HIGHWAY, MCDESME, OLD HOME HILL AND AYR-DALBEG ROADS, AYR - SUREWATER PTY LTD (I-PLANDEV)

Consideration was given to the following application which was laid on the table at the ordinary council meeting held on 9th February, 2010 to allow for further investigations of drainage easements.

938335 - Sub 09-39 - Mr S Great, Manager planning and Development - Report - Development application for reconfiguring a Lot - Bruce Highway, McDesme, Old Home Hill Road and Ayr-Dalbegg Roads, Ayr - Surewater Pty Ltd.

Moved Cr. Loizou, seconded Cr. Lewis that Council approves the Development Application for Reconfiguring a Lot (Boundary Realignment) at Bruce Highway, McDesme, Old Home Hill and Ayr-Dalbegg Roads Ayr (Lot

108 SP 216748, Lot 10 GS 907, Lot 3 RP 733438, Parish of Antill, County of Gladstone and Lot 16 SP 103074, Lot 2 RP 704863, Lot 7 SP 195155, Lot 5 RP 715024, Lot 2 SP 103072, Lot 2 RP 720875, Parish of Jarvisfield, County of Gladstone), subject to the following conditions:

GENERAL

1.1 The Council will not release the formal Plan of Reconfiguration until all rates and charges in arrears in respect of the land, the subject of the application, are paid in full;

1.2 Pay the sum of \$215.10 calculated on the basis of a charge of \$23-90 per lot to be levied on the Council by the Department of Environment & Resource Management for each new valuation;

1.3 Grant Council an easement for drainage purposes 6 metres in width over the existing drain that traverses part of the western boundary of Lot 10 GS907 and an easement for drainage purposes 15 metres wide over the existing drain that traverses the northern boundary of the same lot (10 GS907). The easements shall extend from the end of Easement A SP151036 to the eastern boundary of lot 10 GS907. The easements are to be granted free of compensation and be prepared by Council's solicitor with all costs involved including survey costs, preparation and registration of the easements to be borne by Council.

ROADWORKS

2. The construction of any crossovers to give access to the land is to be the owner's responsibility and to the satisfaction of the Chief Executive Officer.

PROPOSAL PLAN

3. The reconfiguration of the land must be carried out generally in accordance with:-

- (a) (i) The proposed Brazier Motti plans numbered 55462/1A, 55595/3D, 55387/3C, 55325/3B;
- (ii) the plans, specifications, facts and circumstances as set out in the application submitted to Council;

Except where modified by the conditions of approval and any approval issued there under; and

- (b) any approval issued under this approval; and
- (c) any development permit for operational works relating to the reconfiguring of a lot.

PUBLIC UTILITY SERVICES

4. If any existing public utility service including telephone, electricity, water, sewerage or gas needs to be altered or relocated to complete the reconfiguration the developer must bear the cost of alteration or relocation.

CARRIED

CLAUSE 13

Introduction of Committee members

Mayor, Cr. Lyn McLaughlin welcomed everyone to the meeting and invited attendees to introduce themselves.

Minutes Received

Moved Debra Cochran, seconded Ennio Gazziola, that the Minutes of the Burdekin Community Coordinated Transport Committee Meeting held on 9th November, 2009 be received as a true and correct record.

CARRIED

Business arising from previous minutes

Tamika Savorgnan confirmed circulation of 1000 Transport Directories. Council has received requests for more brochures from Ayr Hospital and Burdekin Community Association. Another 2000 directories will be printed at the Council and folded by Burdekin Printers for distribution.

An email received from Alf Musumeci confirmed capacity for our funding to provide a gift voucher as a prize for the naming competition. An advertisement and media release will appear in the local papers this week with details about the competition for naming and creating a logo for the bus service.

Tamika spoke with organisers of the Hinchinbrook Community bus service about how they overcome the securing of groceries and the full shopper trolleys. Hinchinbrook tow a trailer behind the bus. Problems with the use of a trailer and alternative options were discussed. It was noted that consideration for a safe solution should be included in the operator's contract.

Lyn McLaughlin gave an update on the draft request for sponsorship letter. Lyn recommended reducing the number of levels of sponsorship to three. Further work will be undertaken on the sponsorship proposal and a final draft will be presented to the committee before distribution.

Discussions re Home Hill to Ayr Bus Service

Tamika reported on discussions with Sherrin Cappler of Qld Transport and Jenny Leigh of TDSA. It is recommended that the transport service being proposed be subcontracted to an accredited operator who employs an authorised driver; as Council does not have Operator Accreditation. The contractor will take the bookings; collect the fares; choose an effective weekly route in accordance with the designated destination points and under the definition of "Scheduled Passenger Service" (as detailed during the previous meeting.) The contractor will then invoice the Council for cost of service less fares taken. The Council's role will be to oversee/manage the service and maintain quality control. The operator will be required to supply council with data of the service allowing council to do quarterly reviews.

Tony Vaccaro advised that under Council's purchasing policy, given the estimated contract amount, we are required to obtain written quotations from three providers.

Tamika addressed enquiries about fare structure and payment for the service. The service costs are to be covered by subsidy from Blueprint for the Bush; sponsorship and passenger fares.

Scott Stidston raised concerns about wheelchair accessibility at designated stops and new laws for wheelchair restraints in vehicles. It was agreed that both these issues should be noted in the contract with the successful contractor.

Other General Business

Senior Sgt Paul James enquired if the top level sponsors were able to provide their own magnets for use on the bus.

NEXT MEETING – Monday 1st February 2010 at 12.30pm.

There being no further business, the meeting closed at 1.00pm.

BURDEKIN SHIRE COUNCIL

MINUTES – WORKPLACE HEALTH AND SAFETY COMMITTEE MEETING HELD ON 3RD MARCH, 2010

Held in the John Drysdale Chamber
Commencing at 3.00pm

1

ATTENDANCE

Mr. P. O'Regan – Human Resources Manager
Mr. I. Gorey – Workplace Health & Safety Officer
Mr. M. Kelly – Workshop Employees Representative
Mr. J. Henaway – Works Employees Representative
Mr. G. Oats – Parks Representative
Mr. L. Reguson – Water and Waste Water
Mrs. B. Saxby – Customer Service Representative
Mr. W. Saldumbide – Works Foreman Representative

Apologies for Absence: Mr. K. Holt, Mrs. A. Borellini

2

MINUTES RECEIVED

2.1 Moved Mr. Reguson, seconded Mrs. Saxby that the minutes of the Workplace Health and Safety Committee meeting held on 3rd February, 2010 be received as a true and correct record.

CARRIED

3

BUSINESS ARISING FROM PREVIOUS MINUTES

3.1 **Stands on truck bodies** - Mr. Gorey advised that the stands on body trucks are being further investigated by the Technical Manager, Mr. Kevin Byers, Workshop Supervisor, Mr. Kevin Holt and Workplace Health and Safety.

3.2 **Working at heights (Workshop)** – Mr. Gorey advised that he requested the workshop discuss options at a toolbox talk. Mr. Kelly advised that this occurred and they decided to refer the decision back to the Workplace Health and Safety Officer. Mr. Gorey to further investigate.

4 **ACCIDENTS AND INCIDENTS**

- 4.1 Workplace Health and Safety Officer, Mr. Gorey reported on a number of accident and incident reports submitted since previous meeting.

It was noted that appropriate action would be taken to prevent any recurrences of the accidents and incidents in the tabled reports.

The Lost Time Due to Injury Report for December was discussed.

5 **GENERAL BUSINESS**

- 5.1 **Risk Assessment Books** – Mr. Gorey advised the new risk assessment book information session has been delivered to five (5) groups. It was noted that risk assessments need to be conducted on all Burdekin Shire Council work sites.

- 5.2 **Evacuation Procedure Manual** – Mr. Gorey advised that the Evacuation Procedure Manual will need to be reviewed by all committee members prior to April's meeting.

- 5.3 **Fuel Bowser Safety Stop** – Mr. Kelly advised that there is a safety stop button outside the Works Foreman office for the new fuel bowser. Mr. Kelly suggested that a notice be placed on notice boards.

- 5.4 **Fork Shoes on Forklifts** – Mr. Kelly advised that fork shoe guards need to be installed on the forks before it is operated on the road. Mr. Kelly suggested that a sign to this effect needs to be placed on the forklift.

- 5.5 **Mango Tree** – Mr. Kelly advised that the mango tree at Jones Street Depot is a fire hazard; its branches are hanging over the shed and dropping leaves which enter the workshop. Mr. Gorey to advise Parks Foreman Mr. Tano Buono to trim the tree.

There being no further business the meeting closed at 3.38pm

Burdekin Shire Council

Programme Category: Environment & Operations **Date:** 3rd March 2010

Referring Letter Number: 940770

File Number: RC 10-01

SUBJECT HEADING: Permanent Road Closure – Unnamed Road, Rita Island

Name of Applicant: Mr M Pyott

Location: Unnamed road separating Lot 2 SP171853 and Lot 11 SP195124, Rita Island

Author and Officer's Title: Mr. Matthew Ingle, Design Office Manager

Executive Summary:

Request from the Department of Environment and Resource Management for council's views.

Officer's Recommendation:

Council objects to the permanent closure of this section of the road and advises that it would support a temporary road closure and issue of a road licence.

Background:

Mr Pyott has applied for a permanent road closure over the unformed road separating Lot 2 SP171853 and Lot 11 SP195124, commencing at the western boundary of Lot 10 SP195124 and extending westward to the western boundary of Lot 11 SP195124. This road links Sandhill Road on the east with a Reserve for Local Government Flood Erosion Control abutting the Burdekin River. Council has in the past not supported the permanent closure of any road that provides access to the river. The road could be closed temporarily and a road licence issued to the applicant.

Department of
**Environment and Resource
Management**

Dear Sir/Madam

Application for permanent road closure adjoining lot 11 on plan SP195124

Please find enclosed a copy of the Notice published in the Government Gazette of 12th February 2010 relative to the above application.

You are requested to display the notice at your office for the purpose of being viewed by the public in terms of Section 100 of the *Land Act 1994*. Your views and/or requirements are also requested in respect of the application.

The applicant advises that the proposed use of the subject area, if the road closure is approved would be for grazing purposes.

Please advise the Department of your views or requirements that the department should consider when assessing this application. Objections to the application, and any views or requirements that may affect the future use of the land should be received by close of business on **25th March 2010**. If you offer an objection to the application, a full explanation stating the reason for such an object should be forwarded to this Office.

If you wish to provide a response but are unable to do so before the due date, please contact the author before the due date to arrange a more suitable timeframe. **If a response is not received by the due date and no alternative arrangements have been made, it will be assumed you have no objections or requirements in relation to this matter.**

This information has been provided to you in confidence for the purpose of seeking your views on this matter. It is not to be used for any other purpose, or distributed further to any person, company, or organisation, without the express written permission of the department unless required.

Any objections received may be viewed by other parties interested in the proposed road closure in accordance with the provisions of the *Right of Information Act 2009*.

If you wish to discuss this matter please contact Stephanie Bailetti on 4039 8791.

All future correspondence relative to this matter is to be referred to the contact Officer at the address below or by email to cairns.slam@derm.qld.gov.au. Any hard copy correspondence received will be electronically scanned and filed. For this reason, it is recommended that any attached plans, sketches or maps be no larger than A3-sized.

**OBJECTIONS TO PROPOSED ROAD CLOSURE
NOTICE (No 05) 2010**

Short title

1. This notice may be cited as the *Objections to Proposed Road Closure Notice (No 05) 2010*.

Application for road closure [s.100 of the Act]

2. Applications have been made for the permanent and temporary closure of the roads mentioned in the Schedule.

Objections

3.(1) An objection (in writing) to a proposed road closure mentioned in the Schedule may be lodged with the Regional Service Director, Department of Environment and Resource Management, at the regional office for the region in which the road is situated.

(2) Latest day for lodgement of objections is **25 March 2010**.

(3) Any objections received may be viewed by other parties interested in the proposed road closure under the provisions of the *Right to Information Act 2009*. If you lodge an objection, please include in your objection letter whether you would like to be consulted if this issue becomes the subject of an access request under the *Right to Information Act 2009*.

Plans

4. Inspection of the plans of the proposed road closures may be made at-

- (a) the Department of Environment and Resource Management Offices at Mackay, Cairns, Gympie, Townsville, Hughenden, Beenleigh, Bundaberg, Gold Coast, Ipswich, Charleville, Warwick; and
- (b) the Local Government Offices of Isaac Regional, Burderkin Shire, Tablelands Regional, McKinlay Shire, Charters Towers Regional, Logan City Council, Bundaberg Regional, Gold Coast City Council, Somerset Regional, Lockyer Valley Regional, Murweh Shire, Scenic Rim Regional and Goondiwindi Regional;

for a particular plan in that district or that local government area.

SCHEDULE

PERMANENT CLOSURE

Central West Region, Mackay Office

1 An area of about 33.6 ha abutting the northern boundary of part of Lot 81 on SP201834 (parish of Dunsume, locality of Dysart) and shown as proposed road to be permanently closed on Drawing 10/702/CEN. (2008/008933)

North Region, Cairns Office

2 An area of about 1.47 ha being the road separating Lot 11 of SP195124 from Lot 2 on SP171853 (parish of Morrill, locality of Rita Island) and shown as Plan of Lot A (permanent road closure) on Drawing CNS10/016. (2010/000557)

3 An area of about 1030 m2 being part of the road abutting the north eastern boundary of Lot 6 on D81512 and southern boundaries of Lots 4 and 5 on D81512 (parish of Masterton, locality of Dimbulah) and shown as road proposed to be permanently closed on Drawing 09/028. (2008/001538)

North Region, Hughenden Office

*4 An area of about 25.2 ha being part of unnamed road intersecting Lot 2 on MF11 (parish of Manfred, locality of Taldora) and shown as Lot 2 (road to be permanently closed) on Drawing TSV2009-52. (2009/009291)

North Region, Townsville Office

*5 An area of about 2.6 ha being part of Great Britain Road and unnamed road abutting the southern boundary of Lot 110 on SP108179 (parish of Charters Towers, locality of Southern Cross) and shown as Lot B (proposed road closure) on Drawing CNS09/089A. (2009/004721)

6 An area of about 5450 m2 being Ben Road separating Lot 139 on SP132624 from Lot 14 on AP11761 (parish of Charters Towers, locality of Queenton) and shown as Plan of Lot 1 proposed permanent road closure on Drawing TSV2009-54. (2009/001832)

South East Region, Beenleigh Office

7 An area of about 2390 m2 being part of unnamed road abutting Lot 1 on RP122356 (parish of Mackenzie, locality of Chambers Flat) and shown as road proposed to be permanently closed on Drawing 09/049. (2008/004649)

South East Region, Bundaberg Office

8 An area of about 5.3 ha being road abutting the northern boundary of Lot 9 on SP181774 (parish of Monduran, locality of Monduran) and shown as road proposed to be permanently closed on Drawing 10/005. (2009/011280)

9 An area of about 2.4 ha being road abutting the southern boundary of Lot 10 on RP53347 and currently held under Road Licence 7/4242 described as Lot 1 on RL4242 (parish of Yandaran, locality of Avondale) and shown as road proposed to be permanently closed on Drawing 10/011. (2009/011705)

South East Region, Gold Coast Office

10 An area of about 45 m2 being part of Tristan Court, abutting the north-western boundary of Lot 79 on RP842741 (parish of Nerang, locality of Benowa) and shown as road proposed to be permanently closed on Drawing 09/262. (2009/007405)

11 An area of about 42 m2 being part of Crest Drive, abutting the western boundary of Lot 346 on RP92799 (parish of Tallebudgera, locality of Currumbin) and shown as road proposed to be permanently closed on Drawing 08/285. (2008/005091)

South East Region, Ipswich Office

12 An area of about 8416 m2 being part of Goffeys Road adjoining Lot 60 on S312287 (parish of Dundas, locality of Dundas) and shown as road proposed to be permanently closed on Drawing 09/351. (2009/008533)

*13 An area of about 1.9 ha being part of Otto Road, abutting Lot 5 on RP902115, Lot 4 on SP157308 and Lot 101 on RP170130 (parish of Laidley, locality of Glenore Grove) and shown as road proposed to be permanently closed on Drawing 09/319. (2009/010203)

South West Region, Charleville Office

14 An area of about 83.2 ha being the road separating Lot 19 on RS82 from the Mitchell Highway (parish of Glamis, locality of Bakers Bend) and shown as road to be permanently closed on Drawing DD2009_247. (2009/010584)

South West Region, Toowoomba Office

15 An area of about 2.35 ha being the road separating Lot 22 on LY117 from Lot 4 on RP210355 (parish of Tuckerang, localities of Tuckerang and Jimbour West) and shown as road to be closed (permanently) on Drawing DD2009/242. (2009/010151)

TEMPORARY CLOSURE

North Region, Cairns Office

16 An area of about 3600 m2 being part of Leadingham Creek Road abutting Lots 87 and 88 on HG88 (parish of Leadingham, locality of Dimbulah) and shown as Plan of Lot A (temporary road closure) on Drawing CNS10/005. (2009/009945)

South East Region, Beenleigh Office

17 An area of about 2.3 ha being Bradshaw Road, Beaudesert separating Lots 14 and 15 on RP7554 (parish of Beaudesert, locality of Beaudesert) and shown as Lot A on AP19781 in the Department of Environment and Resource Management. (2009/007981)

South West Region, Warwick Office

18 An area of about 12.2 ha being the road intersecting Lot 37 on SP216655 and separating Lot 37 on SP216655 from Lot 1 on SP178932 (parish of Beebo, locality of Beebo) and shown as road to be closed (temporarily) on Drawing DD2009/229. (2009/006433)

*The proposed closure of this road is in conjunction with the proposed opening of another road.

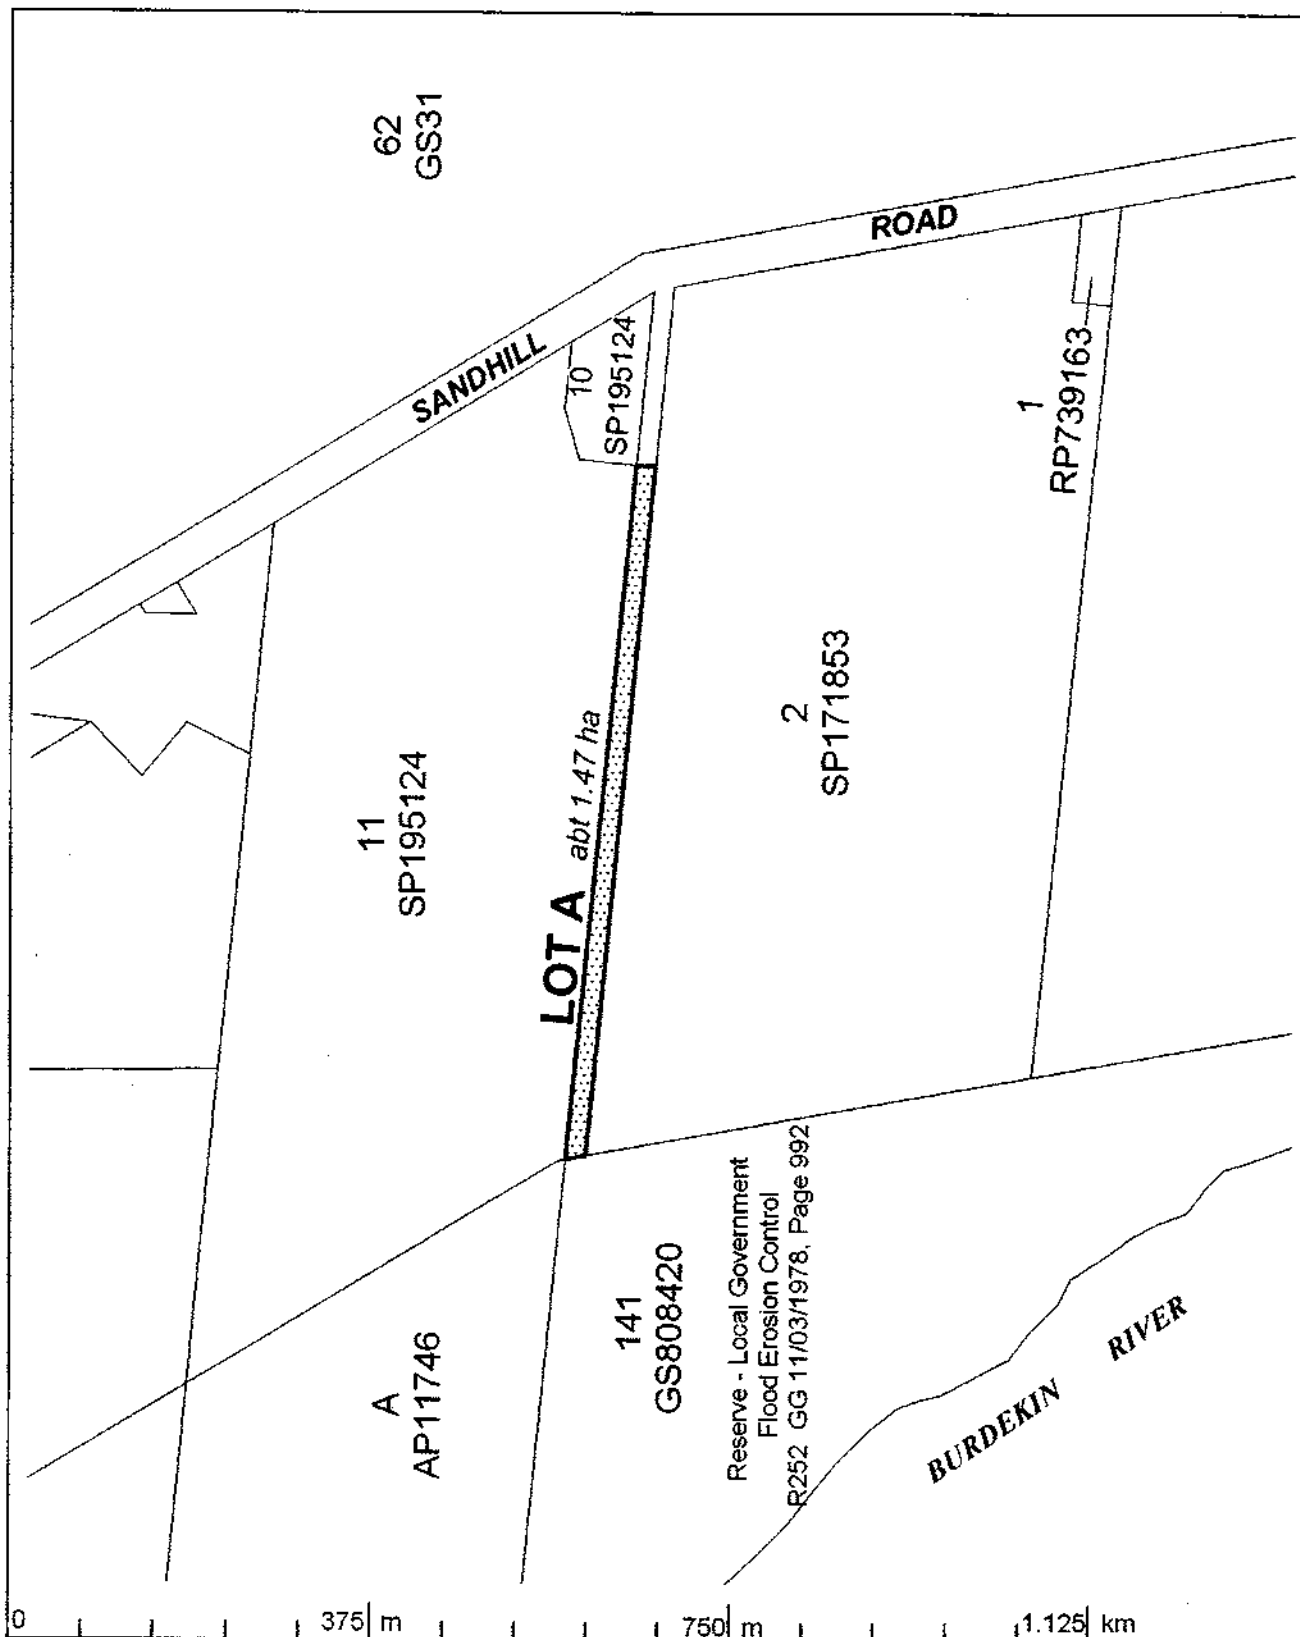

ENDNOTES

1. Published in the Gazette on 12 February 2010.
2. Not required to be laid before the Legislative Assembly.

Subject Heading: Lodging a Development Application for Reconfiguring a Lot

Name of Applicant: Mr Greg Dillon

Location: 214, 383 and 394 Ferguson Road, Ayr (Lot 24 on SP216752, Lot 1 on RP710755 and Lot 8 on RP702289, Parish of Antill, County of Gladstone)

Author and Officer's Title: S Great
Manager - Planning & Development

Executive Summary:

An application has been received from Brazier Motti Pty Ltd on behalf of their client Mr Greg Dillon seeking approval for Reconfiguring a lot (Boundary Realignment) at 214, 383 and 394 Ferguson Road, Ayr (Lot 24 on SP216752, Lot 1 on RP710755 and Lot 8 on RP702289, Parish of Antill, County of Gladstone). A Development Application (Code Assessable) has been triggered in accordance with the Burdekin Shire IPA Planning Scheme.

Officer's Recommendation:

That Council approves the Development Application for Reconfiguring a Lot (Boundary Realignment) at 214, 383 and 394 Ferguson Road, Ayr (Lot 24 on SP216752, Lot 1 on RP710755 and Lot 8 on RP702289, Parish of Antill, County of Gladstone), subject to the following conditions:

GENERAL

- 1.1 The Council will not release the formal Plan of Reconfiguration until all rates and charges in arrears in respect of the land, the subject of the application, are paid in full;
- 1.2 Pay the sum of \$71-70 calculated on the basis of a charge of \$23-90 per lot to be levied on the Council by the Department of Environment & Resource Management for each new valuation;
- 1.3 Grant Council an easement for drainage purposes from top of bank to top of bank over the gully that traverses existing Lot 8 on R.P. 702289 and a distance of 4 meters on the northern side from the top of bank. The easement is to be granted free of compensation and be prepared by Council's Solicitor with the costs involved including survey costs, preparation and registration of the easement to be borne by council;
- 1.4 Prior to release of the formal plan of subdivision, provide evidence to the Chief Executive Officer that Lot 8 on RP702289, and Lot 1 on RP710755 have been amalgamated and confirmation that the formal plan has been registered;

ROADWORKS

2. The construction of any crossovers to give access to the land is to be the owner's responsibility and to the satisfaction of the Chief Executive Officer;

PROPOSAL PLAN

3. The reconfiguration of the land must be carried out generally in accordance with:-
 - (a) (i) the proposed Brazier Motti Pty Ltd plans numbered 55472_003A and 55698_001;
 - (ii) the plans, specifications, facts and circumstances as set out in the application submitted to Council;

Except where modified by the conditions of approval and any approval issued there under; and

- (b) any approval issued under this approval; and
- (c) any development permit for operational works relating to the reconfiguring of a lot;

PUBLIC UTILITY SERVICES

- 4. If any existing public utility service including telephone, electricity, water, sewerage or gas needs to be altered or relocated to complete the reconfiguration the developer must bear the cost of alteration or relocation;

ADVICE (Note: These are not conditions)

- Unless otherwise specified by these conditions, the conditions must be complied with prior to approval of the Plan of Survey;

Background:

The following comments are from the Manager of Planning & Development, Mr Shane Great:

The Application:

It is the applicant's intent to realign the boundaries of the existing 3 lots to allow for rationalisation of the existing rural land, and also create a lot of vacant land that would provide a suitable area for a future dwelling. Proposed lot 28 has been designed to allow for a residential dwelling to be established on it. Proposed Lot 29 and 27 encompasses the balance area which will continue to be used primarily for agricultural uses. A relevant issue that makes this application slightly different from the standard rural lot reconfiguration is the fact that the existing lots the applicant is utilising are located further down Ferguson road from the newly proposed lot. There is no provision in the current planning scheme that restricts this from happening.

Site Description/Surrounding Land Uses:

The subject site comprises a total area of 99.28ha fronting Ferguson Road, the land is currently improved by a sugar cane farm. The surrounding area is primarily agricultural land, with some rural residential housing and sheds on the neighbouring farms.

Effluent Disposal:

A site assessment report from Nicoll Beattie Pty. Ltd. concludes that the proposed new lots create sufficient area to sustain an on-site sewage system in accordance with the requirements of *The On-Site Sewerage Code and AS/NZS 1547:2000*. The report states there are no known environmental or public health constraints to the on-site treatment of domestic waste and provided statutory setbacks are observed contamination of water supplies is unlikely.

Recommendation:

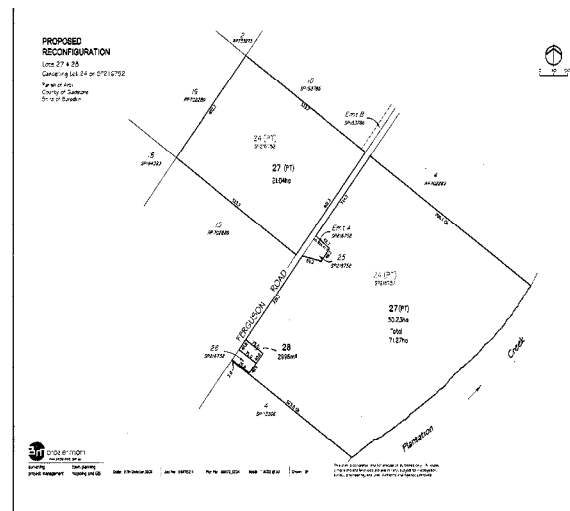

Council's Development Assessment Team members have assessed the application and have included reasonable and relevant conditions as part of the recommended approval. Given that the proposal complies with the provisions contained in Council's IPA Planning Scheme and in particular the acceptable solutions of the 'Reconfiguration of a Lot' zone code, it is recommended that Council approve the application subject to the abovementioned conditions.

Consultation (internal/external):

The application triggered a referral to the Department of Environment and Resource Management (DERM) due to the proposed new lots being located in mapping within 100 metres of a wetland. An Advice Agency response was received on 22nd February, 2010 stating that DERM had no recommendations. All relevant Council departments have been consulted.

Attention: Town Planning Department

Dear Sir/Madam

APPLICATION FOR DEVELOPMENT PERMIT
RECONFIGURATION OF A LOT (3 LOTS INTO 3 LOTS)
214, 383 & 394 FERGUSON ROAD, AYR
APPLICANT: GREG DILLON

Please be advised that we act on behalf of Greg Dillon, with regard to the above mentioned development application.

This application has been prepared to seek approval of the proposed Reconfiguration of a Lot at 214, 383 & 394 Ferguson Road, Ayr, being properly described as Lot 24 on SP216752, Lot 1 on RP710755 and Lot 8 on RP702289, Parish of Antill, County of Gladstone. The subject site is identified as being within the *Rural Zone* under the Burdekin Shire Planning Scheme.

The development application requests a Development Permit for Reconfiguring a Lot, which under the provisions of the Burdekin Shire Planning Scheme is Code Assessable.

To enable Council's consideration, please find enclosed the following documents:

- Two (2) copies of IDAS application forms 1 A , F & J, and IDAS Checklist;
- Two (2) copies of proposal plans 55472/003A and 55698/001, prepared by Brazier Motti Pty Ltd;
- Two (2) copies of a Site Assessment Report prepared by Nicoll Beattie Pty Ltd;
- The Applicant's payment of \$825.00, being Council's application fee.

The subject site comprises a total area of 99.28ha, has approximately 1691 metres frontage to Ferguson Road and is currently improved by a cane farm.

Approval of the Development Application will authorise a Development Permit for Reconfiguring a Lot to create 3 allotments. Plans detailing the proposed reconfiguration are enclosed with this application.

./2

VIEW		AGENDA	
		DATE	
NOTED		VIEW	
ACTION	PLAN DEV	ACTION	
DEADLINE	10-2-10	DEADLINE	

It is the Applicant's intent to create proposed lot 28 to include a future dwelling house while proposed lots 27 & 29 will continue to be used for rural pursuits.

With the provision of reasonable and relevant conditions, we consider that Council are able to approve the proposed reconfiguration on the following grounds:

- The proposed boundary realignment does not increase the total number of allotments in the locality;
- The proposal will not fragment the existing rural industry that occurs on the site;
- The proposed reconfiguration provides a suitable area for the existing dwelling house and surrounding land.
- The attached Site Assessment from Nicoll Beattie Pty Ltd concludes that the proposal creates sufficient area to sustain an on-site sewage system in accordance with the requirements of *The On-Site Sewerage Code* and *AS/NZS 1547:2000*.

We trust the attachments are to your satisfaction and invite you to please contact our office should you require additional information.

Yours faithfully,

ERIN BERTHELSEN
Senior Planner

3. Indicate the total area of the premises on which the development is proposed. (Note: The total area may include land both above and below water)

99.28	<input type="checkbox"/> m ² <input checked="" type="checkbox"/> hectares (Tick applicable unit)
-------	---

4. Current use/s of the premises: (e.g. vacant land, house, townhouses, apartment building, shop, service station, school, sugar cane farming etc.)

1	Sugar Cane Farming
2	Sugar Cane Farming
3	Sugar Cane Farming

5. Are there any existing easements on the premises? (e.g. for vehicular access, electricity, overland flow, water etc.)?

☐ No ☒ Yes - Ensure the type, location and dimensions of each easement are included in plans, submitted with the application

6. Brief description of the proposal (e.g. 6 unit apartment building, 30 lot residential subdivision, a bore, aquaculture)

Reconfiguration of a Lot (three lots into three lots)

7. Does the proposal include new buildings or operational work (including any services) on the premises?

☒ No ☐ Yes - Ensure the nature, location and dimensions of the proposed works are included in plans, submitted with the application

8. Does the application involve taking or interfering with a State resource and therefore require a resource entitlement? (e.g. the application involves State land (leased and freehold), declared Fish Habitat areas, taking quarry material, taking or interfering with water under the Water Act 2000, etc.)

☒ No - Go to Q9 ☐ Yes - Complete Table G - provide details for each evidence required on a separate row, if applicable. Evidence of resource allocation or entitlement must be submitted with the application. You do not need to answer Q9 - go to the next section.

9. Complete Table H for applications involving a material change of use; reconfiguration of a lot; work on land below high-water mark and not within a canal as defined under the *Coastal Protection and Management Act 1995*; or work on rail corridor land defined under the *Transport Infrastructure Act 1994* - provide details for each owner on a separate row, or on an attachment to this form if applicable.

Table H				
1	Gregory Scott Dillon 194 Ferguson Road AYR QLD 4807	Lot 24 on SP216752 Lot 1 on RP710755 Lot 8 on RP702289		01/12/09

* Owner's signature cannot be provided on the form if you intend to submit the application electronically. Owner's consent must be provided to the assessment manager on an attachment containing appropriate written documentation of the owner's consent. If the owner is a company, s127 of the Corporations Act 2001 (Cwealth) details how a company may sign as owner. Templates for the provision of owner's consent are available on the [IPA website](#).

Table 1	Description of attachment or information (e.g. Part C of Form 1, owner's consent, evidence of resource allocation/entitlement, plans, drawings, reports)	Title (if applicable) (e.g. General Authority, Jones Street Traffic Report)	Date	Method of delivery to assessment manager
1	Part F of Form 1	Reconfiguring a Lot	30-Oct-2009	over the counter
2	Part J of Form 1	Clearing native vegetation under the Vegetation Management Act 1999	30-Oct-2009	over the counter
3	IDAS Assessment Checklist		30-Oct-2009	over the counter
4	BM Plan 55472/003A	Proposed Reconfiguration	27-Oct-2009	over the counter
5	BM Plan 55698/001	Proposed Reconfiguration	19-Oct-2009	over the counter
6	Report by Nicoll Beattie	Site Assessment		over the counter

10. The Portable Long Service Leave Levy (PLSL) is not applicable to this application if any of the following apply: (Tick box if applicable)

- ☐ the application seeks a preliminary approval only;
- ☒ the application is not for building and construction work under the *Building and Construction Industry (Portable Long Service Leave) Act 1991*, section 3AA (e.g. the application is only for a change of use, or for the following types of work carried out solely for farming purposes: land clearing, site preparation, earthworks, fences, fodder harvesting, clearing of encroaching vegetation, clearing of regrowth, thinning vegetation or controlling weeds or pests);
- ☐ all costs, that relate to the work both directly and indirectly, are less than \$80,000, inclusive of GST; or
- ☐ the work is being carried out under an owner-builder permit issued under the *Queensland Building Services Authority Act 1991* - Complete and submit a QLeave Notification and Payment Form (no payment required if owner-builder permit number stated). The receipted form must be sighted by the assessment manager before a development permit can be given.

11. Is payment of a PLSL levy applicable to this application? (Refer to Q10 and the Advice below for more information)?

- ☒ No - End of Part A
- ☐ Yes - Answer Q12 below

OFFICE USE ONLY (For use by the Assessment Manager / Private Certifier) (Optional)

Fee (\$)	Date received	Receiving officer's name	Reference numbers

The information collected on Form 1 will be used by the Department of Infrastructure and Planning (DIP) in accordance with the processing and assessment of your Application. Your personal details will not be disclosed for a purpose outside of the IDAS process, except where required by legislation (including the Freedom of Information Act 1992) or as required by Parliament. This information may be stored in a DIP database. The information collected will be retained as required by the Public Records Act 2002.

Form 1 Development Application

idas

Part F**Reconfiguring a lot**

1. What is the nature of the lot reconfiguration? (Tick applicable box/es)

- ☐ (i) Subdivision - Complete Question 2 - 5 and 9 below
- ☒ (ii) Boundary realignment - Complete Question 2 - 4, 6 - 7 and 10 below
- ☐ (iii) Creating an easement giving access to a lot from a constructed road - Complete Question 2 - 4, 8 and 10 below
- ☐ (iv) Dividing land into parts by agreement and rendering different parts of a lot immediately available for separate disposition or separate occupation, other than by either -
- ☐ (a) a lease for a term, including renewal options, not exceeding 10 years; or
- ☐ (b) an agreement for the exclusive use of part of the common property for a community title scheme under the *Body Corporate and Community Management Act 1997* - Complete Question 2 - 4, 9 - 10 below

2. How are the premises identified / zoned in the planning scheme?

1	Rural
---	-------

3. What is the total number of existing lots making up the premises, the subject of the application?

3

4. What is the total area of the premises?

99.28

☐ Square metres (m²)☒ Hectares

5. Does the proposal involve multiple stages?

☐ No - Complete Table A☐ Yes - Complete Table B

6. What are the current and proposed dimensions for each lot forming the premises? (Provide details for each lot on a separate row)

	Lot on plan description	Area	Length of road frontage	Lot on plan description	Area	Length of road frontage
1	Lot 24 on SP216752	71.57ha	1089m	Proposed Lot 27 on BM55472/003A	71.27ha	1049m
2	Lot 24 on SP216752	71.57ha	1089m	Proposed Lot 28 on BM55472/003A	2996m ²	40m
3	Lot 1 on RP710755	6.518ha	199.8m	Proposed Lot 29 on BM55698/001	27.713ha	602.1m
4	Lot 8 on RP702289	21.195ha	402.3m	Proposed Lot 29 on BM55698/001	27.713ha	602.1m

7. What is the reason for the boundary realignment?

To create a lot suitable for a future dwelling

8. What are the dimensions and nature of the proposed easement?

--	--	--	--

9. What is the number of parts being created and what is their intended final use?

--	--	--	--

10. Confirm the following mandatory information accompanies this application

Plans showing the proposed lot reconfiguration, including -		
(i) Existing lot configuration	<input checked="" type="checkbox"/> Confirmed	over the counter
(ii) Dimensions of lots	<input checked="" type="checkbox"/> Confirmed	over the counter
(iii) Existing and proposed new roads (if applicable)	<input checked="" type="checkbox"/> Confirmed	over the counter
(iv) Existing and proposed easements (if applicable)	<input checked="" type="checkbox"/> Confirmed	over the counter
(v) The location and dimensions of land to be dedicated for community purposes (if applicable)	<input type="checkbox"/> Confirmed	
(vi) The final intended use of the new lots or parts	<input checked="" type="checkbox"/> Confirmed	over the counter
(vii) The lot reconfiguration in relation to the surrounding land	<input checked="" type="checkbox"/> Confirmed	over the counter

Part J**Clearing native vegetation under the
Vegetation Management Act 1999**

1. What is the nature of the application and type of approval sought? (Tick applicable box/es)

<input type="checkbox"/> (i) Operational work for clearing vegetation made assessable under IPA, schedule 8	<input checked="" type="checkbox"/> Development Permit
<input type="checkbox"/> (ii) Material change of use of premises	<input type="checkbox"/> Preliminary approval
<input checked="" type="checkbox"/> (iii) Reconfiguring a lot	<input type="checkbox"/> Both (provide details below)

2. Confirm the following mandatory information accompanies this application.

<p>(i) A Property Vegetation Management Plan including -</p> <ul style="list-style-type: none"> a. the location and extent of the area proposed to be cleared; b. information about the purpose of the clearing; c. details of the way the proposed clearing meets the performance requirements of the regional vegetation management code for the area; and d. details of the location and extent of proposed clearing, through either <ul style="list-style-type: none"> i. a map showing - <ul style="list-style-type: none"> • the boundary of the area on an image base; • five or more points visible in the image base that corresponds to identifiable fixed features; • the Map Grid of Australia 1994 coordinates and zone references for each point, acquired by GPS or similar system of satellites that receives and processes information; and • a description of the feature that each point represent; or ii. a description of the boundary of the area by reference to Map Grid of Australia 1994 coordinates and zone references for the area 	<input type="checkbox"/> Confirmed	
<p>(ii) For an application for which the assessment manager is the local government -written confirmation that the Department of Natural Resources and Water is satisfied the proposed clearing is for a relevant purpose under the <i>Vegetation Management Act 1999</i>, section 22A</p>	<input type="checkbox"/> Confirmed <input type="checkbox"/> Not applicable	
<p>(iii) For an application for which the assessment manager is the Department of Natural Resources and Water, either -</p> <ul style="list-style-type: none"> a. written confirmation that the Department of Natural Resources and Water is satisfied the proposed clearing is for a relevant purpose under the <i>Vegetation Management Act 1999</i>, section 22A; or b. information identifying the relevant purpose under the <i>Vegetation Management Act 1999</i>, section 22A and demonstrating how the proposed clearing is for that purpose 	<input type="checkbox"/> Confirmed <input type="checkbox"/> Not applicable	
<p>(iv) Any material, including plans and maps, which demonstrate how the application meets the relevant policy and the performance requirements of the relevant code for the area</p>	<input checked="" type="checkbox"/> Confirmed	over the counter
<p>(v) The location and extent of -</p> <ul style="list-style-type: none"> a. all infrastructure associated with the development, including proposed building envelopes and underground or above ground services b. all proposed lot boundaries c. all proposed roads, easements, vehicle access and parking, and pedestrian access d. any proposed clearing or consequential clearing that will result from the development, including firebreaks and fire management lines, excavations and stockpiling of soil, and clearing necessary to maintain proposed infrastructure following its construction 	<input checked="" type="checkbox"/> Confirmed	over the counter

IDAS

Assessment Checklist

Form 1 also includes the IDAS Assessment Checklist, which is used to assist in determining assessment requirements and the Parts of Form 1 relevant to the application.

Section 1 and all other relevant sections of the IDAS Assessment Checklist, as identified in the Table below, must be completed for all development applications except those proposed on land in an urban development area, or for building work requiring assessment against the *Building Act 1975* only.

For more information about development applications on land in an urban development area, refer to www.uida.qld.gov.au

For more advice about building applications refer to Part B of the IDAS Application Form.

Answering the following questions will assist you in determining which sections of the checklist must be completed for your application. If unsure, phone or visit your local government or log onto the DIP website for help

For all IDAS development applications (except those for building work requiring assessment against the <i>Building Act 1975</i> only) - complete Section 1 of this checklist		
Does the application seek approval to make a material change of use of the premises? <i>If yes - complete Section 2 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to reconfigure a lot? <i>If yes - complete Section 3 of this checklist and Part F of IDAS Application Form 1. If the premises are completely within a single local government area assessment is by the local government.</i>	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Does the application seek approval to carry out operational work? <i>If yes - complete Section 4 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against the <i>Fisheries Act 1994</i> ? <i>If yes - complete Section 5 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Have you received a referral agency response under section 3.3.2. of the IPA, in relation to this development application? <i>If yes - complete Section 6 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against a local government planning scheme? <i>If yes - complete Form 1 Part E of IDAS Application Form 1. Assessment is by the local government.</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against the <i>Building Act 1975</i> ? <i>If yes - go to Appendix 1 of this checklist for advice on building referrals. Complete Part B of IDAS Application Form 1. Assessment is by a building certifier</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Do you wish the application to be assessed against a superseded planning scheme? <i>If yes - complete Form 1 Attachment 1</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Is the application for development completely or partly on Cairns and Mackay airport land under the <i>Airport Assets (Restructuring and Disposal) Act 2008</i> ? <i>If yes - Assessment is by the Department of Infrastructure and Planning. Complete Form 1 Part D of IDAS Application Form 1 if the application is for a material change of use, and Part E if for building or operational work. Also, the application must be referred to the local government as Advice Agency.</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No

HERITAGE

1.1A Is any part of the proposal intended to be carried out on a Queensland heritage place under the *Queensland Heritage Act 1992*?

☒ No - Go to 1.1B ☐ Yes

IPA, schedule 8, part 1, table 5, item 2; IP Regulation, schedule 2, table 2, item 18

1.1B Does the proposal involve development intended to be carried out on a place entered in a local heritage register under part 11 of the *Queensland Heritage Act 1992*, other than if the place is on Cairns or Mackay airport land?

☒ No - Go to Q1.2 ☐ Yes

IPA, schedule 8, part 1, table 5, item 2A; IP Regulation, schedule 1, part 2, table 5, item 2

1.2 Does the proposal involve removing quarry material from a watercourse or lake as defined under the *Water Act 2000*?

☒ No - Go to Q1.3 ☐ Yes

IPA, schedule 8, part 1, table 5, item 1; IP Regulation, schedule 2, table 2, item 11; IP Regulation, schedule 1, table 5, item 2 (wild river area); Water Act 2000, section 966C; Wild Rivers Act 2005, section 43A

1.3 Does the proposal involve an environmentally relevant activity (ERA), other than a mining activity or a petroleum activity?

☒ No - Go to Q1.4 ☐ Yes

IPA, schedule 8, part 1, table 5, item 1; IPA, schedule 8, part 1, table 5, items 3 and 4; IP Regulation, schedule 2, table 2, items 1 and 23; Environmental Protection Act 1994, section 73AA (wild river area); Wild Rivers Act 2005, section 43A relevant wild river declaration; Wild Rivers Code

1.4 Is any part of the premises within the limits of a port under the *Transport Infrastructure Act 1994*?

☒ No - Go to Q1.5

☐ Yes

IP Regulation, schedule 2, table 2, items 15 and 16

1.5 Does any part of the premises adjoin a declared fish habitat area under the *Fisheries Act 1994*?

☒ No - Go to Q1.6

☐ Yes - If answers to questions in other sections of this checklist indicate that the proposed development is assessable under IPA, schedule 8, this application requires assessment by the Department of Primary Industries and Fisheries (DPI&F). If DPI&F is not the Assessment Manager for the application, the agency has jurisdiction as Advice Agency.

IP Regulation, schedule 2, table 2, item 26

1.6 Is any part of the premises designated for community infrastructure?

☒ No - Go to Q1.7

☐ Yes

IP Regulation, schedule 2, table 3, item 7

1.7 Does the proposal involve the establishment or expansion of a waste water disposal system?

☒ No - End of Section 1 ☐ Yes

IP Regulation, schedule 2, table 3, item 5

STATE-CONTROLLED ROAD

3.1 Is any part of the premises located in part of a future State-controlled road, or within 100m of a State-controlled road?

☒ No ☐ Yes

If no, is the proposed reconfiguration listed in *Integrated Planning Regulation 1998*, schedule 5 and does it exceed the threshold?

☒ No - Go to Q3.2 ☐ Yes - The application must be referred to the Department of Main Roads (DMR) as Concurrence Agency.

IP Regulation, schedule 2, table 3, item 3. IP Regulation, schedule 2, table 2, item 2

3.2 Is any part of the premises within a coastal management district?

☒ No - Go to Q3.3

☐ Yes - This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 13(a)

3.3 Do the premises include a lot containing the following?

(i) A category 1, 2 or 3 area shown on a Property Map of Assessable Vegetation (PMAV)

☒ No ☐ Yes

(ii) If there is no PMAV for a lot, remnant vegetation

☐ No ☒ Yes

If yes to either or both (i) or (ii) above, are 2 or more lots proposed to be created?

☐ No - Go to Q3.4 ☒ Yes

If yes, is any lot, before the proposed reconfiguration, 2ha or larger?

☐ No - Go to Q3.4 ☒ Yes

If yes, is the size of any lot proposed to be created, 25ha or smaller?

☐ No - Go to Q3.4 ☒ Yes - (Complete Form 1, Part J) This application must be referred to the Department of Natural Resources and Water (NRW) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 4

3.4 Is any part of the premises subject to an easement?

☐ No - Go to Q3.5 ☒ Yes - Answer both (a) and (b) below

(a) Is there an easement in favour of a distribution entity or transmission entity under the *Electricity Act 1994* for a transmission grid or supply network under that Act?

☒ No ☐ Yes - This application must be referred to the entity as Advice Agency.

(b) Is there an easement in favour of the holder of Pipeline Licence Number 1 issued under the *Petroleum Act 1923* for the construction or operation of the Moonie to Brisbane strategic pipeline under that Act?

☒ No ☐ Yes - This application must be referred to the licence holder as Advice Agency.

IP Regulation, schedule 2, table 2, item 20(a) (electricity easement), IP Regulation, schedule 2, table 2, item 32 (pipeline easement)

3.5 Is any part of the premises situated within 100m of a substation site under the *Electricity Act 1994*?

☒ No - Go to Q3.6 ☐ Yes - This application must be referred to the entity responsible for the substation as Advice Agency.

IP Regulation, schedule 2, table 2, item 20(b)

3.6 Is any part of the land forming the premises on the Environmental Management Register or Contaminated Land Register under the *Environmental Protection Act 1994*?

☒ No - Go to Q3.7 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

- 3.7 Is any part of the land forming the premises currently used for a notifiable activity, or if there is no existing use was it last used for a notifiable activity?

☒ No - Go to Q3.8 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

- 3.8 Is any part of the premises currently used for an industrial activity (other than for a mining activity or petroleum activity), or if there is no existing use was it last used for an industrial activity (other than for a mining activity or petroleum activity)?

☒ No - Go to Q3.9 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

- 3.9 Is any part of the premises in an area for which an area management advice has been given for natural mineralisation or industrial activity (other than for a mining activity or petroleum activity)?

☒ No - Go to Q3.10 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

- 3.10 Is any part of the premises in an area for which an area management advice has been given for unexploded ordnance?

☒ No - Go to Q3.11

☐ Yes - (Complete Form 1, Part N) This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 21(b)

- 3.11A Is any part of the premises within the South East Queensland (SEQ) designated region?

☒ No - Go to Q3.11B ☐ Yes

Draft South East Queensland Regional Plan 2009-2031 Regulatory Provisions, division 3: IP Regulation, schedule 2, table 2, item 35

- 3.11B Is any part of the premises within the Far North Queensland region (FNQ Region) designated region?

☒ No - Go to Q3.12 ☐ Yes

Far North Queensland Regional Plan State Planning Regulatory Provisions 2009, division 3: IP Regulation, schedule 2, table 2, item 35

- 3.12 Is any part of the premises in a koala conservation area or koala sustainability area, other than in an SEQ urban footprint area?

☐ Yes ☒ No

If no, is any part of the premises in an interim koala habitat protection area?

☒ No - Go to Q3.13 ☐ Yes

IP Regulation, schedule 2, table 2, item 33 and 34A

- 3.13 Is the proposed reconfiguration in connection with the construction of a canal?

☒ No - Go to Q3.14

☐ Yes - (Complete Form 1, Part M) This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 13(b)

- 3.14 Is the proposed reconfiguration in an area declared to be a catchment area under the *Water Act 2000*?

☒ No - Go to Q3.15

☐ Yes

IP Regulation, schedule 2, table 2 item 19

- 3.15 Is the proposed reconfiguration listed in schedule 13A of the *Integrated Planning Regulation 1998* and does it exceed the specified threshold?

☒ No - Go to Q3.16 ☐ Yes - This application must be referred to QueenslandTransport (QT) as Concurrence Agency.

IP Regulation, schedule 2, table 2 item 30; IP Regulation, schedule 13A

- 3.16 Is the proposed reconfiguration listed in schedule 13B of the *Integrated Planning Regulation 1998* and does it exceed the specified threshold?

☒ No - Go to Q3.17 ☐ Yes - This application must be referred to QueenslandTransport (QT) as Concurrence Agency.

IP Regulation, schedule 2, table 2 item 31; IP Regulation, schedule 13B

- 3.17 Does the proposed reconfiguration result in more than 10 lots or any lot less than 5ha in area?

☐ No - Go to Q3.18 ☒ Yes - (Answer (a) and (b) below)

- (a) Does the proposed reconfiguration involve a lot situated in, or within 100m of, a wetland shown on the 'Map of referable wetlands'?

☐ No

☒ Yes - This application must be referred to the EPA as Advice Agency.

- (b) Does the reconfiguration involve a lot situated in, or within 100m of, the following?

- | | | | |
|-------|--|--|------------------------------|
| (i) | A protected area, forest reserve, critical habitat or area of major interest under the <i>Nature Conservation Act 1992</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (ii) | A State forest or timber reserve under the <i>Forestry Act 1959</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (iii) | A marine park under the <i>Marine Parks Act 2004</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (iv) | A recreation area under the <i>Recreation Area Management Act 1988</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (v) | A world heritage area listed under the World Heritage Convention | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (vi) | Brisbane forest park under the <i>Brisbane Forest Park Act 1977</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |

If yes to any one of (i) - (vi) above - this application must be referred to the Queensland Government department administering the relevant Act mentioned as Advice Agency.

IP Regulation, schedule 2, table 2, items 38 and 39

- 3.18 Does the proposed reconfiguration involve a lot sharing a common boundary with a Queensland Heritage place under the *Queensland Heritage Act 1992*?

☒ No - End of Section 3

☐ Yes - This application must be referred to the Environmental Protection Agency (EPA) as Advice Agency. - End of Section 3

IP Regulation, schedule 2, table 2, item 41

Site Assessment for On-site Sewage Treatment

Due to Boundary Re-configuration

Cancelling Lot 24 on SP216752

Ferguson Road, Ayr

Nicoll Beattie Pty. Ltd.

CIVIL ENGINEERS

ABN 41-050 419 193

"The Shed"

Upper Haughton Road

P.O. Box 372

Giru 4809

Phone: 4784 4199

Fax: 4784 4200

Introduction

The landholders intend to reconfigure their land in order to separate off a new smaller allotment. The proposed new allotment will have an area of 2996m².

Design Basis

This report has been prepared in accordance with the requirements of *The On-Site Sewerage Code* and *AS/NZS 1547:2000*

Topography

The proposed new allotment is level for the purpose of on-site sewage treatment and each proposed new allotment will have a 40m frontage to Ferguson Road.

The proposed reconfiguration of boundaries is shown on Brazier Motti Plan No. 55472_003A.

Setbacks

Water will be supplied to the proposed allotment by a bore water system.

Any areas used for the land application of treated effluent should be at least 50m from bores and from open water and drainage easements. There is adequate land area available to achieve the required setbacks.

The land application area must be at least 2.0m from structures and boundaries.

Site Assessment

The soil in this area has been mapped (McClurg, J., Juergensen, C., Christianos, N. and Enderlin, N, 2005. *Lower Burdekin Delta area North and South Burdekin Water Board areas Soils*, The State of Queensland, Natural Resources and Mines 2005.) and the Unique Map Area is 167, BUfc. This soil is described therein as :

Map Unit Code: BUfc
Australian Soil Classification: Black or Brown Dermosol

Major attributes of the

Dominant Soil: 0.3-0.7m black fine sandy light to light medium clay, over black to brown fine sandy light to light medium clay to 1.2-1.5+m , over brown, occasionally yellow, fine sand to fine sandy loam to 1.5+m. Neutral Soil Reaction Trend

An appropriate effluent treatment system is to remove any unsuitable overlying clay material (if necessary) and replace it with screened Burdekin River sand to connect to the underlying *in situ* sand or sandy loam. This would make the soil on the allotment Category 1 (rapidly drained). The Design Loading Rate for these soils is 20L/m²/day. However, should the overlying clay layer prove too deep at the site chosen for the land application of effluent then a Wisconsin mound should be constructed.

Recommended system

An appropriate effluent treatment system for these proposed allotments is to remove any unsuitable overlying clay material (if necessary) and replace it with screened Burdekin River sand to connect to the underlying *in situ* sand or sandy loam as shown below.

* Trench depth will depend on depth to the underlying sand, and this varies from 500mm to 900mm.

It is important that the trench is excavated to the underlying sand and the unsuitable material removed and replaced with sand as shown on "Filter Grading Envelope".

Screened Burdekin River sand meets this grading envelope.

On-Site Effluent Treatment Trench cross section

However, should the overlying clay layer prove too deep at the site chosen for the land application of effluent then a Wisconsin mound should be constructed.

The surface soils are poorly suited to the land application of primary treated effluent from conventional septic tanks. However, Wisconsin mound systems have proved effective in several parts of the world.

Fig. 1. Schematic of the Wisconsin Mound System.

Key components of a Wisconsin mound (Converse and Tyler 1990)

For Wisconsin mounds, effluent flows from the septic tank to the pump chamber from where it is pumped to laterals near the top of the bed, as shown above.

Each of these systems offer the advantages of even distribution of effluent over the entire area as well as dose loading. Dose loading means that the effluent volume builds up in the pump chamber until a nominated "dose" is reached, and is then pumped into the trench in about two to three minutes. This causes a wet and dry treatment that provides effective treatment of the effluent and prolongs trench life.

Another advantage of these types of system is the aeration that occurs when the effluent discharges into the aggregate bed in the trench and as it filters down through the sand mound.

Conclusion

The proposed boundary re-configuration does not cause any impediment to adequate on site effluent treatment.

There is adequate land on each proposed allotment to construct proper on-site effluent treatment areas as well as reserve future treatment areas to serve normal three- to four-bedroom domestic dwellings.

There are no known environmental or public health constraints to the on-site treatment of domestic waste.

Provided statutory setbacks are observed contamination of water supplies is unlikely.

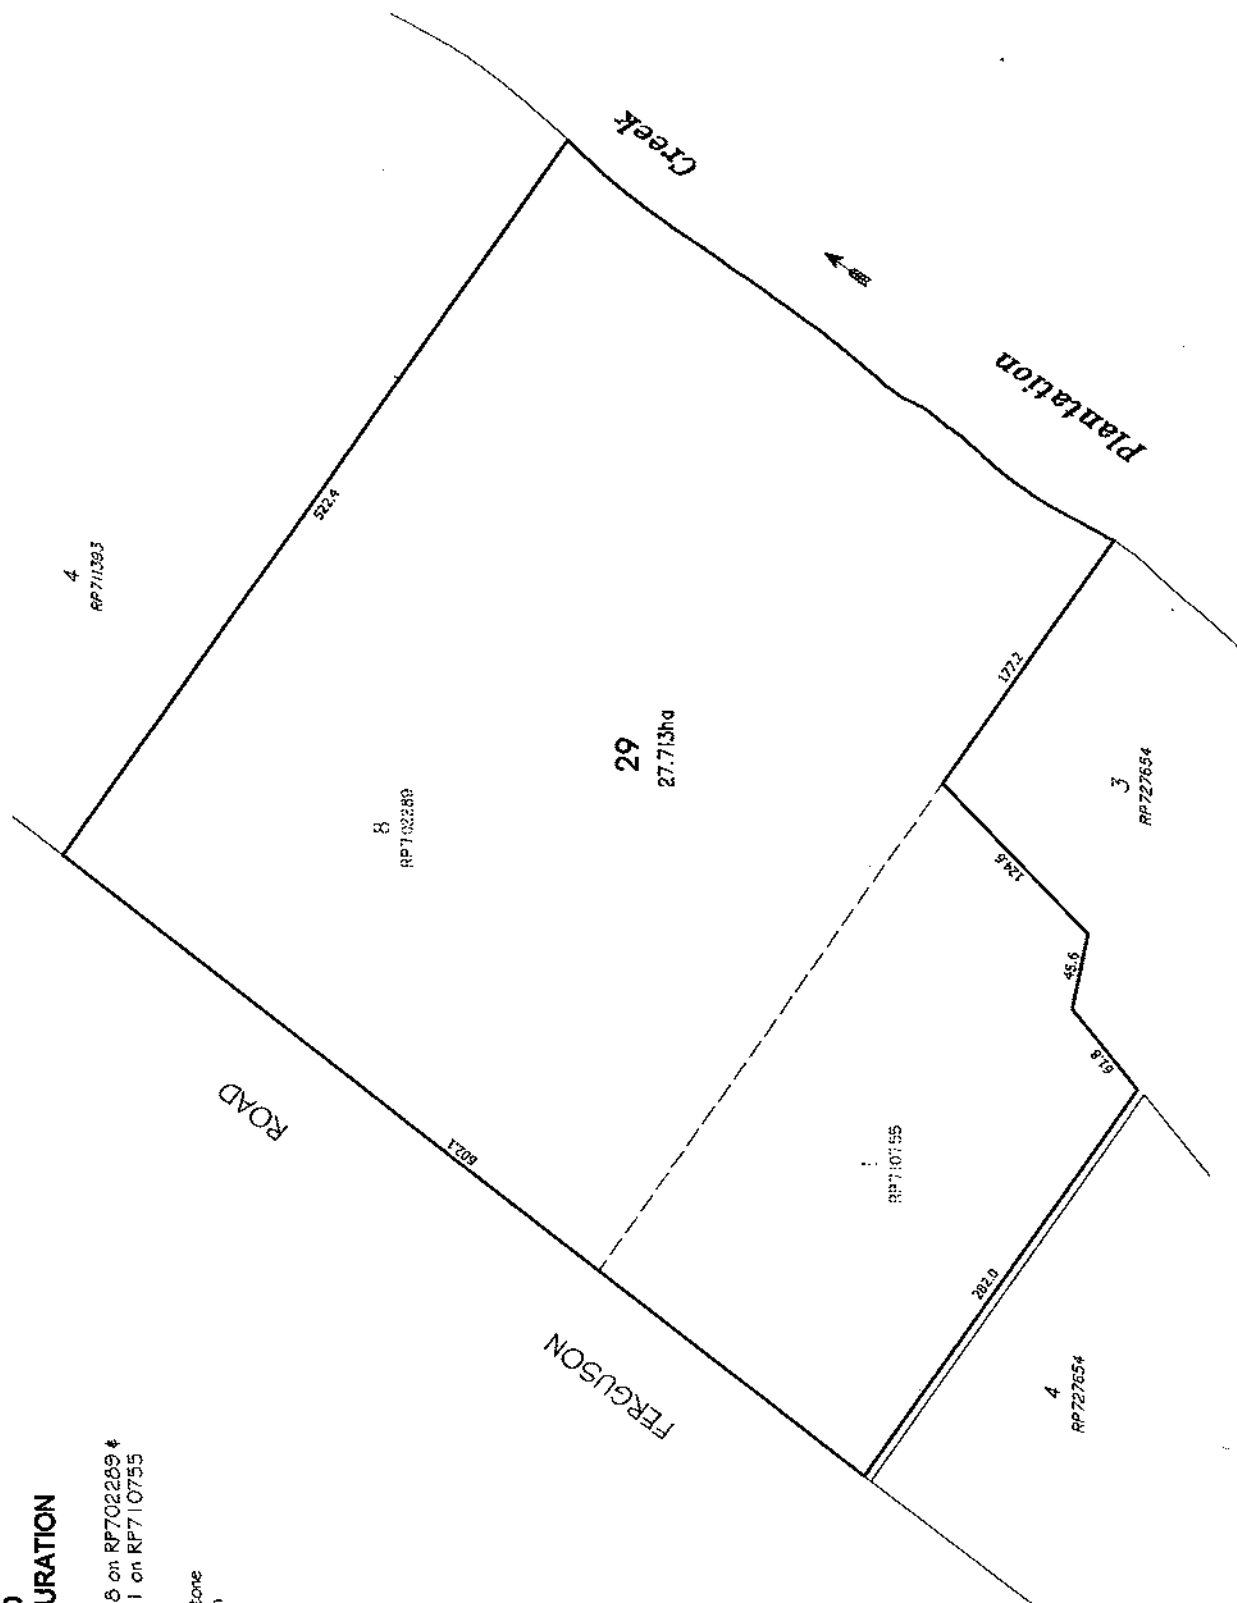

J N H Beattie

Programme Category:	Environment & Operations		
Classification:	N/A	Date:	3 rd March, 2010.
Referring Letter No:	941298	File No:	1/4/5A
Subject Heading:	Surrender of Permit to Occupy 207057 & issue of replacement Permit		
Name of Applicant:	Department of Environment & Resource Management		
Location:	Lot 1 on PER207057, Plantation Creek (Parish of Morrill, County of Gladstone)		
Author and Officer's Title:	S. Great, Manager Planning and Development		

Executive Summary:

A request has been received from Department of Environment & Resource Management, seeking Council's views in respect of the surrender of Permit to Occupy 207057 and issue of a replacement permit over land described as Lot 1 on PER207057, Plantation Creek (Parish of Morrill, County of Gladstone).

Officer's Recommendation:

That Council offers no objection to the request for the surrender of the existing Permit to Occupy 207057 in the name of Shane Douglas Power and issue of replacement permit over land described as Lot 1 on PER207057, Plantation Creek (Parish of Morrill, County of Gladstone) in the name of Brent William Lee.

Background:

Correspondence has been received from Department of Environment & Resource Management, requesting Council's views in respect of the surrender of the existing Permit to Occupy 207057 in the name of Shane Douglas Power and issue of replacement permit over land described as Lot 1 on PER207057, Plantation Creek (Parish of Morrill, County of Gladstone) in the name of Brent William Lee.

Council's views in respect of the surrender of the Permit to Occupy are requested in accordance with Department of Environment and Resource Management requirements.

Council's Acting Manager – Environment and Health, Linda Govan has made comment that this property does not have an approved waste water treatment system and there has not been any building approvals issued. Ms Govan has recommended that as the property is a small allotment and the land will be used for domestic purposes only (creek hut), Council offers no objection to the request.

Dear Sir

Re: Application to surrender Permit to occupy over Lot 1 on PER207057 (PO 207057) in the name of Shane Douglas Power and to issue replacement permit to Brent William Lee.

I refer to the above matter and wish to advise that an application to Surrender Permit to Occupy over Lot 1 on Crown Plan PER207057 for residential (weekend/holiday/fishing) is currently being investigated by this Department. Our records indicate Permit 207057 is currently registered in the name of Shane Douglas Power as permittees.

Could you please advise this Department if your agency has any views and/or requirements in respect to the application to surrender this permit to occupy and re-issue same in the name of Brent William Lee.

I have attached a plan of the permit area for your information.

In the event that your Agency objects to the surrender and re-issue of the permit occupy in the name of Brent William Lee, the facts relied upon and reasons for such objection must be provided to this Department.

If no reply is received by close of business on 16 March 2010, it will be assumed that you have no requirements or objections to this application. Should there be some delay in your response or you require further information please do not hesitate to contact the writer on 4799 7654 quoting our file reference 2010/001045.

Yours sincerely,

Deirdre Choveaux

MEMO TO THE MANAGER OF PLANNING AND DEVELOPMENT

RE: APPLICATION TO SURRENDER PERMIT TO OCCUPY OVER LOT 1 ON PER207057(PO207057) (SHANE POWER) AND ISSUE REPLACEMENT PERMIT TO (BRENT LEE)

I refer to correspondence received from The Department of Environment and Resource Management (Letter No. 941298) in relation to an application to surrender Permit to Occupy over Lot 1 on Crown Plan PER207507 (PO207057) and re-issue the permit to Brent Lee.

This property does not have an approved waste water treatment system and there has not been any building approvals issued.

As this property is a small allotment, there is no proposed change of use, and the land will be used for domestic purposes only (creek hut), I recommend that Council offer no objection to the request.

File No: Sub 09-44

Subject Heading: Lodging a Development Application for Reconfiguring a Lot

Name of Applicant: Mottin Farming

Location: 374 and 312 McDesme Road, McDesme (Lot 6 & 8 on SP201161, Parish of Antill, County of Gladstone)

Author and Officer's Title: S Great
Manager - Planning & Development

Executive Summary:

An application has been received from Cleve McGuane Pty Ltd on behalf of their client Mottin Farming seeking approval for Reconfiguring a lot (Boundary Realignment) at 374 and 312 McDesme Road, McDesme (Lot 6 & 8 on SP201161, Parish of Antill, County of Gladstone). A Development Application (Code Assessable) has been triggered in accordance with the Burdekin Shire IPA Planning Scheme.

Officer's Recommendation:

That Council approves the Development Application for Reconfiguring a Lot (Boundary Realignment) at 374 and 312 McDesme Road, McDesme (Lot 6 & 8 on SP201161, Parish of Antill, County of Gladstone), subject to the following conditions:

GENERAL

- 1.1 The Council will not release the formal Plan of Reconfiguration until all rates and charges in arrears in respect of the land, the subject of the application, are paid in full;
- 1.2 Pay the sum of \$47-80 calculated on the basis of a charge of \$23-90 per lot to be levied on the Council by the Department of Environment & Resource Management for each new valuation;
- 1.3 The Developer shall grant council an easement for drainage purposes from the top of bank on the southern side of the gully to the southern side of McDesme Road over the gully that traverses existing lots 6 & 8 on S.P. 201161. The easement is to be granted free of compensation and be prepared by Council's Solicitor with all costs involved including survey costs, preparation and registration of the easement to be borne by Council.

ROADWORKS

2. The construction of any crossovers to give access to the land is to be the owner's responsibility and to the satisfaction of the Chief Executive Officer;

PROPOSAL PLAN

3. The reconfiguration of the land must be carried out generally in accordance with:-
 - (a) (i) the proposed Cleve McGuane Surveys Pty Ltd plans numbered 28482-1 sheet 1 and 2;
 - (ii) the plans, specifications, facts and circumstances as set out in the application submitted to Council;Except where modified by the conditions of approval and any approval issued there under; and
 - (b) any approval issued under this approval; and
 - (c) any development permit for operational works relating to the reconfiguring of a lot;

PUBLIC UTILITY SERVICES

4. If any existing public utility service including telephone, electricity, water, sewerage or gas needs to be altered or relocated to complete the reconfiguration the developer must bear the cost of alteration or relocation;

ADVICE (Note: These are not conditions)

- Unless otherwise specified by these conditions, the conditions must be complied with prior to approval of the Plan of Survey;
-

Background:

The following comments are from the Manager of Planning & Development, Mr Shane Great:

The Application:

It is the applicant's intent to realign the boundaries of the existing 2 lots to allow for rationalisation of the existing rural land, and also create a lot 9 for the existing house and associated farm sheds. Proposed Lot 8 will contain the balance area which will continue to be used primarily for agricultural uses. Both proposed lots will have access to McDesme Road. Proposed lot 9's access will be via an easement.

Site Description/Surrounding Land Uses:

The subject site comprises a total area of 78.06ha with approximately 520m of fronting to Ferguson Road, the land is currently improved by a sugar cane farm, dwelling house and 3 corrugated iron sheds. The surrounding area is primarily agricultural land, with some rural residential housing and sheds on the neighbouring farms.

Effluent Disposal:

A site assessment report from Nicoll Beattie Pty. Ltd. concludes that the proposed new lots create sufficient area to sustain an on-site sewage system in accordance with the requirements of *The On-Site Sewerage Code and AS/NZS 1547:2000*. The report concludes that there are no known environmental or public health constraints to the on-site treatment of domestic waste and the subject soils are generally well suited to the on-site treatment of domestic waste.

Recommendation:

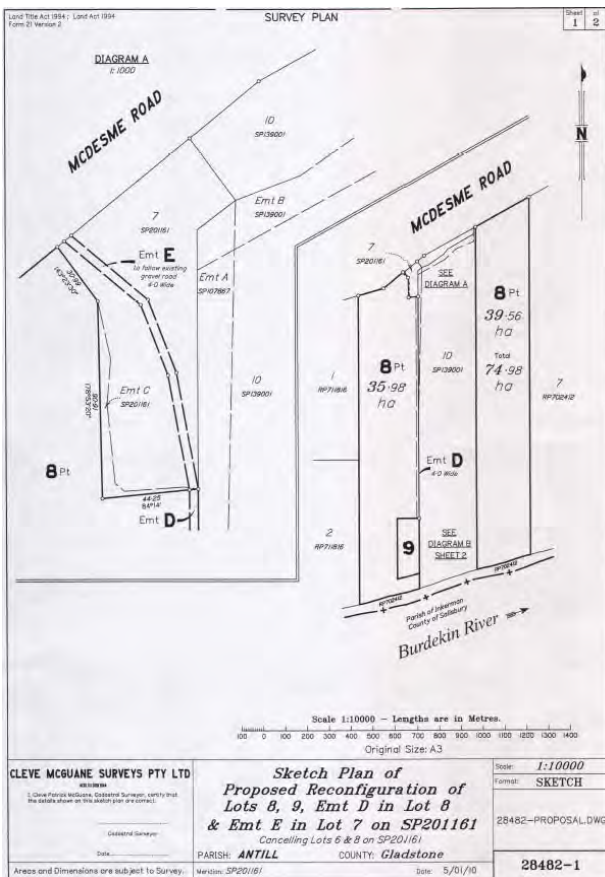

Council's Development Assessment Team members have assessed the application and have included reasonable and relevant conditions as part of the recommended approval. Given that the proposal complies with the provisions contained in Council's IPA Planning Scheme and in particular the acceptable solutions of the 'Reconfiguration of a Lot' zone code, it is recommended that Council approve the application subject to the abovementioned conditions.

Consultation (internal/external):

The application triggered a referral to the Department of Environment and Resource Management (DERM) due to the proposed new lots being located in mapping within 100 metres of a wetland. An Advice Agency response was received on 25th February, 2010 stating that DERM had no recommendations. All relevant Council departments have been consulted.

Attn: Mr. Shane Great

RE: Reconfiguration Application for Mottin Farming at McDesme Road, McDesme.

Dear Sir,

On behalf of our client, we make an application for a Development Permit to realign the boundaries of Lots 6 & 8 on SP201161 as shown on Drawing 28482-1.

This proposal is to create a house lot to include the houses and sheds near the Burdekin River, an access easement from this lot to McDesme Road and to amalgamate the farming land into one lot. Proposed Lot 9 is not currently used for farming and no farming land will be lost as a result of this application.

Easement A on SP107867 benefits Lot 8 on SP201161 for access and easement C on SP201161 benefits Lot 8 on SP201161 for Telsta infrastructure.

Both original lots are bounded by the Burdekin River and therefore will need to be referred to the State Government for "wetland" and "remnant vegetation" reasons as the River is a regrowth watercourse.

Mr. John Mottin, a long time resident and owner, has told me that the River does not break its banks in the vicinity of Proposed Lot 9 though it does both up and downstream from there.

Included are State Government maps of wetlands and regrowth vegetation.

The land is under contract for sale to Mottin Farming but this has not been finalized and these application forms have been signed by the current owners.

The new owners do not intend to clear any vegetation but with Sub 09-13 the State Government demanded I complete Part J of Form 1 so have done so again for this application.

Mr. Nic Beattie will provide soil test results to Council.

We seek Council's support for this proposal.

Should you require any further information do not hesitate to contact me.

Existing use of the premises

4. Current use/s of the premises: (e.g. vacant land, house, townhouses, apartment building, shop, service station, school, sugar cane farming etc.)

1	Houses & Sugar Cane Farming
---	-----------------------------

5. Are there any existing easements on the premises? (e.g. for vehicular access, electricity, overland flow, water etc.)?

☐ No ☒ Yes - Ensure the type, location and dimensions of each easement are included in plans, submitted with the application

Proposal details

6. Brief description of the proposal (e.g. 6 unit apartment building, 30 lot residential subdivision, a bore, aquaculture)

Boundary Realignment

7. Does the proposal include new buildings or operational work (including any services) on the premises?

☒ No ☐ Yes - Ensure the nature, location and dimensions of the proposed works are included in plans, submitted with the application

Resource entitlement (if applicable) - further information is provided in the advice section at the end of the form

8. Does the application involve taking or interfering with a State resource and therefore require a resource entitlement? (e.g. the application involves State land (leased and freehold), declared Fish Habitat areas, taking quarry material, taking or interfering with water under the Water Act 2000, etc.)

☒ No - Go to Q9 ☐ Yes - Complete Table G - provide details for each evidence required on a separate row, if applicable. Evidence of resource allocation or entitlement must be submitted with the application. You do not need to answer Q9 - go to the next section.

Owner's consent (if applicable) - further information is provided in the advice section at the end of the form

9. Complete Table H for applications involving a material change of use; reconfiguration of a lot; work on land below high-water mark and not within a canal as defined under the *Coastal Protection and Management Act 1995*; or work on rail corridor land defined under the *Transport Infrastructure Act 1994* - provide details for each owner on a separate row, or on an attachment to this form if applicable.

Table H	Premises Owner's name/s and postal address	Details of the premises owned (street address or lot on plan description)	Owner's signature	Date consent was obtained

77.5

☐ Square metres (m²)☒ Hectares**Subdivision details (if applicable)**

5. Does the proposal involve multiple stages?

☒ No - Complete Table A☐ Yes - Complete Table B**Table A**

(i) What is the number of additional lots being created and what is their intended final use?

Intended final use of new lots	Residential	Commercial	Industrial	Other (Specify)
Additional number of lots created				

(ii) What is the type of approval being sought?

☒ Development Permit☐ Preliminary approval

(iii) Are there any current, relevant approvals on the premises? (e.g. a Preliminary Approval for the subdivision, a material change of use etc.)

☒ No☐ Yes - Provide details below

(iv) What is the total length of new road to be constructed?

0

(v) What is the total area of land to be contributed for community purposes?

0

(vi) Does the proposal involve the construction of a canal or other artificial waterway?

☒ No ☐ Yes - Refer to the advice at the end of the form

(vii) Does the proposal involve operational work for the building of a retaining wall?

☒ No ☐ Yes - Refer to the advice at the end of the form

Boundary realignment details (if applicable)

6. What are the current and proposed dimensions for each lot forming the premises? (Provide details for each lot on a separate row)

	Current Lots				Proposed Lots		
	Lot on plan description	Area	Length of road frontage		Lot on plan description	Area	Length of road frontage
1	Lots 6 & 8 on SP201161	77.5 ha	400 m	8 9		74.35 ha 3.156 ha	400 m 4 m

7. What is the reason for the boundary realignment?

New House Lot

Easement details (if applicable)

8. What are the dimensions and nature of the proposed easement?

Width (metres)	Length (metres)	Purpose of the easement (e.g. pedestrian access)	Entity favoured by the easement
4.00	1,140.00	Access Emts D & E	Lot 9

Agreement details (if applicable)

9. What is the number of parts being created and what is their intended final use?

Intended final use of new parts	Residential	Commercial	Industrial	Other (Specify)
Additional number of parts created				

Mandatory information

10. Confirm the following mandatory information accompanies this application

	Confirmation of lodgement	Method of lodgement
When creating lots by subdivision or rearranging boundaries		
Plans showing the proposed lot reconfiguration, including -	<input checked="" type="checkbox"/> Confirmed	
(i) Existing lot configuration	<input checked="" type="checkbox"/> Confirmed	
(ii) Dimensions of lots	<input checked="" type="checkbox"/> Confirmed	
(iii) Existing and proposed new roads (if applicable)	<input checked="" type="checkbox"/> Confirmed	
(iv) Existing and proposed easements (if applicable)	<input checked="" type="checkbox"/> Confirmed	
(v) The location and dimensions of land to be dedicated for community purposes (if applicable)	<input type="checkbox"/> Confirmed	
(vi) The final intended use of the new lots or parts	<input checked="" type="checkbox"/> Confirmed	
(vii) The lot reconfiguration in relation to the surrounding land	<input checked="" type="checkbox"/> Confirmed

Part J*Clearing native vegetation under the
Vegetation Management Act 1999***Nature of the application and type of approval sought**1. What is the nature of the application and type of approval sought? *(Tick applicable box/es)*

Aspect of development included in application		Type of approval sought	
<input type="checkbox"/> (i)	Operational work for clearing vegetation made assessable under IPA, schedule 8	<input checked="" type="checkbox"/>	Development Permit
<input type="checkbox"/> (ii)	Material change of use of premises	<input type="checkbox"/>	Preliminary approval
<input checked="" type="checkbox"/> (iii)	Reconfiguring a lot	<input type="checkbox"/>	Both <i>(provide details below)</i>

Mandatory information

2. Confirm the following mandatory information accompanies this application.

	Confirmation of compliance	Written statement
For operational work applications		
(i) A Property Vegetation Management Plan including - <ul style="list-style-type: none"> a. the location and extent of the area proposed to be cleared; b. information about the purpose of the clearing; c. details of the way the proposed clearing meets the performance requirements of the regional vegetation management code for the area; and d. details of the location and extent of proposed clearing, through either <ul style="list-style-type: none"> i. a map showing - <ul style="list-style-type: none"> • the boundary of the area on an image base; • five or more points visible in the image base that corresponds to identifiable fixed features; • the Map Grid of Australia 1994 coordinates and zone references for each point, acquired by GPS or similar system of satellites that receives and processes information; and • a description of the feature that each point represent; or ii. a description of the boundary of the area by reference to Map Grid of Australia 1994 coordinates and zone references for the area 	<input type="checkbox"/> Confirmed	
(ii) For an application for which the assessment manager is the local government -written confirmation that the Department of Natural Resources and Water is satisfied the proposed clearing is for a relevant purpose under the <i>Vegetation Management Act 1999</i> , section 22A	<input type="checkbox"/> Confirmed <input type="checkbox"/> Not applicable	
(iii) For an application for which the assessment manager is the Department of Natural Resources and Water , either - <ul style="list-style-type: none"> a. written confirmation that the Department of Natural Resources and Water is satisfied the proposed clearing is for a relevant purpose under the <i>Vegetation Management Act 1999</i>, section 22A; or b. information identifying the relevant purpose under the <i>Vegetation Management Act 1999</i>, section 22A and demonstrating how the proposed clearing is for that purpose 	<input type="checkbox"/> Confirmed <input type="checkbox"/> Not applicable	
For applications for material, change of use and reconfiguring a lot		
(iv) Any material, including plans and maps, which demonstrate how the application meets the relevant policy and the performance requirements of the relevant code for the area	<input type="checkbox"/> Confirmed	
(v) The location and extent of - <ul style="list-style-type: none"> a. all infrastructure associated with the development, including proposed building envelopes and underground or above ground services b. all proposed lot boundaries c. all proposed roads, easements, vehicle access and parking, and pedestrian access d. any proposed clearing or consequential clearing that will result from the development, including firebreaks and fire management lines, excavations and stockpiling of soil, and clearing necessary to maintain proposed infrastructure following its construction 	<input type="checkbox"/> Confirmed

Form 1 Development Application

idas

IDAS

Assessment Checklist

IDAS Development Application Form 1 is the approval form for all development applications under the Integrated Planning Act 1997 (IPA). Form 1 is made up of various Parts.

Part A (Common details) of Form 1 must be completed for all applications. The relevance of other Parts of Form 1 depends on the nature of the application.

Form 1 also includes the IDAS Assessment Checklist, which is used to assist in determining State Assessment and referral requirements and the Parts of Form 1 relevant to the application.

Sections and all other relevant sections of the IDAS Assessment Checklist, as identified in the table below, must be completed for all development applications except those proposed on and in an urban development area, or for building work requiring assessment against the Building Act 1975 only.

For more information about development applications on and in an urban development area, refer to www.dip.qld.gov.au.

For more advice about building applications refer to Part B of the IDAS Application Form.

Answering the following questions will assist you in determining which sections of the checklist must be completed for your application. If unsure, phone or visit your local government or log onto the DIP website www.dip.qld.gov.au for help.

For **all** IDAS development applications (except those for building work requiring assessment against the Building Act 1975 only) - complete **Section 1** of this checklist

Does the application seek approval to make a material change of use of the premises? <i>If yes - complete Section 2 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to reconfigure a lot? <i>If yes - complete Section 3 of this checklist and Part F of IDAS Application Form 1. If the premises are completely within a single local government area assessment is by the local government.</i>	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Does the application seek approval to carry out operational work? <i>If yes - complete Section 4 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against the Fisheries Act 1994? <i>If yes - complete Section 5 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Have you received a referral agency response under section 3.3.2 of the IPA, in relation to this development application? <i>If yes - complete Section 6 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against a local government planning scheme? <i>If yes - complete Form 1 Part E of IDAS Application Form 1. Assessment is by the local government.</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against the Building Act 1975? <i>If yes - go to Appendix 1 of this checklist for advice on building referrals. Complete Part B of IDAS Application Form 1. Assessment is by a building certifier</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Do you wish the application to be assessed against a superseded planning scheme? <i>If yes - complete Form 1 Attachment 1</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Is the application for development completely or partly on Cairns and Mackay airport land under the Airport Assets (Restructuring and Disposal) Act 2008? <i>If yes - Assessment is by the Department of Infrastructure and Planning. Complete Form 1 Part D of IDAS Application Form 1 if the application is for a material change of use, and Part E if for building or operational work. Also, the application must be referred to the local government as Advice Agency.</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No

SECTION 1: This section must be completed for all applications that require completion of the IDAS Assessment Checklist.

HERITAGE

- 1.1A Is any part of the proposal intended to be carried out on a Queensland heritage place under the *Queensland Heritage Act 1992*?

☒ No - Go to 1.1B ☐ Yes

IPA, schedule 8, part 1, table 5, item 2; IP Regulation, schedule 2, table 2, item 18.

- 1.1B Does the proposal involve development intended to be carried out on a place entered in a local heritage register under part 11 of the *Queensland Heritage Act 1992*, other than if the place is on Cairns or Mackay airport land?

☒ No - Go to Q1.2 ☐ Yes

IPA, schedule 8, part 1, table 5, item 2A; IP Regulation, schedule 1, part 2, table 5, item 2.

REMOVING QUARRY MATERIAL, WILD RIVER AREA

- 1.2 Does the proposal involve removing quarry material from a watercourse or lake as defined under the *Water Act 2000*?

☒ No - Go to Q1.3 ☐ Yes

IPA, schedule 8, part 1, table 5, item 1; IP Regulation, schedule 2, table 2, item 11; IP Regulation, schedule 1, table 5, item 2 (wild river area); Water Act 2000, section 966C; Wild Rivers Act 2005, section 43A

ENVIRONMENTALLY RELEVANT ACTIVITY, WILD RIVER AREA

- 1.3 Does the proposal involve an environmentally relevant activity (ERA), other than a mining activity or a petroleum activity?

☒ No - Go to Q1.4 ☐ Yes

IPA, schedule 8, part 1, table 2, item 1; IPA, schedule 8, part 1, table 5, items 3 and 4; IP Regulation, schedule 2, table 2, items 1 and 23; Environmental Protection Act 1994, section 73AA (wild river area); Wild Rivers Act 2005, section 43A; relevant wild river declaration; Wild Rivers Code.

WITHIN THE LIMITS OF A PORT

- 1.4 Is any part of the premises within the limits of a port under the *Transport Infrastructure Act 1994*?

☒ No - Go to Q1.5
☐ Yes

IP Regulation, schedule 2, table 2, items 15 and 16

DECLARED FISH HABITAT AREA

- 1.5 Does any part of the premises adjoin a declared fish habitat area under the *Fisheries Act 1994*?

☒ No - Go to Q1.6
☐ Yes - If answers to questions in other sections of this checklist indicate that the proposed development is **assessable under IPA, schedule 8**, this application requires assessment by the Department of Primary Industries and Fisheries (DPI&F). If DPI&F is not the Assessment Manager for the application, the agency has jurisdiction as Advice Agency.

IP Regulation, schedule 2, table 2, item 26

COMMUNITY INFRASTRUCTURE

- 1.6 Is any part of the premises designated for community infrastructure?

☒ No - Go to Q1.7
☐ Yes

IP Regulation, schedule 2, table 3, item 7

WASTE WATER MANAGEMENT

- 1.7 Does the proposal involve the establishment or expansion of a waste water disposal system?

☒ No - End of Section 1 ☐ Yes

IP Regulation, schedule 2, table 3, item 5

SECTION 3

This section must be completed when the application seeks approval to develop land.

STATE-CONTROLLED ROAD

3.1 Is any part of the premises located in part of a future State-controlled road, or within 100m of a State-controlled road?

☒ No ☐ YesIf no, is the proposed reconfiguration listed in *Integrated Planning Regulation 1998*, schedule 5 and does it exceed the threshold?☒ No - Go to Q3.2 ☐ Yes - The application must be referred to the Department of Main Roads (DMR) as Concurrence Agency.*IP Regulation, schedule 2, table 3, item 3; IP Regulation, schedule 2, table 2, item 2***COASTAL MANAGEMENT DISTRICT**

3.2 Is any part of the premises within a coastal management district?

☒ No - Go to Q3.3☐ Yes - This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.*IP Regulation, schedule 2, table 2, item 13(a)***VEGETATION CLEARING**

3.3 Do the premises include a lot containing the following?

(i) A category 1, 2 or 3 area shown on a Property Map of Assessable Vegetation (PMAV)

☒ No ☐ Yes

(ii) If there is no PMAV for a lot, remnant vegetation

☒ No ☐ Yes*IP Regulation, schedule 2, table 2, item 4***EASEMENTS**

3.4 Is any part of the premises subject to an easement?

☐ No - Go to Q3.5 ☒ Yes - Answer both (a) and (b) below(a) Is there an easement in favour of a distribution entity or transmission entity under the *Electricity Act 1994* for a transmission grid or supply network under that Act?☒ No ☐ Yes - This application must be referred to the entity as Advice Agency.(b) Is there an easement in favour of the holder of Pipeline Licence Number 1 issued under the *Petroleum Act 1923* for the construction or operation of the Moonie to Brisbane strategic pipeline under that Act?☒ No ☐ Yes - This application must be referred to the licence holder as Advice Agency.*IP Regulation, schedule 2, table 2, item 20(a) (electricity easement); IP Regulation, schedule 2, table 2, item 32 (pipeline easement)***ELECTRICITY SUBSTATIONS**3.5 Is any part of the premises situated within 100m of a substation site under the *Electricity Act 1994*?☒ No - Go to Q3.6 ☐ Yes - This application must be referred to the entity responsible for the substation as Advice Agency.*IP Regulation, schedule 2, table 2, item 20(b)***CONTAMINATED LAND - REGISTERED LAND**3.6 Is any part of the land forming the premises on the Environmental Management Register or Contaminated Land Register under the *Environmental Protection Act 1994*?☒ No - Go to Q3.7 ☐ Yes*IP Regulation, schedule 2, table 2, item 21(a)***CONTAMINATED LAND - NOTIFIABLE ACTIVITY**

3.7 Is any part of the land forming the premises currently used for a notifiable activity, or if there is no existing use was it last used for a notifiable activity?

☒ No - Go to Q3.8 ☐ Yes*IP Regulation, schedule 2, table 2, item 21(a)*

CONTAMINATED LAND - INDUSTRIAL ACTIVITY

- 3.8 Is any part of the premises currently used for an industrial activity (other than for a mining activity or petroleum activity), or if there is no existing use was it last used for an industrial activity (other than for a mining activity or petroleum activity)?

☒ No - Go to Q3.9 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

CONTAMINATED LAND - AREA MANAGEMENT ADVICE (NATURAL MINERALISATION OR INDUSTRIAL ACTIVITY)

- 3.9 Is any part of the premises in an area for which an area management advice has been given for natural mineralisation or industrial activity (other than for a mining activity or petroleum activity)?

☒ No - Go to Q3.10 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

CONTAMINATED LAND - AREA MANAGEMENT ADVICE (UNEXPLODED ORDNANCE)

- 3.10 Is any part of the premises in an area for which an area management advice has been given for unexploded ordnance?

☒ No - Go to Q3.11

☐ Yes - (Complete Form 1, Part N) This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 21(b)

SOUTH EAST QUEENSLAND REGION

- 3.11A Is any part of the premises within the South East Queensland (SEQ) designated region?

☒ No - Go to Q3.11B ☐ Yes

Draft South East Queensland Regional Plan 2009-2031 Regulatory Provisions, division 3; IP Regulation, schedule 2, table 2, item 35

FAR NORTH QUEENSLAND REGION

- 3.11B Is any part of the premises within the Far North Queensland region (FNQ Region) designated region?

☒ No - Go to Q3.12 ☐ Yes

Far North Queensland Regional Plan State Planning Regulatory Provisions 2009, division 3; IP Regulation, schedule 2, table 2, item 35

KOALA CONSERVATION

- 3.12 Is any part of the premises in a koala conservation area or koala sustainability area, other than in an SEQ urban footprint area?

☐ Yes ☒ No

If no, is any part of the premises in an interim koala habitat protection area?

☒ No - Go to Q3.13 ☐ Yes

IP Regulation, schedule 2, table 2, item 33 and 34A

CANAL DEVELOPMENT

- 3.13 Is the proposed reconfiguration in connection with the construction of a canal?

☒ No - Go to Q3.14

☐ Yes - (Complete Form 1, Part M) This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 13(b)

DECLARED CATCHMENT AREA

- 3.14 Is the proposed reconfiguration in an area declared to be a catchment area under the *Water Act 2000*?

☒ No - Go to Q3.15

☐ Yes

IP Regulation, schedule 2, table 2, item 19

PUBLIC PASSENGER TRANSPORT

3.15 Is the proposed reconfiguration listed in schedule 13A of the *Integrated Planning Regulation 1998* and does it exceed the specified threshold?

- ☒ No - Go to Q3.16 ☐ Yes - This application must be referred to Queensland Transport (QT) as Concurrence Agency.
IP Regulation, schedule 2, table 2, item 30; IP Regulation, schedule 13A

RAIL TRANSPORT

3.16 Is the proposed reconfiguration listed in schedule 13B of the *Integrated Planning Regulation 1998* and does it exceed the specified threshold?

- ☒ No - Go to Q3.17 ☐ Yes - This application must be referred to Queensland Transport (QT) as Concurrence Agency.
IP Regulation, schedule 2, table 2, item 31; IP Regulation, schedule 13B

WETLAND CONSERVATION ESTATE

3.17 Does the proposed reconfiguration result in more than 10 lots or any lot less than 5ha in area?

- ☐ No - Go to Q3.18 ☒ Yes - (Answer (a) and (b) below)

(a) Does the proposed reconfiguration involve a lot situated in, or within 100m of, a wetland shown on the 'Map of referable wetlands'?

- ☐ No
☒ Yes - This application must be referred to the EPA as Advice Agency.

(b) Does the reconfiguration involve a lot situated in, or within 100m of, the following?

- | | | | |
|-------|--|--|------------------------------|
| (i) | A protected area, forest reserve, critical habitat or area of major interest under the <i>Nature Conservation Act 1992</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (ii) | A State forest or timber reserve under the <i>Forestry Act 1959</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (iii) | A marine park under the <i>Marine Parks Act 2004</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (iv) | A recreation area under the <i>Recreation Area Management Act 1988</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (v) | A world heritage area listed under the World Heritage Convention | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (vi) | Brisbane forest park under the <i>Brisbane Forest Park Act 1977</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |

If **yes** to **any one** of (i) - (vi) above - this application must be referred to the Queensland Government department administering the relevant Act mentioned as Advice Agency.

IP Regulation, schedule 2, table 2, items 38 and 39

HERITAGE

3.18 Does the proposed reconfiguration involve a lot sharing a common boundary with a Queensland Heritage place under the *Queensland Heritage Act 1992*?

- ☒ No - End of Section 3
☐ Yes - This application must be referred to the Environmental Protection Agency (EPA) as Advice Agency. - End of Section 3
IP Regulation, schedule 2, table 2, item 41

WILD RIVER AREA - Although legislation provides for assessment of lot reconfiguration for the purposes of the *Wild Rivers Act 2005*, currently no declarations for any of the wild river areas apply the Wild Rivers code to that type of development.

Development applications made under the Integrated Planning Act 1997 must be referred to the EPA if the subject lot is identified as sharing a common boundary with a heritage place, or is in or within 100m of a wetland or conservation estate, and meets the criteria required under Schedule 2 of the Integrated Planning Regulation 1998.

Information shown on this map includes current data for referable wetlands, conservation estate and heritage places as required under Schedule 2 of the Integrated Planning Regulation 1998. Referable wetlands mapping has been taken from the 'Map of referable wetlands'. All datasets are updated as they become available to provide the most current information as of the date shown on this map.

Line work for the referable areas has been compiled at a variety of scales and should be used as a guide only. Consideration of the effects of mapped scale is necessary when interpreting the data. Buffer area shown is equivalent to approximately 100m from the boundary of the subject lot.

Disclaimer: Whilst every care is taken to ensure the accuracy of this product, the Queensland Government and MapInfo Australia Pty Ltd make no representations or warranties about its accuracy, reliability, completeness or suitability for any particular purpose and disclaim all responsibility and all liability (including without limitation, liability in negligence) for all expenses, losses, damages (including direct or consequential damage) and costs which might be incurred as a consequence of reliance on the product, or as a result of the product being inaccurate or incomplete in any way and for any reason.

Introduction

The landholders intend to reconfigure their allotments to maximise the farming allotments and separate the unviable land.

The reconfiguration will provide proposed allotment areas of:

Lot 7 (dwelling) – 4042m²

Lot 8 (cane land) – 158.6ha

Design Basis

This report has been prepared in accordance with the requirements of The *Queensland Plumbing and Wastewater Code* and *AS/NZS 1547:2000*

Topography

The proposed reconfiguration of boundaries is shown on Cleve McGuane Surveys Pty. Ltd. Plan no. 28482-1.

The proposed allotments are essentially level for on-site sewage treatment purposes.

The land has been modified (levelled) at some stage to assist irrigation and surface drainage.

Water is, or will be, supplied to each of the proposed allotments by bore water supply.

Site Assessment

The soil in this area has been mapped (McClurg, J., Juergensen, C., Christianos, N. and Enderlin, N, 2005. *Lower Burdekin Delta area North and South Burdekin Water Board areas Soils*, The State of Queensland, Natural Resources and Mines 2005.).

The proposed new allotments lie across UMA nos. 512 (BUma), 514 (BUfb), 511 (BUma-BGna) and 236 (BUfc). The dwelling allotment (proposed Lot 9 lies within UMA 422 (BUmd).

This soil is described therein as:

Map Unit Code: BUmd
Australian Soil Classification: Black or Brown Kandosol
Black or Brown Dermosol

Major attributes of the

Dominant Soil: 0.2-0.5m black to grey or brown loam to clay loam, fine sandy, over brown loam to clay loam, fine sandy to 1.2-1.5+m, over brown sand to fine sandy loam to 1.5+m.
Neutral Soil Reaction Trend

Recommended system

An appropriate effluent treatment system for these proposed allotments is to remove any unsuitable overlying clayey material (if necessary) and replace it with screened Burdekin River sand to connect to the underlying *in situ* sand or sandy loam as shown below.

* Trench depth will depend on depth to the underlying sand, and this varies from 500mm to 900mm.

It is important that the trench is excavated to the underlying sand and the unsuitable material removed and replaced with sand as shown on "Filter Grading Envelope".

Screened Burdekin River sand meets this grading envelope.

On-Site Effluent Treatment
Trench cross section

However, should the overlying clayey layer prove too deep at the site chosen for the land application of effluent then a Wisconsin mound should be constructed.

Where the surface soils are poorly suited to the land application of primary treated effluent from conventional septic tanks. However, Wisconsin mound systems have proved effective in several parts of the world.

Fig. 1. Schematic of the Wisconsin Mound System.

Key components of a Wisconsin mound (Converse and Tyler 1990)

For Wisconsin mounds, effluent flows from the septic tank to the pump chamber from where it is pumped to laterals near the top of the bed, as shown above.

Each of these systems offer the advantages of even distribution of effluent over the entire area as well as dose loading. Dose loading means that the effluent volume builds up in the pump chamber until a nominated "dose" is reached, and is then pumped into the trench in about two to three minutes. This causes a wet and dry treatment that provides effective treatment of the effluent and prolongs trench life.

Another advantage of these types of system is the aeration that occurs when the effluent discharges into the aggregate bed in the trench and as it filters down through the sand mound.

The soils across the subject land are of similar classification, being clayey loams overlying sand or sandy loam, and all of these soils are essentially suitable for the land application of primary treated effluent as described above.

Conclusion

The proposed boundary re-configuration does not cause any impediment to adequate on site effluent.

The subject soils are generally well suited to the on-site treatment of domestic wastewater.

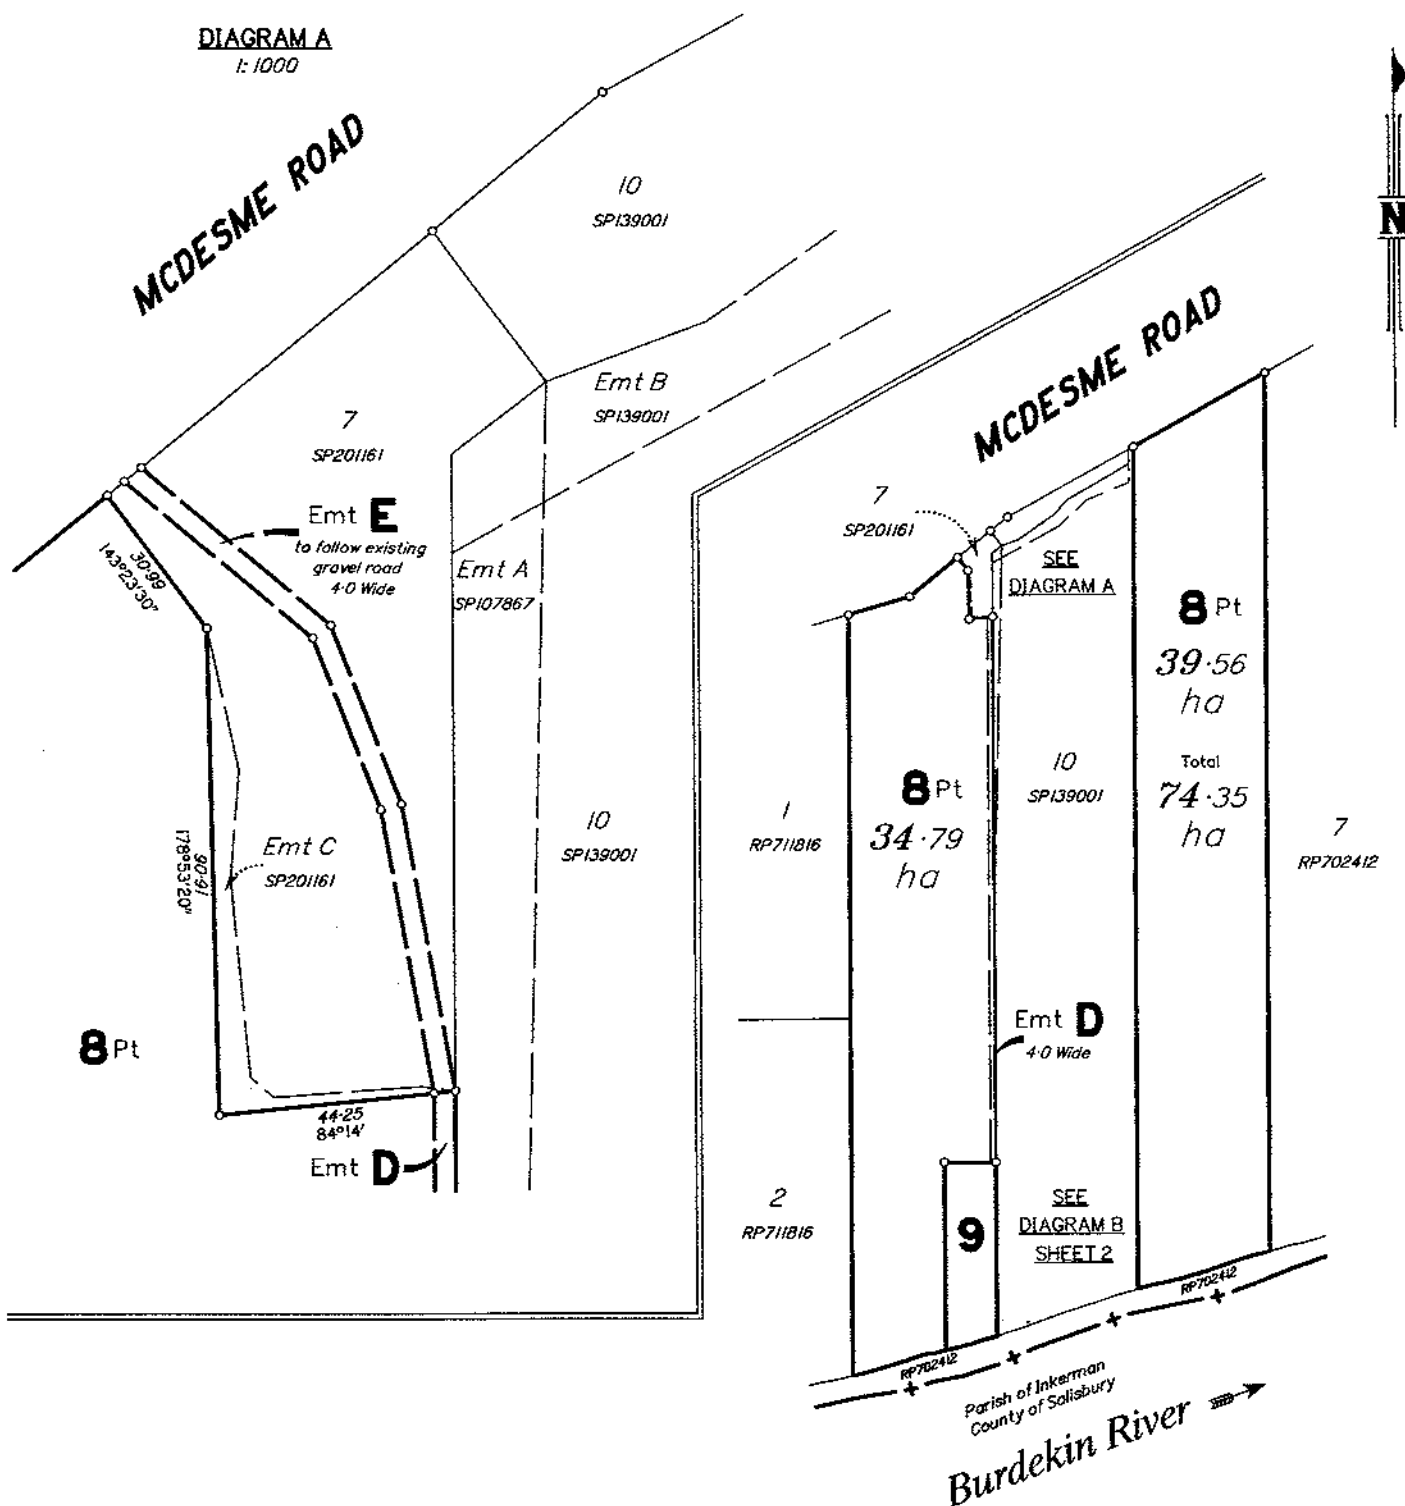

There are no known environmental or public health constraints to the on-site treatment of domestic waste.

A handwritten signature in black ink, appearing to read 'J N H Beattie', written in a cursive style.

Burdekin Shire Council

Programme Category: Environment & Operations

Classification: N/A

Date: 3rd March, 2010

Referring Letter No: 911056, 940069

File No: Sub 09-34

Subject Heading: Lodging a Development Application for Reconfiguring a Lot

Name of Applicant: Michael Roncato

Location: 135, 183 & 159 Klondyke Road, Brandon (Lot 4 & Lot 7 on SP222938, & Lot 22 on SP117887, Parish of Antill, County of Gladstone)

Author and Officer's Title: S Great
Manager - Planning & Development

Executive Summary:

An application has been received from Brazier Motti on behalf of their client Michael Roncato seeking approval for Reconfiguring a lot (Boundary Realignment) at 135, 183 & 159 Klondyke Road, Brandon (Lot 4 & Lot 7 on SP222938, & Lot 22 on SP117887, Parish of Antill, County of Gladstone). A Development Application (Code Assessable) has been triggered in accordance with the Burdekin Shire IPA Planning Scheme.

Officer's Recommendation:

That Council approves the Development Application for Reconfiguring a Lot (Boundary Realignment) at 135, 183 & 159 Klondyke Road, Brandon (Lot 4 & Lot 7 on SP222938, & Lot 22 on SP117887, Parish of Antill, County of Gladstone), subject to the following conditions:

GENERAL

- 1.1 The Council will not release the formal Plan of Reconfiguration until all rates and charges in arrears in respect of the land, the subject of the application, are paid in full;
- 1.2 Pay the sum of \$71-70 calculated on the basis of a charge of \$23-90 per lot to be levied on the Council by the Department of Environment & Resource Management for each new valuation;

ROADWORKS

2. The construction of any crossovers to give access to the land is to be the owner's responsibility and to the satisfaction of the Chief Executive Officer;

PROPOSAL PLAN

3. The reconfiguration of the land must be carried out generally in accordance with:-
 - (a) (i) the proposed Brazier Motti plan numbered 55433/5C;
 - (ii) the plans, specifications, facts and circumstances as set out in the application submitted to Council;Except where modified by the conditions of approval and any approval issued there under; and
 - (b) any approval issued under this approval; and
 - (c) any development permit for operational works relating to the reconfiguring of a lot;

PUBLIC UTILITY SERVICES

4. If any existing public utility service including telephone, electricity, water, sewerage or gas needs to be altered or relocated to complete the reconfiguration the developer must bear the cost of alteration or relocation;

ADVICE (Note: These are not conditions)

- Unless otherwise specified by these conditions, the conditions must be complied with prior to approval of the Plan of Survey;
-

Background:

The following comments are from the Manager of Planning & Development, Mr Shane Great:

The land is zoned 'Rural' with the proposal triggering a 'code assessable' development application for reconfiguring a lot (Boundary Realignment). The application has been assessed against the Reconfiguration of a Lot Code under the provisions of the Burdekin Shire Council's IPA Planning Scheme.

The Application:

It is the applicant's intent to reconfigure the 3 existing lots, proposed lot 3 will include the existing dwelling house and sheds, proposed lot 9 will provide a suitable area for future residential development with proposed lot 4 containing the balance agricultural area. The proposed realignment will not alter the current agricultural use of the area. All proposed lots will have access to Klondyke Road.

Site Description/Surrounding Land Uses:

The subject site comprises a total area of 78.94ha and has approximately 936m frontage to Klondyke Road. This site is currently improved by a sugar cane farm, dwelling house and some farms sheds. The surrounding area is primarily agricultural land, with some rural residential housing and sheds on the neighbouring farms.

Effluent Disposal:

A site assessment report from Nicoll Beattie Pty. Ltd. confirms that each proposed lot has adequate area to construct proper on-site effluent treatment areas. The report also states that there are no known environmental or public health constraints to the on-site treatment of domestic waste.

Recommendation:

Council's Development Assessment Team members have assessed the application and have included reasonable and relevant conditions as part of the recommended approval. Given that the proposal complies with the provisions contained in Council's IPA Planning Scheme and in particular the acceptable solutions of the 'Reconfiguration of a Lot' zone code, it is recommended that Council approve the application subject to the abovementioned conditions.

Consultation (internal/external):

All relative Council departments have been consulted, there was no external consultation required for this application.

Attention: Town Planning Department

Dear Sir/Madam

APPLICATION FOR DEVELOPMENT PERMIT
RECONFIGURATION OF A LOT (3 LOTS INTO 3 LOTS)
KLONDYKE ROAD, BRANDON
APPLICANT: MICHAEL RONCATO

BURDEKIN SHIRE COUNCIL	
Folder No.	SUB 09/34
03 SEP 2009	
Document No.	

Please be advised that we act on behalf of Mr Michael Roncato, with regard to the above mentioned development application.

This application has been prepared to seek approval of the proposed Reconfiguration of a Lot at Klondyke Road, Brandon being properly described as Lots 4 & 7 on SP222938 and Lot 3 on SP117887, Parish of Antill, County of Gladstone. The subject site is identified as being within the Rural Zone under the Burdekin Shire Planning Scheme.

The development application requests a Development Permit for Reconfiguring a Lot, which under the provisions of the Burdekin Shire Planning Scheme is Code Assessable.

To enable Council's consideration, please find enclosed the following documents:

- Two (2) copies of IDAS application forms 1A & F, and IDAS Checklist;
- Two (2) copies of proposal plans, prepared by Brazier Motti Pty Ltd;
- Two (2) copies of a Site Assessment Report prepared by Nicoll Beattie Pty Ltd;
- The Applicant's payment of \$1,825.00, being Council's application fee.

The subject site comprises a total area of 78.94ha, has approximately 936 metres frontage to Klondyke Road and is currently improved by a single detached dwelling, sheds and cane farm.

Approval of the Development Application will authorise a Development Permit for Reconfiguring a Lot to create three(3) allotments. Plans detailing the proposed reconfiguration are enclosed with this application.

..12

VIEW		AGENDA	
		DATE	
NOTED		VIEW	
ACTION	PLAN DEV	ACTION	
DEADLINE	12.11.09	DEADLINE	

It is the Applicant's intent to create proposed lot 3 to include the existing dwelling house, proposed lot 9 for a future dwelling while proposed lot 4 will continue to be used for rural pursuits.

With the provision of reasonable and relevant conditions, we consider that Council are able to approve the proposed reconfiguration on the following grounds:

- The proposed boundary realignment does not increase the total number of allotments in the locality;
- The proposal will not fragment the existing rural industry that occurs on the site;
- The proposed reconfiguration provides a suitable area for the existing dwelling house, future dwelling house and surrounding land.
- The attached Site Assessment from Nicoll Beattie Pty Ltd concludes that the proposal creates sufficient area to sustain an on-site sewage system in accordance with the requirements of *The On-Site Sewerage Code* and *AS/NZS 1547:2000*.

We trust the attachments are to your satisfaction and invite you to please contact our office should you require additional information.

Yours faithfully,

per: P. Mott

The information collected on Form 1 will be used by the Department of Infrastructure and Planning (DIP) in accordance with the processing and assessment of your Application. Your personal details will not be disclosed for a purpose outside of the IDAS process, except where required by legislation (including the Freedom of Information Act 1992) or as required by Parliament. This information may be stored in a DIP database. The information collected will be retained as required by the Public Records Act 2002.

Advice for completing Part A

Form 1 Development Application

idas

Part F**Reconfiguring a lot¹**

1. What is the nature of the lot reconfiguration? (Tick applicable box/es)

- ☐ (i) **Subdivision** - Complete Question 2 - 5 and 9 below
- ☒ (ii) **Boundary realignment** - Complete Question 2 - 4, 6 - 7 and 10 below
- ☐ (iii) **Creating an easement giving access to a lot from a constructed road** - Complete Question 2 - 4, 8 and 10 below
- ☐ (iv) **Dividing land into parts by agreement and rendering different parts of a lot immediately available for separate disposition or separate occupation, other than by either -**
- ☐ (a) a lease for a term, including renewal options, not exceeding 10 years; or
- ☐ (b) an agreement for the exclusive use of part of the common property for a community title scheme under the *Body Corporate and Community Management Act 1997* - Complete Question 2 - 4, 9 - 10 below

2. How are the premises identified / zoned in the planning scheme?

Lot or premises description	Zone
1 RURAL	

3. What is the total number of existing lots making up the premises, the subject of the application?

3

4. What is the total area of the premises?

78.94

☐ Square metres (m²)☒ Hectares

5. Does the proposal involve multiple stages?

☐ No - Complete Table A☐ Yes - Complete Table B

6. What are the current and proposed dimensions for each lot forming the premises? (Provide details for each lot on a separate row)

	Current lot			Proposed lot		
	Lot on plan description	Area	Length of road frontage	Lot on plan description	Area	Length of road frontage
1	LOT 7 ON SP 222938	30.05ha	404m	LOT 4 ON PROPOSAL PLAN 55433/5C	70.285ha	818m
2	LOT 4 ON SP222938	41.19ha	383m	LOT 3 ON PROPOSAL PLAN 55433/5C	7.274ha	58.5m
3	LOT 3 ON SP117887	7.687ha	100m	LOT 9 ON PROPOSAL PLAN 55433/5C	6000m2	60.2m

7. What is the reason for the boundary realignment?

RECONFIGURATION OF THREE LOTS INTO THREE LOTS

Easements (Part F, if applicable)

8. What are the dimensions and nature of the proposed easement?

Width (metres)	Length (metres)	Purpose of the easement (e.g. pedestrian crossing)	Any other relevant information

Agreements (Part F, if applicable)

9. What is the number of parts being created and what is their intended final use?

Number of new lots or parts	Residential	Commercial	Industrial	Other (specify)
Number of existing lots or parts retained				

Mandatory Information

10. Confirm the following mandatory information accompanies this application

Mandatory Information		
Plans showing the proposed lot reconfiguration, including -	<input checked="" type="checkbox"/> Confirmed	over the counter
(i) Existing lot configuration	<input checked="" type="checkbox"/> Confirmed	over the counter
(ii) Dimensions of lots	<input checked="" type="checkbox"/> Confirmed	over the counter
(iii) Existing and proposed new roads (if applicable)	<input checked="" type="checkbox"/> Confirmed	over the counter
(iv) Existing and proposed easements (if applicable)	<input checked="" type="checkbox"/> Confirmed	over the counter
(v) The location and dimensions of land to be dedicated for community purposes (if applicable)	<input type="checkbox"/> Confirmed	
(vi) The final intended use of the new lots or parts	<input checked="" type="checkbox"/> Confirmed	over the counter
(vii) The lot reconfiguration in relation to the surrounding land	<input checked="" type="checkbox"/> Confirmed	over the counter

Assessment Checklist

Form 1 also contains the IDAS Assessment Checklist, which is used to assist in determining which sections of the IDAS Assessment Checklist, and the Parts of Form 1 relevant to the application.

Section 1 and all other relevant sections of the IDAS Assessment Checklist, as identified in the Table below, must be completed for all development applications except those proposed on land in an urban development area, or for building work requiring assessment against the *Building Act 1975* only.

For more information about development applications on land in an urban development area, refer to www.uida.qld.gov.au.

For more advice about building applications refer to Part B of the IDAS Application Form.

Answering the following questions will assist you in determining which sections of the checklist must be completed for your application. If unsure, phone or visit your local government or log onto the DIP website www.dip.qld.gov.au for help.

For all IDAS development applications (except those for building work requiring assessment against the <i>Building Act 1975</i> only) - complete Section 1 of this checklist		
Does the application seek approval to make a material change of use of the premises? <i>If yes - complete Section 2 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to reconfigure a lot? <i>If yes - complete Section 3 of this checklist and Part F of IDAS Application Form 1. If the premises are completely within a single local government area assessment is by the local government.</i>	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Does the application seek approval to carry out operational work? <i>If yes - complete Section 4 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against the <i>Fisheries Act 1994</i> ? <i>If yes - complete Section 5 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Have you received a referral agency response under section 3.3.2 of the IPA, in relation to this development application? <i>If yes - complete Section 6 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against a local government planning scheme? <i>If yes - complete Form 1 Part E of IDAS Application Form 1. Assessment is by the local government.</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against the <i>Building Act 1975</i> ? <i>If yes - go to Appendix 1 of this checklist for advice on building referrals. Complete Part B of IDAS Application Form 1. Assessment is by a building certifier.</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Do you wish the application to be assessed against a superseded planning scheme? <i>If yes - complete Form 1 Attachment 1</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Is the application for development completely or partly on Cairns and Mackay airport land under the <i>Airport Assets (Restructuring and Disposal) Act 2008</i> ? <i>If yes - Assessment is by the Department of Infrastructure and Planning. Complete Form 1 Part D of IDAS Application Form 1 if the application is for a material change of use, and Part E if for building or operational work. Also, the application must be referred to the local government as Advice Agency.</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No

HERITAGE

1.1A Is any part of the proposal intended to be carried out on a Queensland heritage place under the *Queensland Heritage Act 1992*?

☒ No - Go to 1.1B ☐ Yes

IPA, schedule 8, part 1, table 5, item 2; IP Regulation, schedule 2, table 2, item 18.

1.1B Does the proposal involve development intended to be carried out on a place entered in a local heritage register under part 11 of the *Queensland Heritage Act 1992*, other than if the place is on Cairns or Mackay airport land?

☒ No - Go to Q1.2 ☐ Yes

IPA, schedule 8, part 1, table 5, item 2A; IP Regulation, schedule 1, part 2, table 5, item 2.

1.2 Does the proposal involve removing quarry material from a watercourse or lake as defined under the *Water Act 2000*?

☒ No - Go to Q1.3 ☐ Yes

IPA, schedule 8, part 1, table 5, item 1; IP Regulation, schedule 2, table 2, item 11; IP Regulation, schedule 1, table 5, item 2 (wild river area); Water Act 2000, section 966C; Wild Rivers Act 2005, section 43A.

1.3 Does the proposal involve an environmentally relevant activity (ERA), other than a mining activity or a petroleum activity?

☒ No - Go to Q1.4 ☐ Yes

IPA, schedule 8, part 1, table 2, item 1; IPA, schedule 8, part 1, table 5, items 3 and 4; IP Regulation, schedule 2, table 2, items 1 and 23; Environmental Protection Act 1994, section 73AA (wild river area); Wild Rivers Act 2005, section 43A, relevant wild river declaration; Wild Rivers Code.

1.4 Is any part of the premises within the limits of a port under the *Transport Infrastructure Act 1994*?

☒ No - Go to Q1.5

☐ Yes

IP Regulation, schedule 2, table 2, items 15 and 16.

1.5 Does any part of the premises adjoin a declared fish habitat area under the *Fisheries Act 1994*?

☒ No - Go to Q1.6

☐ Yes - If answers to questions in other sections of this checklist indicate that the proposed development is assessable under IPA, schedule 8, this application requires assessment by the Department of Primary Industries and Fisheries (DPI&F). If DPI&F is not the Assessment Manager for the application, the agency has jurisdiction as Advice Agency.

IP Regulation, schedule 2, table 2, item 26.

1.6 Is any part of the premises designated for community infrastructure?

☒ No - Go to Q1.7

☐ Yes

IP Regulation, schedule 2, table 3, item 7.

1.7 Does the proposal involve the establishment or expansion of a waste water disposal system?

☒ No - End of Section 1 ☐ Yes

IP Regulation, schedule 2, table 3, item 5.

STATE-CONTROLLED ROAD

3.1 Is any part of the premises located in part of a future State-controlled road, or within 100m of a State-controlled road?

☒ No ☐ Yes

If no, is the proposed reconfiguration listed in *Integrated Planning Regulation 1998*, schedule 5 and does it exceed the threshold?

☒ No - Go to Q3.2 ☐ Yes - The application must be referred to the Department of Main Roads (DMR) as Concurrence Agency.

IP Regulation, schedule 2, table 3, item 3; IP Regulation, schedule 2, table 2, item 2

3.2 Is any part of the premises within a coastal management district?

☒ No - Go to Q3.3

☐ Yes - This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 13(a)

3.3 Do the premises include a lot containing the following?

(i) A category 1, 2 or 3 area shown on a Property Map of Assessable Vegetation (PMAV)

☒ No ☐ Yes

(ii) If there is no PMAV for a lot, remnant vegetation

☒ No ☐ Yes

IP Regulation, schedule 2, table 2, item 4

3.4 Is any part of the premises subject to an easement?

☐ No - Go to Q3.5 ☒ Yes - Answer both (a) and (b) below

(a) Is there an easement in favour of a distribution entity or transmission entity under the *Electricity Act 1994* for a transmission grid or supply network under that Act?

☒ No ☐ Yes - This application must be referred to the entity as Advice Agency.

(b) Is there an easement in favour of the holder of Pipeline Licence Number 1 issued under the *Petroleum Act 1923* for the construction or operation of the Moonie to Brisbane strategic pipeline under that Act?

☒ No ☐ Yes - This application must be referred to the licence holder as Advice Agency.

IP Regulation, schedule 2, table 2, item 20(a) (electricity easement); IP Regulation, schedule 2, table 2, item 32 (pipeline easement)

3.5 Is any part of the premises situated within 100m of a substation site under the *Electricity Act 1994*?

☒ No - Go to Q3.6 ☐ Yes - This application must be referred to the entity responsible for the substation as Advice Agency.

IP Regulation, schedule 2, table 2, item 20(b)

3.6 Is any part of the land forming the premises on the Environmental Management Register or Contaminated Land Register under the *Environmental Protection Act 1994*?

☒ No - Go to Q3.7 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

3.7 Is any part of the land forming the premises currently used for a notifiable activity, or if there is no existing use was it last used for a notifiable activity?

☒ No - Go to Q3.8 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

- 3.8 Is any part of the premises currently used for an industrial activity (other than for a mining activity or petroleum activity), or if there is no existing use was it last used for an industrial activity (other than for a mining activity or petroleum activity)?

☒ No - Go to Q3.9 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

- 3.9 Is any part of the premises in an area for which an area management advice has been given for natural mineralisation or industrial activity (other than for a mining activity or petroleum activity)?

☒ No - Go to Q3.10 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

- 3.10 Is any part of the premises in an area for which an area management advice has been given for unexploded ordnance?

☒ No - Go to Q3.11

☐ Yes - (Complete Form 1, Part N) This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 21(b)

- 3.11A Is any part of the premises within the South East Queensland (SEQ) designated region?

☒ No - Go to Q3.11B ☐ Yes

Draft South East Queensland Regional Plan 2009-2031 Regulatory Provisions, division 3: IP Regulation, schedule 2, table 2, item 35

- 3.11B Is any part of the premises within the Far North Queensland region (FNQ Region) designated region?

☒ No - Go to Q3.12 ☐ Yes

Far North Queensland Regional Plan State Planning Regulatory Provisions 2009, division 3: IP Regulation, schedule 2, table 2, item 35

- 3.12 Is any part of the premises in a koala conservation area or koala sustainability area, other than in an SEQ urban footprint area?

☐ Yes ☒ No

If no, is any part of the premises in an interim koala habitat protection area?

☒ No - Go to Q3.13 ☐ Yes

IP Regulation, schedule 2, table 2, item 33 and 34A

- 3.13 Is the proposed reconfiguration in connection with the construction of a canal?

☒ No - Go to Q3.14

☐ Yes - (Complete Form 1, Part M) This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 13(b)

- 3.14 Is the proposed reconfiguration in an area declared to be a catchment area under the Water Act 2000?

☒ No - Go to Q3.15

☐ Yes

IP Regulation, schedule 2, table 2, item 19

3.15 Is the proposed reconfiguration listed in schedule 13A of the *Integrated Planning Regulation 1998* and does it exceed the specified threshold?

☒ No - Go to Q3.16 ☐ Yes - This application must be referred to QueenslandTransport (QT) as Concurrence Agency.

IP Regulation, schedule 2 table 2, item 30, IP Regulation, schedule 13A

3.16 Is the proposed reconfiguration listed in schedule 13B of the *Integrated Planning Regulation 1998* and does it exceed the specified threshold?

☒ No - Go to Q3.17 ☐ Yes - This application must be referred to QueenslandTransport (QT) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 31, IP Regulation, schedule 13B

3.17 Does the proposed reconfiguration result in more than 10 lots or any lot less than 5ha in area?

☐ No - Go to Q3.18 ☒ Yes - (Answer (a) and (b) below)

(a) Does the proposed reconfiguration involve a lot situated in, or within 100m of, a wetland shown on the 'Map of referable wetlands'?

☒ No

☐ Yes - This application must be referred to the EPA as Advice Agency.

(b) Does the reconfiguration involve a lot situated in, or within 100m of, the following?

(i) A protected area, forest reserve, critical habitat or area of major interest under the *Nature Conservation Act 1992* ☒ No ☐ Yes

(ii) A State forest or timber reserve under the *Forestry Act 1959* ☒ No ☐ Yes

(iii) A marine park under the *Marine Parks Act 2004* ☒ No ☐ Yes

(iv) A recreation area under the *Recreation Area Management Act 1988* ☒ No ☐ Yes

(v) A world heritage area listed under the World Heritage Convention ☒ No ☐ Yes

(vi) Brisbane forest park under the *Brisbane Forest Park Act 1977* ☒ No ☐ Yes

If yes to any one of (i) - (vi) above - this application must be referred to the Queensland Government department administering the relevant Act mentioned as Advice Agency.

IP Regulation, schedule 2 table 2, items 38 and 39

3.18 Does the proposed reconfiguration involve a lot sharing a common boundary with a Queensland Heritage place under the *Queensland Heritage Act 1992*?

☒ No - End of Section 3

☐ Yes - This application must be referred to the Environmental Protection Agency (EPA) as Advice Agency. - End of Section 3

IP Regulation, schedule 2 table 2, item 41

currently no provisions for any of the wild flora and fauna apply the Wild Flora code to this type of development

**Site Assessment for Suitability of
On-site Sewage Treatment**

Due to Boundary Re-configuration

**Cancelling Lots 4 & 7 on SP222938 and
Lot 3 on SP117887**

Klondyke Road, Ayr

Nicoll Beattie Pty. Ltd.
CIVIL ENGINEERS
ABN 41-050 419 193
"The Shed"
Upper Haughton Road
P.O. Box 372
Giru 4809
Phone: 4784 4199
Fax: 4784 4200

Introduction

The landholders intend to reconfigure their cane farm allotments to provide another smaller allotment. The proposed new allotments will have (approximate) areas of:

Lot 3 (dwelling) – 7.274ha

Lot 4 (cane production area) – 70.285ha

Lot 9 (dwelling) – 6000m²

There is an existing dwellings on proposed Lot 3.

Design Basis

This report has been prepared in accordance with the requirements of The *Queensland Plumbing and Wastewater Code* and *AS/NZS 1547:2000*

Topography

The proposed reconfiguration of boundaries is shown on Brazier Motti plan no. 55433/5C.

The proposed allotments are essentially level for on-site sewage treatment purposes.

The land has been modified (levelled) at some stage to assist irrigation and surface drainage.

Water is be supplied to each of the proposed allotments by a reticulated municipal system.

Site Assessment

The soil in this area has been mapped (McClurg, J., Juergensen, C., Christianos, N. and Enderlin, N, 2005. *Lower Burdekin Delta area North and South Burdekin Water Board areas Soils*, The State of Queensland, Natural Resources and Mines 2005.) and the site lies within UMA 407 (RUgd). Thise soil is described therein as:

Map Unit Code: RUgd
Australian Soil Classification: Black or grey Vertisol

Major attributes of the
Dominant Soil:

0.1-0.35m black to grey light to medium clay, over
mottled, black to grey medium to medium heavy clay to
1.5+m. Profile alkaline at or below 0.9m, or Neutral
Soil Reaction Trend

Recommended system

The surface soils are poorly suited to the land application of primary treated effluent from conventional septic tanks. However, Wisconsin mound systems have proved effective in several parts of the world.

Fig. 1. Schematic of the Wisconsin Mound System.

Key components of a Wisconsin mound (Converse and Tyler 1990)

For Wisconsin mounds, effluent flows from the septic tank to the pump chamber from where it is pumped to laterals near the top of the bed, as shown above.

These systems offer the advantages of even distribution of effluent over the entire area as well as dose loading. Dose loading means that the effluent volume builds up in the pump chamber until a nominated "dose" is reached, and is then pumped into the trench in about two to three minutes. This causes a wet and dry treatment that provides effective treatment of the effluent and prolongs trench life.

Another advantage of these types of system is the aeration that occurs when the effluent discharges into the aggregate bed in the trench and as it filters down through the sand mound.

Conclusion

The proposed boundary re-configuration does not cause any impediment to adequate on site effluent.

There are no known environmental or public health constraints to the on-site treatment of domestic waste.

A handwritten signature in black ink, appearing to read 'J N H Beattie'.

Attention: Mr Shane Great

Dear Shane

INFORMATION REQUEST RESPONSE
RECONFIGURING A LOT (3 LOTS INTO 3 LOTS)
135, 183 & 159 KLONDYKE ROAD, BRANDON

We refer to the above and to Burdekin Shire Council's Information Request dated 15 September 2009.

In accordance with Section 3.3.8(1)(a) of the *Integrated Planning Act 1997*, we provide this written response to the Council's Information Request. This correspondence, together with the attachments, constitutes the total response to Council's Information Request.

With respect to matters raised in the Information Response, we advise the following:

Stormwater Flow Paths

Please find enclosed a copy of the Detail Survey Plan (Brazier Motti Drawing No. 55433/007A). As identified on the Detail Survey Plan levels have been provided along Klondyke Road adjacent to proposed Lots 4, 3 and 9 (existing Lots 4 and 7 on SP222938 and Lot 3 on SP117887) from the edge of bitumen to the property boundary for the full length of the frontage. The levels indicate the stormwater flow paths as requested.

We trust that this response is to your satisfaction.

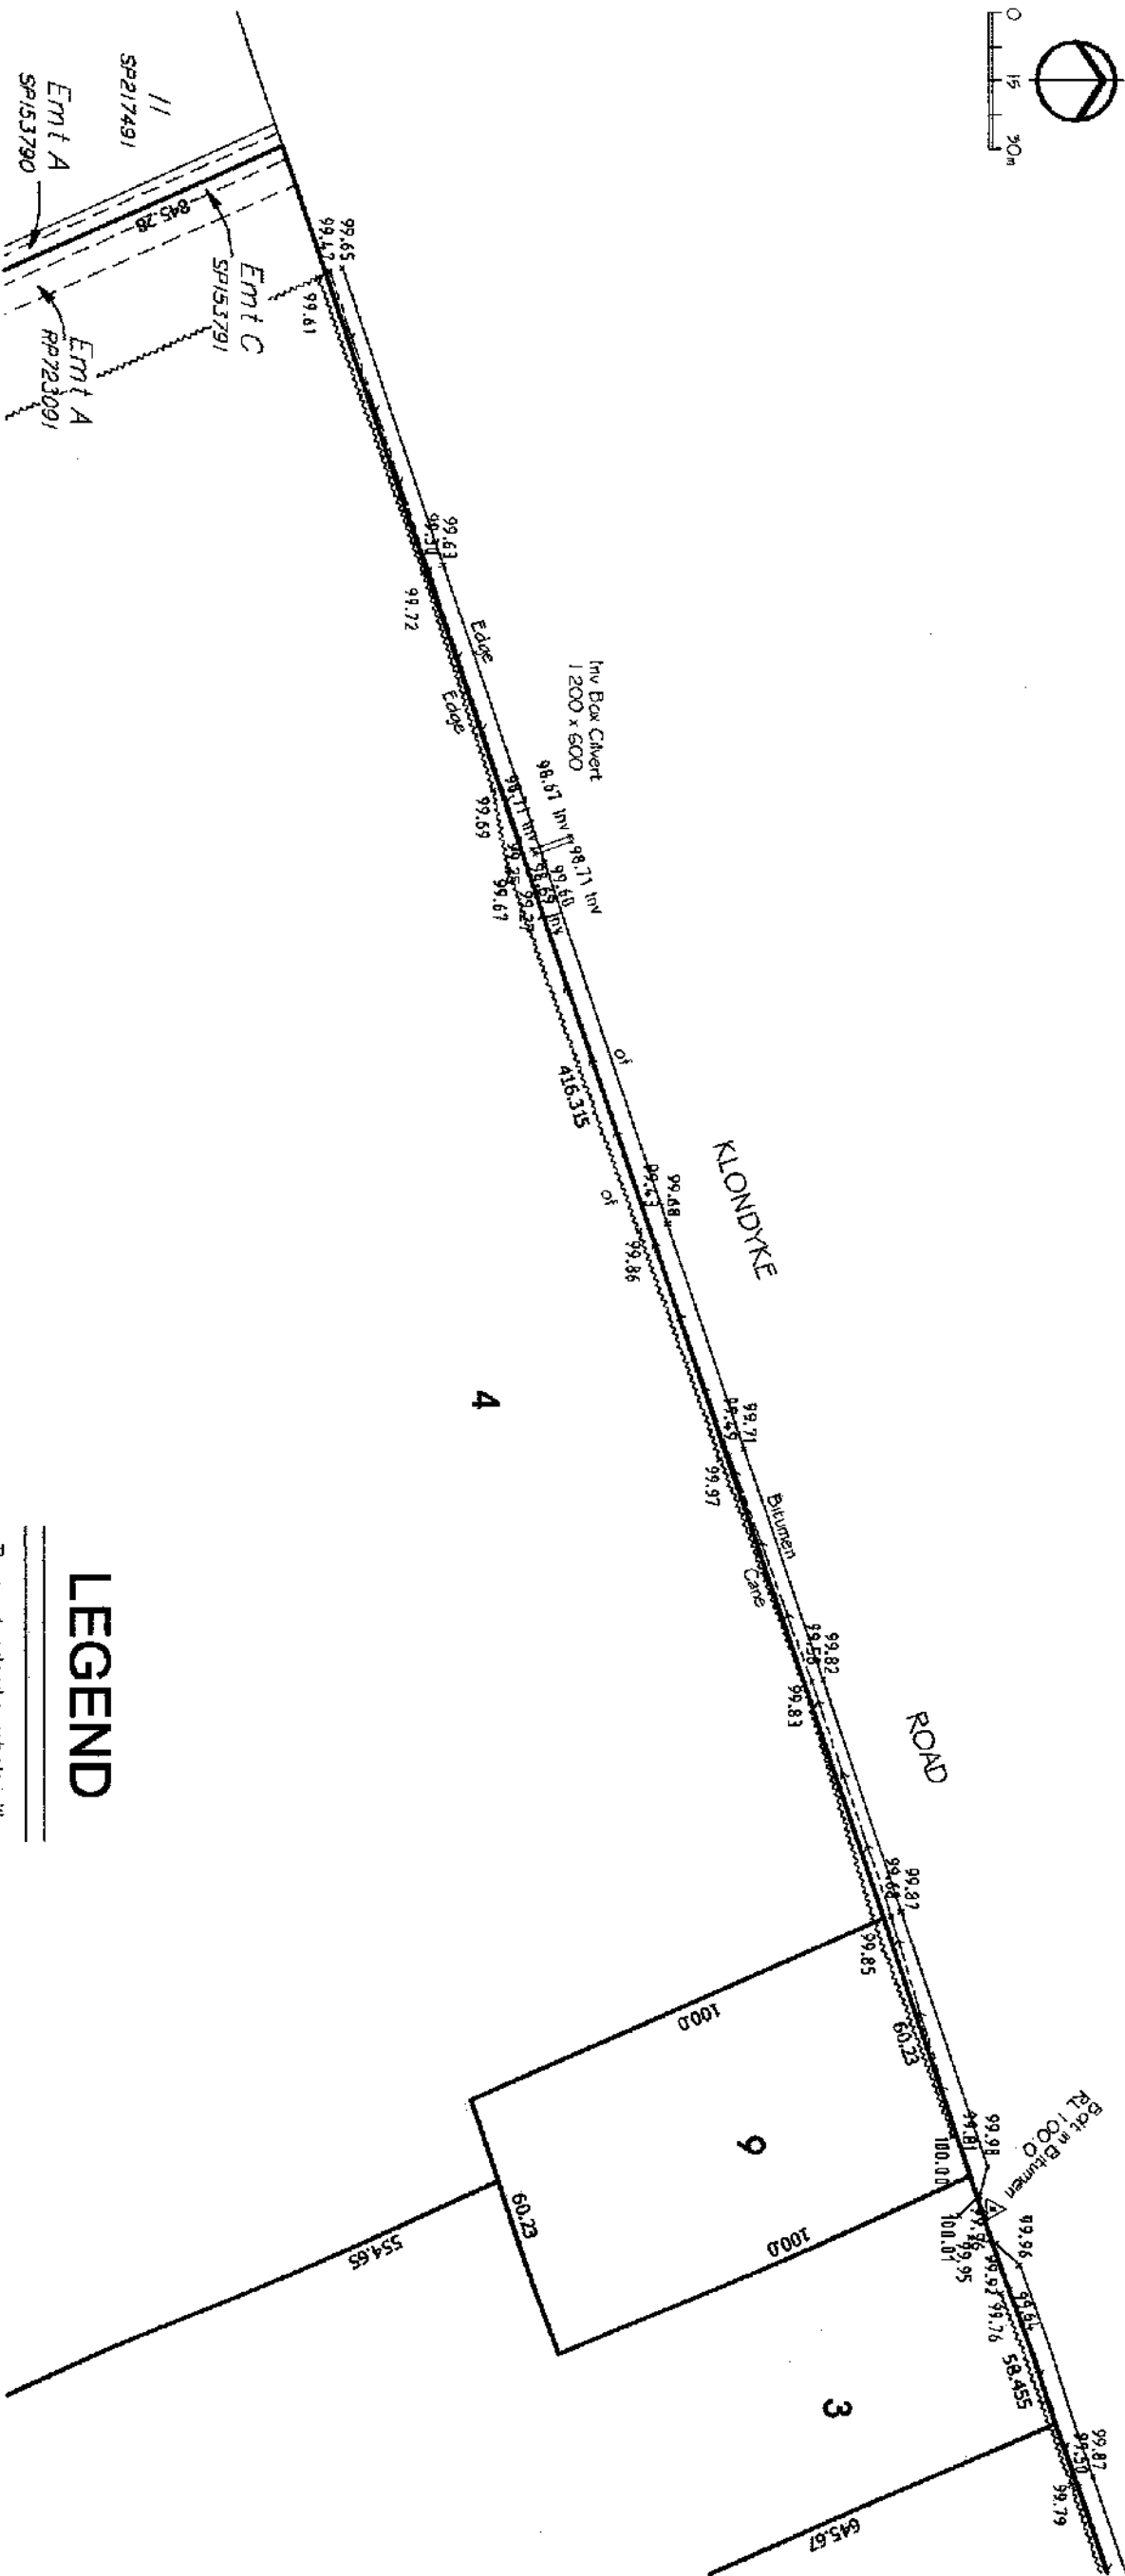

We look forward to your continued attention to this matter and we would invite you to contact the undersigned should you wish to discuss.

Yours faithfully

per: *P. Berthelsen*

Subject Heading: Lodging a Development Application for Reconfiguring a Lot

Name of Applicant: Mottin Farming

Location: 462, 494, 546, 576 & 584 Kilrie Road, McDesme (Lot 2 on RP743078, Lot 7 on SP201163 & Lots 2-4 on SP158616, Parish of Antill, County of Gladstone)

**Author and
Officer's Title:** S Great
Manager - Planning & Development

Executive Summary:

An application has been received from Cleve McGuane Surveys Pty Ltd on behalf of their clients Mottin Farming seeking approval for Reconfiguring a lot (Boundary Realignment) at 462, 494, 546, 576 & 584 Kilrie Road, McDesme (Lot 2 on RP743078, Lot 7 on SP201163 & Lots 2-4 on SP158616, Parish of Antill, County of Gladstone). A Development Application (Code Assessable) has been triggered in accordance with the Burdekin Shire IPA Planning Scheme.

Officer's Recommendation:

That Council approves the Development Application for Reconfiguring a Lot (Boundary Realignment) at 462, 494, 546, 576 & 584 Kilrie Road, McDesme (Lot 2 on RP743078, Lot 7 on SP201163 & Lots 2-4 on SP158616, Parish of Antill, County of Gladstone), subject to the following conditions:

GENERAL

- 1.1 The Council will not release the formal Plan of Reconfiguration until all rates and charges in arrears in respect of the land, the subject of the application, are paid in full;
- 1.2 Pay the sum of \$119-50 calculated on the basis of a charge of \$23-90 per lot to be levied on the Council by the Department of Environment & Resource Management for each new valuation;

ROADWORKS

2. The construction of any crossovers to give access to the land is to be the owner's responsibility and to the satisfaction of the Chief Executive Officer;

PROPOSAL PLAN

3. The reconfiguration of the land must be carried out generally in accordance with:-
 - (a) (i) the proposed Cleve McGuane Surveys Pty Ltd plan numbered 28482-2a;
 - (ii) the plans, specifications, facts and circumstances as set out in the application submitted to Council; and
 - (b) any approval issued under this approval; and
 - (c) any development permit for operational works relating to the reconfiguring of a lot;

PUBLIC UTILITY SERVICES

4. If any existing public utility service including telephone, electricity, water, sewerage or gas needs to be altered or relocated to complete the reconfiguration the developer must bear the cost of alteration or relocation;

ADVICE (Note: These are not conditions)

- Unless otherwise specified by these conditions, the conditions must be complied with prior to approval of the Plan of Survey;
-

Background:

The following comments are from the Manager of Planning & Development, Mr Shane Great:

The land is zoned 'Rural' with the proposal triggering a 'code assessable' development application for reconfiguring a lot (Boundary Realignment). The application has been assessed against the Reconfiguration of a Lot Code under the provisions of the Burdekin Shire Council's IPA Planning Scheme.

The Application:

It is the applicant's intent to reconfigure the 5 existing lots. Proposed lots 3, 4 & 5 will provide suitable areas for future residential development and proposed lot 6 offering a larger lot for small crop farming with proposed lot 2 containing the balance agricultural area. The proposed realignment will not alter the current agricultural use of the area. All proposed lots will have access to Kilrie and/or Downs Road.

Site Description/Surrounding Land Uses:

The subject site comprises a total area of 106.804ha and has approximately 1370m frontage to Kilrie Road and 518m to Downs Road. This site is currently improved by a sugar cane farm, dwelling house and some farms sheds. The surrounding area is primarily agricultural land, with some rural residential housing and sheds on the neighbouring farms.

Effluent Disposal:

A site assessment report from Nicoll Beattie Pty. Ltd. states that the proposed boundary re-configuration does not cause any impediment to adequate on-site effluent, and the subject soils are generally well suited to the on-site treatment of domestic wastewater. The report also states that there are no known environmental or public health constraints to the on-site treatment of domestic waste.

Recommendation:

Council's Development Assessment Team members have assessed the application and have included reasonable and relevant conditions as part of the recommended approval. Given that the proposal complies with the provisions contained in Council's IPA Planning Scheme and in particular the acceptable solutions of the 'Reconfiguration of a Lot' zone code, it is recommended that Council approve the application subject to the abovementioned conditions.

Consultation (internal/external):

The application triggered a referral to the Department of Environment and Resource Management (DERM) due to the proposed new lots being located in mapping within 100 metres of a wetland. An Advice Agency response was received on 25th February, 2010 stating that DERM had no recommendations. All relative Council departments have been consulted.

Attn: Mr. Shane Great

RE: Reconfiguration Application for Mottin Farming at Kilrie & Downs Roads, Jarvisfield.

Dear Sir,

On behalf of our client, we make an application for a Development Permit to realign the boundaries of Lots 2-4 on SP158616, Lot 7 on SP201163 and Lot 2 on RP743078 as shown on Drawing 28482-2.

This proposal is to create three house lots a larger lot for small crop farming (6) and to amalgamate the sugar cane farming land into one lot. The eastern boundary of Lot 2 is now approximately parallel to the internal road and will allow more efficient farming.

Easement D on SP201163 benefits Lot 2 on RP743078 for irrigation and power. This easement will be cancelled as a result of the amalgamation.

The original lots are bounded by the Burdekin River and therefore will need to be referred to the State Government for "wetland" and "remnant vegetation" reasons as the River is a regrowth watercourse.

This was done for Sub 09-13 for one of the lots

The land is under contract for sale to Mottin Farming but this has not been finalized and these application forms have been signed by the current owners.

The new owners do not intend to clear any vegetation but with Sub 09-13 the State Government demanded I complete Part J of Form I so have done so again for this application.

Mr. Nic Beattie has provided soil test results to Council for Sub 09-13.

We seek Council's support for this proposal.

Should you require any further information do not hesitate to contact me.

7	IDAS Assessment Checklist			

Portable Long Service Leave (PLSL) levy (Applicable for certain building and construction work valued over \$80,000 only)

10. The Portable Long Service Leave Levy (PLSL) is not applicable to this application if any of the following apply: (Tick box if applicable)
- ☐ the application seeks a preliminary approval only;
- ☒ the application is not for building and construction work under the *Building and Construction Industry (Portable Long Service Leave) Act 1991*, section 3AA (e.g. the application is only for a change of use, or for the following types of work **carried out solely for farming purposes**: land clearing, site preparation, earthworks, fences, fodder harvesting, clearing of encroaching vegetation, clearing of regrowth, thinning vegetation or controlling weeds or pests);
- ☐ all costs, that relate to the work both directly and indirectly, are less than \$80,000, inclusive of GST; or
- ☐ the work is being carried out under an owner-builder permit issued under the *Queensland Building Services Authority Act 1991* - Complete and submit a QLeave Notification and Payment Form (no payment required if owner-builder permit number stated). The receipted form must be sighted by the assessment manager before a development permit can be given.
11. Is payment of a PLSL levy applicable to this application? (Refer to Q10 and the Advice below for more information)?
- ☒ No - End of Part A
- ☐ Yes - Answer Q12 below

OFFICE USE ONLY (For use by the Assessment Manager / Private Certifier) (Optional)

Fee (\$)	Date received	Receiving officer's name	Reference numbers
----------	---------------	--------------------------	-------------------

AND / OR

Table C Coordinates and/or a map of the premises (Appropriate for development in remote areas, over part of a lot, in water (e.g. channel dredging in Moreton Bay) etc.)

		Coordinates (Note: place each set of coordinates in a separate row)				Zone Reference	Datum	Local government area (if applicable)
		Easting	Northing	Latitude	Longitude			
1						<input type="checkbox"/> DGDA94 <input type="checkbox"/> WGS84 <input type="checkbox"/> Other -		

2. Identify if any of the following apply to the premises by completing Tables D, E, or F. (Note: In most instances, the premises will not involve any of the following characteristics, however some applications may involve one or more of these characteristics - complete only if applicable)

Table D Complete if the premises are adjacent to or associated with a water body, watercourse or aquifer (e.g. river, creek, lake, canal)

Name of water body, watercourse or aquifer (if known)	
1	Burdekin River

Table E Complete if the premises are on Strategic Port Land under the *Transport Infrastructure Act 1994*

Lot on plan description for strategic port land		Port Authority for the lot
1		

Table F Complete if the premises are in tidal water

Name of local government for the tidal area (if applicable)		Name of port authority for the tidal area (if applicable)
1		

3. Indicate the total area of the premises on which the development is proposed: (Note: The total area may include land both above and below water)

Total area of premises	
106.80	<input type="checkbox"/> m ² <input checked="" type="checkbox"/> hectares (Tick applicable unit)

Existing use of the premises

4. Current use/s of the premises: (e.g. vacant land, house, townhouses, apartment building, shop, service station, school, sugar cane farming etc.)

1	House & Sugar Cane Farming
---	----------------------------

5. Are there any existing easements on the premises? (e.g. for vehicular access, electricity, overland flow, water etc.)?

☐ No ☒ Yes - Ensure the type, location and dimensions of each easement are included in plans, submitted with the application

Proposal details

6. Brief description of the proposal (e.g. 6 unit apartment building, 30 lot residential subdivision, a bore, aquaculture)

Create 4 House Lots and amalgamate farming land

7. Does the proposal include new buildings or operational work (including any services) on the premises?

☒ No ☐ Yes - Ensure the nature, location and dimensions of the proposed works are included in plans, submitted with the application

Resource entitlement (if applicable) - further information is provided in the advice section at the end of the form

8. Does the application involve taking or interfering with a State resource and therefore require a resource entitlement? (e.g. the application involves State land (leased and freehold), declared Fish Habitat areas, taking quarry material, taking or interfering with water under the Water Act 2000, etc.)

☒ No - Go to Q9 ☐ Yes - Complete Table G - provide details for each evidence required on a separate row, if applicable. Evidence of resource allocation or entitlement must be submitted with the application. You do not need to answer Q9 - go to the next section.

Reconfiguring a lot¹

Nature of the lot reconfiguration

1. What is the nature of the lot reconfiguration? (Tick applicable box(es))

- ☐ (i) **Subdivision** - Complete Question 2 - 5 and 9 below
- ☒ (ii) **Boundary realignment** - Complete Question 2 - 4, 6 - 7 and 10 below
- ☐ (iii) **Creating an easement** giving access to a lot from a constructed road - Complete Question 2 - 4, 8 and 10 below
- ☐ (iv) **Dividing land into parts by agreement** and rendering different parts of a lot immediately available for separate disposition or separate occupation, **other than** by either -
- ☐ (a) a lease for a term, including renewal options, not exceeding 10 years; or
- ☐ (b) an agreement for the exclusive use of part of the common property for a community title scheme under the *Body Corporate and Community Management Act 1997* - Complete Question 2 - 4, 9 - 10 below

The subject land

2. How are the premises identified / zoned in the planning scheme?

	List of applicable zone/precincts/areas	List of applicable overlays
1	Rural	

3. What is the total number of existing lots making up the premises, the subject of the application?

5

4. What is the total area of the premises?

106.8

☐ Square metres (m²)

☒ Hectares

Subdivision details (if applicable)

5. Does the proposal involve multiple stages?

- ☒ No - Complete Table A ☐ Yes - Complete Table B

Table A

(i) What is the number of additional lots being created and what is their intended final use?

Intended final use of new lots	Residential	Commercial	Industrial	Other (Specify)
Additional number of lots created				

(ii) What is the type of approval being sought?

- ☒ Development Permit ☐ Preliminary approval

(iii) Are there any current, relevant approvals on the premises? (e.g. a Preliminary Approval for the subdivision, a material change of use etc.)

- ☐ No ☒ Yes - Provide details below

	Approval reference/s	Date approved	Date approval lapses
1	Sub 09-13	14-Jul-2009	14-Jul-2011

(iv) What is the total length of new road to be constructed?

0

(v) What is the total area of land to be contributed for community purposes?

0

(vi) Does the proposal involve the construction of a canal or other artificial waterway?

☒ No ☐ Yes - Refer to the advice at the end of the form

(vii) Does the proposal involve operational work for the building of a retaining wall?

☒ No ☐ Yes - Refer to the advice at the end of the form**Boundary realignment details (if applicable)**

6. What are the current and proposed dimensions for each lot forming the premises? (Provide details for each lot on a separate row)

Current Lots				Proposed Lots			
	Lot on plan description	Area	Length of road frontage	Lot on plan description	Area	Length of road frontage	
1	Lot 2 on RP743078	32.9 ha	1395 m	2		101.8 ha	3763 m
2	Lot 7 on SP201163	32.6 ha	1587 m	2		101.8 ha	3763 m
3	Lot 2 on SP158616	39.2 ha	1272 m	2		101.8 ha	3763 m
4	Lot 2 on SP158616	39.2 ha	1272 m	3		1.22 ha	258 m
5	Lot 2 on SP158616	39.2 ha	1272 m	5		6514 sqm	55 m
6	Lot 2 on SP158616	39.2 ha	1272 m	6		1.86 ha	253 m
7	Lot 3 on SP158616	1.1 ha	75 m	2		101.8 ha	3763 m
8	Lot 4 on SP158616	9576 sqm	40 m	4		1.23 ha	59 m

7. What is the reason for the boundary realignment?

Amalgamate Farm Land and create house lots to one side

Easement details (if applicable)

8. What are the dimensions and nature of the proposed easement?

Width (metres)	Length (metres)	Purpose of the easement (e.g. pedestrian access)	Entity favoured by the easement

Agreement details (if applicable)

9. What is the number of parts being created and what is their intended final use?

Intended final use of new parts	Residential	Commercial	Industrial	Other (Specify)
Additional number of parts created				

Mandatory Information

10. Confirm the following mandatory information accompanies this application

	Confirmation of lodgement	Method of lodgement
When creating lots by subdivision or rearranging boundaries		
Plans showing the proposed lot reconfiguration, including -	<input checked="" type="checkbox"/> Confirmed	
(i) Existing lot configuration	<input checked="" type="checkbox"/> Confirmed	
(ii) Dimensions of lots	<input checked="" type="checkbox"/> Confirmed	
(iii) Existing and proposed new roads <i>(if applicable)</i>	<input checked="" type="checkbox"/> Confirmed	
(iv) Existing and proposed easements <i>(if applicable)</i>	<input checked="" type="checkbox"/> Confirmed	
(v) The location and dimensions of land to be dedicated for community purposes <i>(if applicable)</i>	<input type="checkbox"/> Confirmed	
(vi) The final intended use of the new lots or parts	<input checked="" type="checkbox"/> Confirmed	
(vii) The lot reconfiguration in relation to the surrounding land	<input checked="" type="checkbox"/> Confirmed

Part J**Clearing native vegetation under the
Vegetation Management Act 1999****Nature of the application and type of approval sought**

1. What is the nature of the application and type of approval sought? (Tick applicable box/es)

Aspect of development included in application		Type of approval sought
<input type="checkbox"/> (i)	Operational work for clearing vegetation made assessable under IPA, schedule 8	<input checked="" type="checkbox"/> Development Permit
<input type="checkbox"/> (ii)	Material change of use of premises	<input type="checkbox"/> Preliminary approval
<input checked="" type="checkbox"/> (iii)	Reconfiguring a lot	<input type="checkbox"/> Both (provide details below)

Mandatory information

2. Confirm the following mandatory information accompanies this application.

	Confirmation of lodgement	Method of lodgement
For operational work applications		
(i) A Property Vegetation Management Plan including - <ul style="list-style-type: none"> a. the location and extent of the area proposed to be cleared; b. information about the purpose of the clearing; c. details of the way the proposed clearing meets the performance requirements of the regional vegetation management code for the area; and d. details of the location and extent of proposed clearing, through either <ul style="list-style-type: none"> i. a map showing - <ul style="list-style-type: none"> • the boundary of the area on an image base; • five or more points visible in the image base that corresponds to identifiable fixed features; • the Map Grid of Australia 1994 coordinates and zone references for each point, acquired by GPS or similar system of satellites that receives and processes information; and • a description of the feature that each point represent; or ii. a description of the boundary of the area by reference to Map Grid of Australia 1994 coordinates and zone references for the area 	<input type="checkbox"/> Confirmed	
(ii) For an application for which the assessment manager is the local government -written confirmation that the Department of Natural Resources and Water is satisfied the proposed clearing is for a relevant purpose under the <i>Vegetation Management Act 1999</i> , section 22A	<input type="checkbox"/> Confirmed <input type="checkbox"/> Not applicable	
(iii) For an application for which the assessment manager is the Department of Natural Resources and Water , either - <ul style="list-style-type: none"> a. written confirmation that the Department of Natural Resources and Water is satisfied the proposed clearing is for a relevant purpose under the <i>Vegetation Management Act 1999</i>, section 22A; or b. information identifying the relevant purpose under the <i>Vegetation Management Act 1999</i>, section 22A and demonstrating how the proposed clearing is for that purpose 	<input type="checkbox"/> Confirmed <input type="checkbox"/> Not applicable	
For applications for material change of use and reconfiguring a lot		
(iv) Any material, including plans and maps, which demonstrate how the application meets the relevant policy and the performance requirements of the relevant code for the area	<input type="checkbox"/> Confirmed	
(v) The location and extent of - <ul style="list-style-type: none"> a. all infrastructure associated with the development, including proposed building envelopes and underground or above ground services b. all proposed lot boundaries c. all proposed roads, easements, vehicle access and parking, and pedestrian access d. any proposed clearing or consequential clearing that will result from the development, including firebreaks and fire management lines, excavations and stockpiling of soil, and clearing necessary to maintain proposed infrastructure following its construction 	<input type="checkbox"/> Confirmed

Form 1 Development Application

idas

IDAS

Assessment Checklist

IDAS Development Application Form 1 is the approved form for all development applications under the Integrated Planning Act 1997 (IPA). Form 1 is made up of various Parts.

Part A (Common details) of Form 1 must be completed for all applications. The relevance of other Parts of Form 1 depends on the nature of the application.

Form 1 also includes this IDAS Assessment Checklist, which is used to assist in determining state assessment and referral requirements, and the Parts of Form 1 relevant to the application.

Section 1 and all other relevant sections of the IDAS Assessment Checklist, as identified in the Table below, must be completed for all development applications except those proposed on land in an urban development area, or for building work requiring assessment against the Building Act 1975 only.

For more information about development applications on land in an urban development area, refer to www.idas.qld.gov.au. For more advice about building applications refer to Part B of the IDAS Application Form.

Answering the following questions will assist you in determining which sections of the checklist must be completed for your application. If unsure, phone or visit your local government or log onto the DIP website www.dip.qld.gov.au for help.

For **all** IDAS development applications (except those for building work requiring assessment against the Building Act 1975 only) - complete **Section 1** of this checklist

Does the application seek approval to make a material change of use of the premises? <i>If yes - complete Section 2 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to reconfigure a lot? <i>If yes - complete Section 3 of this checklist and Part F of IDAS Application Form 1. If the premises are completely within a single local government area assessment is by the local government.</i>	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Does the application seek approval to carry out operational work? <i>If yes - complete Section 4 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against the Fisheries Act 1994? <i>If yes - complete Section 5 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Have you received a referral agency response under section 3.3.2 of the IPA, in relation to this development application? <i>If yes - complete Section 6 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against a local government planning scheme? <i>If yes - complete Form 1 Part E of IDAS Application Form 1. Assessment is by the local government.</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against the Building Act 1975? <i>If yes - go to Appendix 1 of this checklist for advice on building referrals. Complete Part B of IDAS Application Form 1. Assessment is by a building certifier</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Do you wish the application to be assessed against a superseded planning scheme? <i>If yes - complete Form 1 Attachment 1</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Is the application for development completely or partly on Cairns and Mackay airport land under the Airport Assets (Restructuring and Disposal) Act 2008? <i>If yes - Assessment is by the Department of Infrastructure and Planning. Complete Form 1 Part D of IDAS Application Form 1 if the application is for a material change of use, and Part E if for building or operational work. Also, the application must be referred to the local government as Advice Agency.</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No

SECTION 1

This section must be completed for all applications that require completion of the IDAS Assessment Checklist.

HERITAGE

- 1.1A Is any part of the proposal intended to be carried out on a Queensland heritage place under the *Queensland Heritage Act 1992*?

☒ No - Go to 1.1B ☐ Yes

IPA, schedule 8, part 1, table 5, item 2; IP Regulation, schedule 2, table 2, item 18.

- 1.1B Does the proposal involve development intended to be carried out on a place entered in a local heritage register under part 11 of the *Queensland Heritage Act 1992*, other than if the place is on Cairns or Mackay airport land?

☒ No - Go to Q1.2 ☐ Yes

IPA, schedule 8, part 1, table 5, item 2A; IP Regulation, schedule 1, part 2, table 5, item 2.

REMOVING QUARRY MATERIAL, WILD RIVER AREA

- 1.2 Does the proposal involve removing quarry material from a watercourse or lake as defined under the *Water Act 2000*?

☒ No - Go to Q1.3 ☐ Yes

IPA, schedule 8, part 1, table 5, item 1; IP Regulation, schedule 2, table 2, item 11; IP Regulation, schedule 1, table 5, item 2 (wild river area); Water Act 2000, section 966C; Wild Rivers Act 2005, section 43A

ENVIRONMENTALLY RELEVANT ACTIVITY, WILD RIVER AREA

- 1.3 Does the proposal involve an environmentally relevant activity (ERA), other than a mining activity or a petroleum activity?

☒ No - Go to Q1.4 ☐ Yes

IPA, schedule 8, part 1, table 2, item 1; IPA, schedule 8, part 1, table 5, items 3 and 4; IP Regulation, schedule 2, table 2, items 1 and 23; Environmental Protection Act 1994, section 73AA (wild river area); Wild Rivers Act 2005, section 43A; relevant wild river declaration; Wild Rivers Code.

WITHIN THE LIMITS OF A PORT

- 1.4 Is any part of the premises within the limits of a port under the *Transport Infrastructure Act 1994*?

☒ No - Go to Q1.5

☐ Yes

IP Regulation, schedule 2, table 2, items 15 and 16

DECLARED FISH HABITAT AREA

- 1.5 Does any part of the premises adjoin a declared fish habitat area under the *Fisheries Act 1994*?

☒ No - Go to Q1.6

☐ Yes - If answers to questions in other sections of this checklist indicate that the proposed development is **assessable under IPA, schedule 8**, this application requires assessment by the Department of Primary Industries and Fisheries (DPI&F). If DPI&F is not the Assessment Manager for the application, the agency has jurisdiction as Advice Agency.

IP Regulation, schedule 2, table 2, item 26

COMMUNITY INFRASTRUCTURE

- 1.6 Is any part of the premises designated for community infrastructure?

☒ No - Go to Q1.7

☐ Yes

IP Regulation, schedule 2, table 3, item 7

WASTE WATER MANAGEMENT

- 1.7 Does the proposal involve the establishment or expansion of a waste water disposal system?

☒ No - End of Section 1 ☐ Yes

IP Regulation, schedule 2, table 3, item 5

SECTION 3

Section 3 must be completed when the applicant seeks approval to reconfigure a lot.
IP Regulation, schedule 2, table 3, item 3

STATE-CONTROLLED ROAD

3.1 Is any part of the premises located in part of a future State-controlled road, or within 100m of a State-controlled road?

☒ No ☐ Yes

If no, is the proposed reconfiguration listed in *Integrated Planning Regulation 1998*, schedule 5 and does it exceed the threshold?

☒ No - Go to Q3.2 ☐ Yes - The application must be referred to the Department of Main Roads (DMR) as Concurrence Agency.

IP Regulation, schedule 2, table 3, item 3; IP Regulation, schedule 2, table 2, item 2

COASTAL MANAGEMENT DISTRICT

3.2 Is any part of the premises within a coastal management district?

☒ No - Go to Q3.3

☐ Yes - This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 13(a)

VEGETATION CLEARING

3.3 Do the premises include a lot containing the following?

(i) A category 1, 2 or 3 area shown on a Property Map of Assessable Vegetation (PMAV)

☒ No ☐ Yes

(ii) If there is no PMAV for a lot, remnant vegetation

☒ No ☐ Yes

IP Regulation, schedule 2, table 2, item 4

EASEMENTS

3.4 Is any part of the premises subject to an easement?

☐ No - Go to Q3.5 ☒ Yes - Answer both (a) and (b) below

(a) Is there an easement in favour of a distribution entity or transmission entity under the *Electricity Act 1994* for a transmission grid or supply network under that Act?

☒ No ☐ Yes - This application must be referred to the entity as Advice Agency.

(b) Is there an easement in favour of the holder of Pipeline Licence Number 1 issued under the *Petroleum Act 1923* for the construction or operation of the Moonie to Brisbane strategic pipeline under that Act?

☒ No ☐ Yes - This application must be referred to the licence holder as Advice Agency.

IP Regulation, schedule 2, table 2, item 20(a) (electricity easement); IP Regulation, schedule 2, table 2, item 32 (pipeline easement)

ELECTRICITY SUBSTATIONS

3.5 Is any part of the premises situated within 100m of a substation site under the *Electricity Act 1994*?

☒ No - Go to Q3.6 ☐ Yes - This application must be referred to the entity responsible for the substation as Advice Agency.

IP Regulation, schedule 2, table 2, item 20(b)

CONTAMINATED LAND - REGISTERED LAND

3.6 Is any part of the land forming the premises on the Environmental Management Register or Contaminated Land Register under the *Environmental Protection Act 1994*?

☒ No - Go to Q3.7 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

CONTAMINATED LAND - NOTIFIABLE ACTIVITY

3.7 Is any part of the land forming the premises currently used for a notifiable activity, or if there is no existing use was it last used for a notifiable activity?

☒ No - Go to Q3.8 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

CONTAMINATED LAND - INDUSTRIAL ACTIVITY

- 3.8 Is any part of the premises currently used for an industrial activity (other than for a mining activity or petroleum activity), or if there is no existing use was it last used for an industrial activity (other than for a mining activity or petroleum activity)?

☒ No - Go to Q3.9 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

CONTAMINATED LAND - AREA MANAGEMENT ADVICE (NATURAL MINERALISATION OR INDUSTRIAL ACTIVITY)

- 3.9 Is any part of the premises in an area for which an area management advice has been given for natural mineralisation or industrial activity (other than for a mining activity or petroleum activity)?

☒ No - Go to Q3.10 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

CONTAMINATED LAND - AREA MANAGEMENT ADVICE (UNEXPLODED ORDNANCE)

- 3.10 Is any part of the premises in an area for which an area management advice has been given for unexploded ordnance?

☒ No - Go to Q3.11

☐ Yes - (Complete Form 1, Part N) This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 21(b)

SOUTH EAST QUEENSLAND REGION

- 3.11A Is any part of the premises within the South East Queensland (SEQ) designated region?

☒ No - Go to Q3.11B ☐ Yes

Draft South East Queensland Regional Plan 2009-2031 Regulatory Provisions, division 3 ; IP Regulation, schedule 2, table 2, item 35

FAR NORTH QUEENSLAND REGION

- 3.11B Is any part of the premises within the Far North Queensland region (FNQ Region) designated region?

☒ No - Go to Q3.12 ☐ Yes

Far North Queensland Regional Plan State Planning Regulatory Provisions 2009, division 3; IP Regulation, schedule 2, table 2, item 35

KOALA CONSERVATION

- 3.12 Is any part of the premises in a koala conservation area or koala sustainability area, other than in an SEQ urban footprint area?

☐ Yes ☒ No

If no, is any part of the premises in an interim koala habitat protection area?

☒ No - Go to Q3.13 ☐ Yes

IP Regulation, schedule 2, table 2, item 33 and 34A

CANAL DEVELOPMENT

- 3.13 Is the proposed reconfiguration in connection with the construction of a canal?

☒ No - Go to Q3.14

☐ Yes - (Complete Form 1, Part M) This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 13(b)

DECLARED CATCHMENT AREA

- 3.14 Is the proposed reconfiguration in an area declared to be a catchment area under the Water Act 2000?

☒ No - Go to Q3.15

☐ Yes

IP Regulation, schedule 2, table 2, item 19

PUBLIC PASSENGER TRANSPORT

- 3.15 Is the proposed reconfiguration listed in schedule 13A of the *Integrated Planning Regulation 1998* and does it exceed the specified threshold?

☒ No - Go to Q3.16 ☐ Yes - This application must be referred to Queensland Transport (QT) as Concurrence Agency.
IP Regulation, schedule 2, table 2, item 30; IP Regulation, schedule 13A

RAIL TRANSPORT

- 3.16 Is the proposed reconfiguration listed in schedule 13B of the *Integrated Planning Regulation 1998* and does it exceed the specified threshold?

☒ No - Go to Q3.17 ☐ Yes - This application must be referred to Queensland Transport (QT) as Concurrence Agency.
IP Regulation, schedule 2, table 2, item 31; IP Regulation, schedule 13B

WETLAND; CONSERVATION ESTATE

- 3.17 Does the proposed reconfiguration result in more than 10 lots or any lot less than 5ha in area?

☐ No - Go to Q3.18 ☒ Yes - (Answer (a) and (b) below)

- (a) Does the proposed reconfiguration involve a lot situated in, or within 100m of, a wetland shown on the 'Map of referable wetlands'?

☐ No

☒ Yes - This application must be referred to the EPA as Advice Agency.

- (b) Does the reconfiguration involve a lot situated in, or within 100m of, the following?

- | | | | |
|-------|--|--|------------------------------|
| (i) | A protected area, forest reserve, critical habitat or area of major interest under the <i>Nature Conservation Act 1992</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (ii) | A State forest or timber reserve under the <i>Forestry Act 1959</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (iii) | A marine park under the <i>Marine Parks Act 2004</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (iv) | A recreation area under the <i>Recreation Area Management Act 1988</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (v) | A world heritage area listed under the World Heritage Convention | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (vi) | Brisbane forest park under the <i>Brisbane Forest Park Act 1977</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |

If yes to any one of (i) - (vi) above - this application must be referred to the Queensland Government department administering the relevant Act mentioned as Advice Agency.

IP Regulation, schedule 2, table 2, items 38 and 39

HERITAGE

- 3.18 Does the proposed reconfiguration involve a lot sharing a common boundary with a Queensland Heritage place under the *Queensland Heritage Act 1992*?

☒ No - End of Section 3

☐ Yes - This application must be referred to the Environmental Protection Agency (EPA) as Advice Agency. - End of Section 3

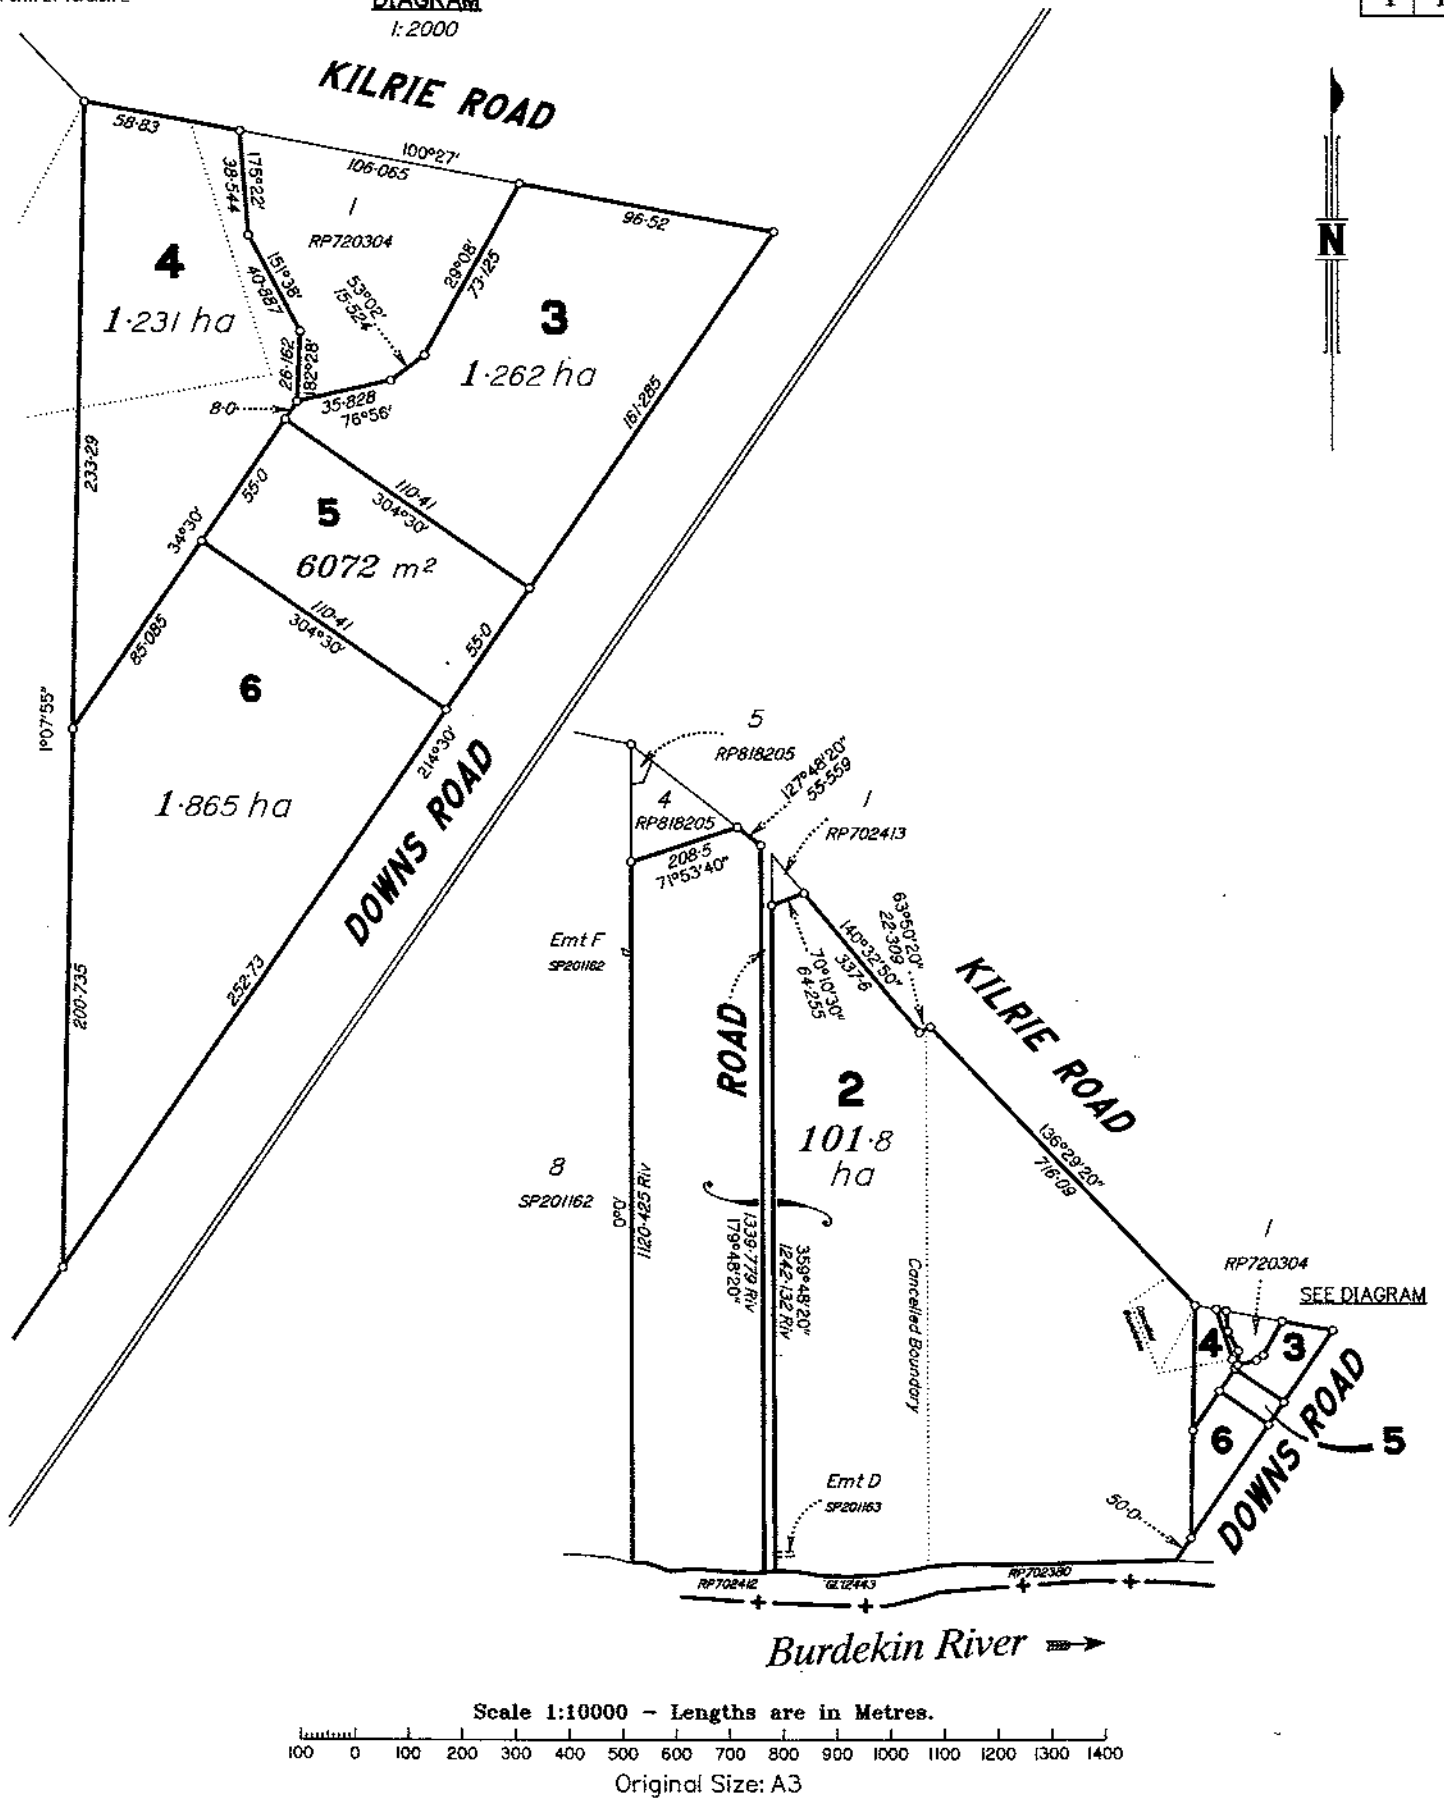

IP Regulation, schedule 2, table 2, item 41

WILD RIVER AREA - Although legislation provides for assessment of lot reconfiguration for the purposes of the *Wild Rivers Act 2005*, currently no declarations for any of the wild river areas apply the Wild Rivers code to that type of development.

Burdekin Shire Council

Programme Category: Environment & Operations

Classification: N/A

Date: 3rd March, 2010

Referring Letter No: 927321

File No: Sub 09-45

Subject Heading: Lodging a Development Application for Reconfiguring a Lot

Name of Applicant: Mottin farming

Location: 392 Kilrie Road and 390 McDesme Road, McDesme (Lot 8 on SP201162 and Lot 7 on RP702412 Parish of Antill, County of Gladstone)

Author and Officer's Title: S Great
Manager - Planning & Development

Executive Summary:

An application has been received from Cleve McGuane Pty Ltd on behalf of their client Mottin farming seeking approval for Reconfiguring a lot (Boundary Realignment) at 392 Kilrie Road and 390 McDesme Road, McDesme (Lot 8 on SP201162 and Lot 7 on RP702412 Parish of Antill, County of Gladstone). A Development Application (Code Assessable) has been triggered in accordance with the Burdekin Shire IPA Planning Scheme.

Officer's Recommendation:

That Council approves the Development Application for Reconfiguring a Lot (Boundary realignment) at 392 Kilrie Road and 390 McDesme Road, McDesme (Lot 8 on SP201162 and Lot 7 on RP702412 Parish of Antill, County of Gladstone), subject to the following conditions:

GENERAL

- 1.1 The Council will not release the formal Plan of Reconfiguration until all rates and charges in arrears in respect of the land, the subject of the application, are paid in full;
- 1.2 Pay the sum of \$47-80 calculated on the basis of a charge of \$23-90 per lot to be levied on the Council by the Department of Environment & Resource Management for each new valuation;
- 1.3 The developer shall grant council an easement for drainage purposes from the top of the gully on the southern side of the gully to the southern side of McDemse and Kilrie Roads over the gully that traverses existing lot 7 on R.P.702412 & Lot 8 on S.P.2001162. The easement shall extend along Kilrie Rd. to a point where the drain passes through the northern most culvert under the C.S.R. tramline. The easement is to be granted free of compensation and be prepared by Council's Solicitor with all costs involved including survey costs, preparation and registration of the easement to be borne by Council.

ROADWORKS

2. The construction of any crossovers to give access to the land is to be the owner's responsibility and to the satisfaction of the Chief Executive Officer;

PROPOSAL PLAN

3. The reconfiguration of the land must be carried out generally in accordance with:-
 - (a) (i) the proposed Cleve McGuane Surveys Pty Ltd plans numbered 28482-3 sheet 1 and 2;
 - (ii) the plans, specifications, facts and circumstances as set out in the application submitted to Council;

Except where modified by the conditions of approval and any approval issued there under; and

- (b) any approval issued under this approval; and
- (c) any development permit for operational works relating to the reconfiguring of a lot;

PUBLIC UTILITY SERVICES

- 4. If any existing public utility service including telephone, electricity, water, sewerage or gas needs to be altered or relocated to complete the reconfiguration the developer must bear the cost of alteration or relocation;

ADVICE (Note: These are not conditions)

- Unless otherwise specified by these conditions, the conditions must be complied with prior to approval of the Plan of Survey;

Background:

The following comments are from the Manager of Planning & Development, Mr Shane Great:

The Application:

It is the applicant's intent to realign the boundaries of the existing 2 lots to allow for rationalisation of the existing rural land, and also create lot 7 for the existing house and associated farm shed. Proposed Lot 8 will contain the balance area which will continue to be used primarily for agricultural uses. Proposed lot 7 will have access to McDesme Road, through easement C, with proposed lot 9 access being Kilrie Road.

Site Description/Surrounding Land Uses:

The subject site comprises a total area of approximately 159ha with frontage to Ferguson and Kilrie Road, the land is currently improved by a sugar cane farm, dwelling house and corrugated iron shed. The surrounding area is primarily agricultural land, with some rural residential housing and sheds on the neighbouring farms.

Effluent Disposal:

A site assessment report from Nicoll Beattie Pty. Ltd. concludes that the proposed new lots create sufficient area to sustain an on-site sewage system in accordance with the requirements of *The On-Site Sewerage Code and AS/NZS 1547:2000*. The report concludes that there are no known environmental or public health constraints to the on-site treatment of domestic waste and the subject soils are generally well suited to the on-site treatment of domestic waste.

Recommendation:

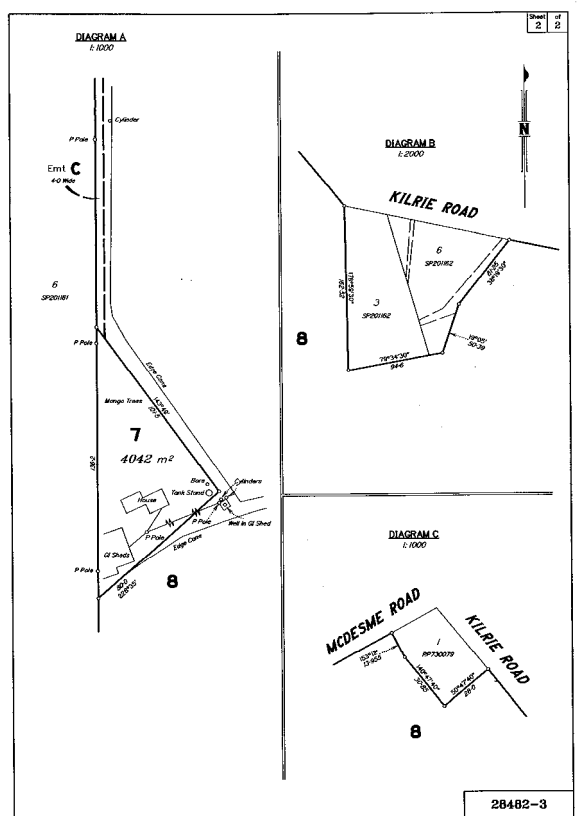

Council's Development Assessment Team members have assessed the application and have included reasonable and relevant conditions as part of the recommended approval. Given that the proposal complies with the provisions contained in Council's IPA Planning Scheme and in particular the acceptable solutions of the 'Reconfiguration of a Lot' zone code, it is recommended that Council approve the application subject to the abovementioned conditions.

Consultation (internal/external):

The application triggered a referral to the Department of Environment and Resource Management (DERM) due to the proposed new lots being located in mapping within 100 metres of a wetland. An Advice Agency response was received on 25th February, 2010 stating that DERM had no recommendations. All relevant Council departments have been consulted.

Attn: Mr. Shane Great

RE: Reconfiguration Application for Mottin Farming at McDesme Road, McDesme.

Dear Sir,

On behalf of our client, we make an application for a Development Permit to realign the boundaries of Lot 7 on RP702412 and Lot 8 on SP201162 as shown on Drawing 28482-3.

This proposal is to create a house lot to include the house and sheds, an access easement from the house lot to McDesme Road and to amalgamate the farming land into one lot. Proposed Lot 7 is not currently used for farming and no farming land will be lost as a result of this application.

Easement F on SP201162 benefits Lot 2 on RP743078 for irrigation.

Both original lots are bounded by the Burdekin River and therefore will need to be referred to the State Government for "wetland" and "remnant vegetation" reasons as the River is a regrowth watercourse.

The land is under contract for sale to Mottin Farming but this has not been finalized and these application forms have been signed by the current owners.

The new owners do not intend to clear any vegetation but with Sub 09-13 the State Government demanded I complete Part J of Form 1 so have done so again for this application.

Mr. Nic Beattie will provide soil test results to Council.

We seek Council's support for this proposal.

Should you require any further information do not hesitate to contact me.

Form 1 Development Application

idas

Part A

Common details

NOTE: Answer all questions unless directed to go to a particular question. Refer to the end of the form for advice on how to complete this form.

Applicant details (The Applicant is the person responsible for making the application and need not be the owner of the land. The Applicant is responsible for ensuring the information provided on the IDAS Application Form is correct. This information is relied upon by the Assessment Manager and any referral agencies when assessing and deciding this application. By lodging this application, the Applicant incurs the obligations and responsibilities prescribed by the IPA. Any development permit or preliminary approval that may be issued as a consequence of this application will be issued to the Applicant.)

Company/organisation name (if applicable) Mottin Farming

Individual applicant/Contact person (If there is more than one applicant, provide additional applicant details on an attachment to this form)

Title	Mr	First name	John	Last name	Norman
Postal address	69 Kalanga Road, Toobeah, Qld. 4498				
Contact telephone number	4677 5164		Mobile phone number	0427 006 712	
Facsimile number	4677 5174		e-mail address	jdnorman@bigpond.com	

Title	Mr	First name	Cleve	Last name	McGuane
Postal address	P.O. Box 75, Ayr, Qld. 4807

Details of the premises (i.e. the land on which the development is proposed - refer to the advice at the end of the form)

1. Identify the premises by completing Table A, or Table B and/or Table C (ensure adequate information is given to identify the premises)

Table A If the application is for a mobile and temporary Environmentally Relevant Activity (ERA), complete Table A only. Then go to Q2.

	Name of each local government area in which the mobile and temporary ERA is proposed to operate
1	

OR

Table B Street address for the premises (tick applicable box/es below and insert property description in the table. Identify each lot in a separate row.)

- (i) ☐ Street address / lot on plan for the **premises** (Appropriate for most applications including building applications); or
- (ii) ☐ Street address /lot on plan for the **land adjoining or adjacent to the premises** (Appropriate for development in water e.g. jetty, pontoon etc) (Note: Lot on plan details may be obtained from title documents, a 'Rate' notice, or from the local government.)

Street Address				Lot on plan description		Local government area (e.g. Logan, Cairns)
Unit No.	Street No.	Street Name and official suburb/locality name	Post Code	Lot No.	Plan type and Plan Number	
1		McDesme & Kilrie Roads, McDesme	4807	7 8	RP702412 SP201162	Burdekin

390 M'Desme Rd, - 7RP702412.
392 Kilrie Rd - 8SP201162

AND / OR**Table C** Coordinates and/or a map of the premises (Appropriate for development in remote areas, over part of a lot, in water (e.g. channel dredging in Moreton Bay) etc.)

	Coordinates (Note: place each set of coordinates in a separate row)				Zone Reference	Datum	Local government area (if applicable)
	Easting	Northing	Latitude	Longitude			
1						<input type="checkbox"/> DGDA94 <input type="checkbox"/> WGS84 <input type="checkbox"/> Other -	

2. Identify if any of the following apply to the premises by completing Tables D, E, or F. (Note: In most instances, the premises will not involve any of the following characteristics, however some applications may involve one or more of these characteristics - complete only if applicable)

Table D Complete if the premises are adjacent to or associated with a water body, watercourse or aquifer (e.g. river, creek, lake, canal)

	Name of water body, watercourse or aquifer (if known)
1	Burdekin River

Table E Complete if the premises are on Strategic Port Land under the Transport Infrastructure Act 1994

	Lot on plan description for strategic port land	Port Authority for the lot
1		

Table F Complete if the premises are in tidal water

	Name of local government for the tidal area (if applicable)	Name of port authority for the tidal area (if applicable)
1		

3. Indicate the total area of the premises on which the development is proposed: (Note: The total area may include land both above and below water)

Total area of premises	
159.00	<input type="checkbox"/> m ² <input checked="" type="checkbox"/> hectares (Tick applicable unit)

Existing use of the premises

4. Current use/s of the premises: (e.g. vacant land, house, townhouses, apartment building, shop, service station, school, sugar cane farming etc.)

1	House & Sugar Cane Farming
---	----------------------------

5. Are there any existing easements on the premises? (e.g. for vehicular access, electricity, overland flow, water etc.)?

☐ No ☒ Yes - Ensure the type, location and dimensions of each easement are included in plans, submitted with the application

Proposal details

6. Brief description of the proposal (e.g. 6 unit apartment building, 30 lot residential subdivision, a bore, aquaculture)

Creation of a House Lot and amalgamation of Farming Land

7. Does the proposal include new buildings or operational work (including any services) on the premises?

☒ No ☐ Yes - Ensure the nature, location and dimensions of the proposed works are included in plans, submitted with the application

Resource entitlement (if applicable) - further information is provided in the advice section at the end of the form

8. Does the application involve taking or interfering with a State resource and therefore require a resource entitlement? (e.g. the application involves State land (leased and freehold), declared Fish Habitat areas, taking quarry material, taking or interfering with water under the Water Act 2000, etc.)

☒ No - Go to Q9 ☐ Yes - Complete Table G - provide details for each evidence required on a separate row, if applicable. Evidence of resource allocation or entitlement must be submitted with the application. You do not need to answer Q9 - go to the next section.

Owner's consent (if applicable) - further information is provided in the advice section at the end of the form

9. Complete Table H for applications involving a material change of use; reconfiguration of a lot; work on land below high-water mark and not within a canal as defined under the *Coastal Protection and Management Act 1995*; or work on rail corridor land defined under the *Transport Infrastructure Act 1994* - provide details for each owner on a separate row, or on an attachment to this form if applicable.

Table H	Premises Owner's name/s and postal address	Details of the premises owned (street address or lot on plan description)	Owner's signature*	Date consent was obtained
1	Raymond Julio Salumbide Ambrose Victor Salumbide Elsa Mottin P.O. Box 2361, Ayr	Lot 7 on RP702412 Lot 7 on RP702412 Lot 8 on SP201162	<i>R. Salumbide</i> <i>A.V. Salumbide</i> <i>E. Mottin</i>	13.11.2009

* Owner's signature cannot be provided on the form if you intend to submit the application electronically. Owner's consent must be provided to the assessment manager on an attachment containing appropriate written documentation of the owner's consent. If the owner is a company, s127 of the *Corporations Act 2001* (Cwealth) details how a company may sign as owner. Templates for the provision of owner's consent are available on the IPA website.

Attachments and supporting information (Complete Table I) - Use a separate row for each type of attachment or information, including information required under this Part. Please ensure all documentation submitted with this form, including other Parts of Form 1, or owner's consent, etc. are securely attached to this Part of the Form.

Table I	Description of attachment or information (e.g. Part C of Form 1, owner's consent, evidence of resource allocation/development plans, drawings, reports)	Title (if applicable) (e.g. General Authority, James Street Traffic Report)	Date	Method of delivery to assessment manager

Portable Long Service Leave (PLSL) levy (Applicable for certain building and construction work valued over \$80,000 only)

10. The Portable Long Service Leave Levy (PLSL) is not applicable to this application if any of the following apply: (Tick box if applicable)

- ☐ the application seeks a preliminary approval only;
- ☒ the application is not for building and construction work under the *Building and Construction Industry (Portable Long Service Leave) Act 1991*, section 3AA (e.g. the application is only for a change of use, or for the following types of work carried out solely for farming purposes: land clearing, site preparation, earthworks, fences, fodder harvesting, clearing of encroaching vegetation, clearing of regrowth, thinning vegetation or controlling weeds or pests);
- ☐ all costs, that relate to the work both directly and indirectly, are less than \$80,000, inclusive of GST; or
- ☐ the work is being carried out under an owner-builder permit issued under the *Queensland Building Services Authority Act 1991* - Complete and submit a QLeave Notification and Payment Form (no payment required if owner-builder permit number stated). The receipted form must be sighted by the assessment manager before a development permit can be given.

11. Is payment of a PLSL levy applicable to this application? (Refer to Q10 and the Advice below for more information)?

- ☒ No - End of Part A
- ☐ Yes - Answer Q12 below

Part F**Reconfiguring a lot****Nature of the lot reconfiguration**

1. What is the nature of the lot reconfiguration? (Tick applicable box/es)

- ☐ (i) **Subdivision** - Complete Question 2 - 5 and 9 below
- ☒ (ii) **Boundary realignment** - Complete Question 2 - 4, 6 - 7 and 10 below
- ☒ (iii) Creating an **easement** giving access to a lot from a constructed road - Complete Question 2 - 4, 8 and 10 below
- ☐ (iv) Dividing land into **parts by agreement** and rendering different parts of a lot immediately available for separate disposition or separate occupation, **other than** by either -
- ☐ (a) a lease for a term, including renewal options, not exceeding 10 years; or
- ☐ (b) an agreement for the exclusive use of part of the common property for a community title scheme under the *Body Corporate and Community Management Act 1997* - Complete Question 2 - 4, 9 - 10 below

The subject land

2. How are the premises identified / zoned in the planning scheme?

	List of applicable zone/precincts/areas	List of applicable overlays
1	Rural	

3. What is the total number of existing lots making up the premises, the subject of the application?

2

4. What is the total area of the premises?

159

☐ Square metres (m²)☒ Hectares**Subdivision details (if applicable)**

5. Does the proposal involve multiple stages?

☒ No - Complete Table A☐ Yes - Complete Table B**Table A**

(i) What is the number of additional lots being created and what is their intended final use?

Intended final use of new lots	Residential	Commercial	Industrial	Other (Specify)
Additional number of lots created				

(ii) What is the type of approval being sought?

☒ Development Permit☐ Preliminary approval

(iii) Are there any current, relevant approvals on the premises? (e.g. a Preliminary Approval for the subdivision, a material change of use etc.)

☒ No☐ Yes - Provide details below

(iv) What is the total length of new road to be constructed?

0

(v) What is the total area of land to be contributed for community purposes?

0

(vi) Does the proposal involve the construction of a canal or other artificial waterway?

☒ No ☐ Yes - Refer to the advice at the end of the form

(vii) Does the proposal involve operational work for the building of a retaining wall?

☒ No ☐ Yes - Refer to the advice at the end of the form

Boundary realignment details (if applicable)

6. What are the current and proposed dimensions for each lot forming the premises? (Provide details for each lot on a separate row)

Current Lots			Proposed Lots			
	Lot on plan description	Area	Length of road frontage	Lot on plan description	Area	Length of road frontage
1	Lot 8 on SP201162 Lot 7 on RP702412	119 ha 39.8 ha	616 m	8 7 & 8	159 ha 4042 s m	888 m

270 m

7. What is the reason for the boundary realignment?

Create new House Lot and amalgamate Farming Land

Easement details (if applicable)

8. What are the dimensions and nature of the proposed easement?

Width (metres)	Length (metres)	Purpose of the easement (e.g. pedestrian access)	Entity favoured by the easement
4.00	379.00	Access	Lot 7

Agreement details (if applicable)

9. What is the number of parts being created and what is their intended final use?

Intended final use of new parts	Residential	Commercial	Industrial	Other (Specify)
Additional number of parts created

IDAS

Assessment Checklist

IDAS Development Application Form 1 is the approved form for all development applications under the Integrated Planning Act 1997 (IPA). Form 1 is made up of various parts.

Part A (application details) of Form 1 must be completed for all applications. The relevance of other parts of Form 1 depends on the nature of the application.

Form 1 also includes the IDAS Assessment Checklist, which is used to assist in determining State assessment and referral requirements, and the Parts of Form 1 relevant to the application.

Section 1 and all other relevant sections of the IDAS Assessment Checklist, as identified in the Table below, must be completed for all development applications except those proposed on land in an urban development area, or for building work requiring assessment against the *Building Act 1975* only.

For more information about development applications on land in an urban development area, refer to www.idas.qld.gov.au. For more advice about building applications refer to Part 6 of the IDAS Application Form.

Answering the following questions will assist you in determining which sections of the checklist must be completed for your application. If unsure, phone or visit your local government or log onto the DIP website www.dip.qld.gov.au for help.

For all IDAS development applications (except those for building work requiring assessment against the <i>Building Act 1975</i> only) - complete Section 1 of this checklist		
Does the application seek approval to make a material change of use of the premises? <i>If yes - complete Section 2 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to reconfigure a lot? <i>If yes - complete Section 3 of this checklist and Part F of IDAS Application Form 1. If the premises are completely within a single local government area assessment is by the local government.</i>	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Does the application seek approval to carry out operational work? <i>If yes - complete Section 4 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against the <i>Fisheries Act 1994</i> ? <i>If yes - complete Section 5 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Have you received a referral agency response under section 3.3.2 of the IPA, in relation to this development application? <i>If yes - complete Section 6 of this checklist</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against a local government planning scheme? <i>If yes - complete Form 1 Part E of IDAS Application Form 1. Assessment is by the local government.</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Does the application seek approval to carry out building work requiring assessment against the <i>Building Act 1975</i> ? <i>If yes - go to Appendix 1 of this checklist for advice on building referrals. Complete Part B of IDAS Application Form 1. Assessment is by a building certifier</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Do you wish the application to be assessed against a superseded planning scheme? <i>If yes - complete Form 1 Attachment 1</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Is the application for development completely or partly on Cairns and Mackay airport land under the <i>Airport Assets (Restructuring and Disposal) Act 2008</i> ? <i>If yes - Assessment is by the Department of Infrastructure and Planning. Complete Form 1 Part D of IDAS Application Form 1 if the application is for a material change of use, and Part E if for building or operational work. Also, the application must be referred to the local government as Advice Agency.</i>	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No

SECTION 1: Applications that require completion of the IDAS Assessment Checklist

HERITAGE

- 1.1A Is any part of the proposal intended to be carried out on a Queensland heritage place under the *Queensland Heritage Act 1992*?

☒ No - Go to 1.1B ☐ Yes

IPA, schedule 8, part 1, table 5, item 2; IP Regulation, schedule 2, table 2, item 18.

- 1.1B Does the proposal involve development intended to be carried out on a place entered in a local heritage register under part 11 of the *Queensland Heritage Act 1992*, other than if the place is on Cairns or Mackay airport land?

☒ No - Go to Q1.2 ☐ Yes

IPA, schedule 8, part 1, table 5, item 2A; IP Regulation, schedule 1, part 2, table 5, item 2.

REMOVING QUARRY MATERIAL, WILD RIVER AREA

- 1.2 Does the proposal involve removing quarry material from a watercourse or lake as defined under the *Water Act 2000*?

☒ No - Go to Q1.3 ☐ Yes

IPA, schedule 8, part 1, table 5, item 1; IP Regulation, schedule 2, table 2, item 11; IP Regulation, schedule 1, table 5, item 2 (wild river area); Water Act 2000, section 966C; Wild Rivers Act 2005, section 43A

ENVIRONMENTALLY RELEVANT ACTIVITY, WILD RIVER AREA

- 1.3 Does the proposal involve an environmentally relevant activity (ERA), other than a mining activity or a petroleum activity?

☒ No - Go to Q1.4 ☐ Yes

IPA, schedule 8, part 1, table 2, item 1; IPA, schedule 8, part 1, table 5, items 3 and 4; IP Regulation, schedule 2, table 2, items 1 and 23; Environmental Protection Act 1994, section 73AA (wild river area); Wild Rivers Act 2005, section 43A; relevant wild river declaration; Wild Rivers Code.

WITHIN THE LIMITS OF A PORT

- 1.4 Is any part of the premises within the limits of a port under the *Transport Infrastructure Act 1994*?

☒ No - Go to Q1.5

☐ Yes

IP Regulation, schedule 2, table 2, items 15 and 16

DECLARED FISH HABITAT AREA

- 1.5 Does any part of the premises adjoin a declared fish habitat area under the *Fisheries Act 1994*?

☒ No - Go to Q1.6

☐ Yes - If answers to questions in other sections of this checklist indicate that the proposed development is **assessable under IPA, schedule 8**, this application requires assessment by the Department of Primary Industries and Fisheries (DPI&F). If DPI&F is not the Assessment Manager for the application, the agency has jurisdiction as Advice Agency.

IP Regulation, schedule 2, table 2, item 26

COMMUNITY INFRASTRUCTURE

- 1.6 Is any part of the premises designated for community infrastructure?

☒ No - Go to Q1.7

☐ Yes

IP Regulation, schedule 2, table 3, item 7

WASTE WATER MANAGEMENT

- 1.7 Does the proposal involve the establishment or expansion of a waste water disposal system?

☒ No - End of Section 1 ☐ Yes

IP Regulation, schedule 2, table 3, item 5

SECTION 3

Section 3 must be completed when the application is for approval to reconfigure a lot.

IP Regulation, schedule 2, table 3

STATE-CONTROLLED ROAD

3.1 Is any part of the premises located in part of a future State-controlled road, or within 100m of a State-controlled road?

☒ No ☐ Yes

If no, is the proposed reconfiguration listed in *Integrated Planning Regulation 1998*, schedule 5 and does it exceed the threshold?

☒ No - Go to Q3.2 ☐ Yes - The application must be referred to the Department of Main Roads (DMR) as Concurrence Agency.

IP Regulation, schedule 2, table 3, item 3; IP Regulation, schedule 2, table 2, item 2

COASTAL MANAGEMENT DISTRICT

3.2 Is any part of the premises within a coastal management district?

☒ No - Go to Q3.3

☐ Yes - This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 13(a)

VEGETATION CLEARING

3.3 Do the premises include a lot containing the following?

(i) A category 1, 2 or 3 area shown on a Property Map of Assessable Vegetation (PMAV)

☒ No ☐ Yes

(ii) If there is no PMAV for a lot, remnant vegetation

☒ No ☐ Yes

IP Regulation, schedule 2, table 2, item 4

EASEMENTS

3.4 Is any part of the premises subject to an easement?

☐ No - Go to Q3.5 ☒ Yes - Answer both (a) and (b) below

(a) Is there an easement in favour of a distribution entity or transmission entity under the *Electricity Act 1994* for a transmission grid or supply network under that Act?

☒ No ☐ Yes - This application must be referred to the entity as Advice Agency.

(b) Is there an easement in favour of the holder of Pipeline Licence Number 1 issued under the *Petroleum Act 1923* for the construction or operation of the Moonie to Brisbane strategic pipeline under that Act?

☒ No ☐ Yes - This application must be referred to the licence holder as Advice Agency.

IP Regulation, schedule 2, table 2, item 20(a) (electricity easement); IP Regulation, schedule 2, table 2, item 32 (pipeline easement)

ELECTRICITY SUBSTATIONS

3.5 Is any part of the premises situated within 100m of a substation site under the *Electricity Act 1994*?

☒ No - Go to Q3.6 ☐ Yes - This application must be referred to the entity responsible for the substation as Advice Agency.

IP Regulation, schedule 2, table 2, item 20(b)

CONTAMINATED LAND - REGISTERED LAND

3.6 Is any part of the land forming the premises on the Environmental Management Register or Contaminated Land Register under the *Environmental Protection Act 1994*?

☒ No - Go to Q3.7 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

CONTAMINATED LAND - NOTIFIABLE ACTIVITY

3.7 Is any part of the land forming the premises currently used for a notifiable activity, or if there is no existing use was it last used for a notifiable activity?

☒ No - Go to Q3.8 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

CONTAMINATED LAND - INDUSTRIAL ACTIVITY

- 3.8 Is any part of the premises currently used for an industrial activity (other than for a mining activity or petroleum activity), or if there is no existing use was it last used for an industrial activity (other than for a mining activity or petroleum activity)?

☒ No - Go to Q3.9 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

CONTAMINATED LAND - AREA MANAGEMENT ADVICE (NATURAL MINERALISATION OR INDUSTRIAL ACTIVITY)

- 3.9 Is any part of the premises in an area for which an area management advice has been given for natural mineralisation or industrial activity (other than for a mining activity or petroleum activity)?

☒ No - Go to Q3.10 ☐ Yes

IP Regulation, schedule 2, table 2, item 21(a)

CONTAMINATED LAND - AREA MANAGEMENT ADVICE (UNEXPLODED ORDNANCE)

- 3.10 Is any part of the premises in an area for which an area management advice has been given for unexploded ordnance?

☒ No - Go to Q3.11

☐ Yes - (Complete Form 1, Part N) This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 21(b)

SOUTH EAST QUEENSLAND REGION

- 3.11A Is any part of the premises within the South East Queensland (SEQ) designated region?

☒ No - Go to Q3.11B ☐ Yes

Draft South East Queensland Regional Plan 2009-2031 Regulatory Provisions, division 3; IP Regulation, schedule 2, table 2, item 35

FAR NORTH QUEENSLAND REGION

- 3.11B Is any part of the premises within the Far North Queensland region (FNQ Region) designated region?

☒ No - Go to Q3.12 ☐ Yes

Far North Queensland Regional Plan State Planning Regulatory Provisions 2009, division 3; IP Regulation, schedule 2, table 2, item 35

KOALA CONSERVATION

- 3.12 Is any part of the premises in a koala conservation area or koala sustainability area, other than in an SEQ urban footprint area?

☐ Yes ☒ No

If no, is any part of the premises in an interim koala habitat protection area?

☒ No - Go to Q3.13 ☐ Yes

IP Regulation, schedule 2, table 2, item 33 and 34A

CANAL DEVELOPMENT

- 3.13 Is the proposed reconfiguration in connection with the construction of a canal?

☒ No - Go to Q3.14

☐ Yes - (Complete Form 1, Part M) This application must be referred to the Environmental Protection Agency (EPA) as Concurrence Agency.

IP Regulation, schedule 2, table 2, item 13(b)

DECLARED CATCHMENT AREA

- 3.14 Is the proposed reconfiguration in an area declared to be a catchment area under the *Water Act 2000*?

☒ No - Go to Q3.15

☐ Yes

IP Regulation, schedule 2, table 2, item 19

PUBLIC PASSENGER TRANSPORT

- 3.15 Is the proposed reconfiguration listed in schedule 13A of the *Integrated Planning Regulation 1998* and does it exceed the specified threshold?

☒ No - Go to Q3.16 ☐ Yes - This application must be referred to Queensland Transport (QT) as Concurrence Agency.
IP Regulation, schedule 2, table 2, item 30; IP Regulation, schedule 13A

RAIL TRANSPORT

- 3.16 Is the proposed reconfiguration listed in schedule 13B of the *Integrated Planning Regulation 1998* and does it exceed the specified threshold?

☒ No - Go to Q3.17 ☐ Yes - This application must be referred to Queensland Transport (QT) as Concurrence Agency.
IP Regulation, schedule 2, table 2, item 31; IP Regulation, schedule 13B

WETLAND CONSERVATION ESTATE

- 3.17 Does the proposed reconfiguration result in more than 10 lots or any lot less than 5ha in area?

☐ No - Go to Q3.18 ☒ Yes - (Answer (a) and (b) below)

- (a) Does the proposed reconfiguration involve a lot situated in, or within 100m of, a wetland shown on the 'Map of referable wetlands'?

☐ No
☒ Yes - This application must be referred to the EPA as Advice Agency.

- (b) Does the reconfiguration involve a lot situated in, or within 100m of, the following?

- | | | |
|--|--|------------------------------|
| (i) A protected area, forest reserve, critical habitat or area of major interest under the <i>Nature Conservation Act 1992</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (ii) A State forest or timber reserve under the <i>Forestry Act 1959</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (iii) A marine park under the <i>Marine Parks Act 2004</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (iv) A recreation area under the <i>Recreation Area Management Act 1988</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (v) A world heritage area listed under the World Heritage Convention | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |
| (vi) Brisbane forest park under the <i>Brisbane Forest Park Act 1977</i> | <input checked="" type="checkbox"/> No | <input type="checkbox"/> Yes |

If yes to any one of (i) - (vi) above - this application must be referred to the Queensland Government department administering the relevant Act mentioned as Advice Agency.

IP Regulation, schedule 2, table 2, items 38 and 39

HERITAGE

- 3.18 Does the proposed reconfiguration involve a lot sharing a common boundary with a Queensland Heritage place under the *Queensland Heritage Act 1992*?

☒ No - End of Section 3
☐ Yes - This application must be referred to the Environmental Protection Agency (EPA) as Advice Agency. - End of Section 3
IP Regulation, schedule 2, table 2, item 41

WILD RIVER AREA - Although legislation provides for assessment of lot reconfiguration for the purposes of the *Wild Rivers Act 2005*, currently no declarations for any of the wild river areas apply the Wild Rivers code to that type of development.

Introduction

The landholders intend to reconfigure their allotments to maximise the farming allotments and separate the unviable land.

The reconfiguration will provide proposed allotment areas of:

Lot 7 (dwelling) – 4042m²

Lot 8 (cane land) – 158.6ha

Design Basis

This report has been prepared in accordance with the requirements of The *Queensland Plumbing and Wastewater Code* and *AS/NZS 1547:2000*

Topography

The proposed reconfiguration of boundaries is shown on Cleve McGuane Surveys Pty. Ltd. Plan no. 28482-3.

The proposed allotments are essentially level for on-site sewage treatment purposes.

The land has been modified (levelled) at some stage to assist irrigation and surface drainage.

Water is, or will be, supplied to each of the proposed allotments by bore water supply.

Site Assessment

The soil in this area has been mapped (McClurg, J., Juergensen, C., Christianos, N. and Enderlin, N, 2005. *Lower Burdekin Delta area North and South Burdekin Water Board areas Soils*, The State of Queensland, Natural Resources and Mines 2005.).

The proposed new allotments lie across UMA nos. 512 (BUma), 514 (BUfb), 511 (BUma-BGna) and 236 (BUfc). The dwelling allotment (proposed Lot 7 lies within UMAs 236 (BUfc) and 514 (BUfb).

These soils are described therein as:

Map Unit Code: BUfc
Australian Soil Classification: Black or Brown Dermosol

Major attributes of the
Dominant Soil: 0.3-0.7m black fine sandy light to medium clay, over
black to brown fine sandy light to medium clay to 1.2 –
1.5+m, over brown, occasionally yellow, fine sand to
fine sandy loam to 1.5+m. Neutral Soil Reaction Trend

Map Unit Code: BUfb
Australian Soil Classification: Black or Brown Dermosol
Major attributes of the
Dominant Soil: 0.2-0.6m black fine sandy light to light medium clay,
over brown fine sandy light to light medium clay to 0.6-
1.1m, over brown, occasionally yellow, fine sand to fine
sandy loam to 1.5+m. Neutral Soil Reaction Trend

Recommended system

An appropriate effluent treatment system for these proposed allotments is to remove any unsuitable overlying clayey material (if necessary) and replace it with screened Burdekin River sand to connect to the underlying *in situ* sand or sandy loam as shown below.

* Trench depth will depend on depth to the underlying sand, and this varies from 500mm to 900mm.

It is important that the trench is excavated to the underlying sand and the unsuitable material removed and replaced with sand as shown on "Filter Grading Envelope".

Screened Burdekin River sand meets this grading envelope.

On-Site Effluent Treatment Trench cross section

However, should the overlying clayey layer prove too deep at the site chosen for the land application of effluent then a Wisconsin mound should be constructed.

The surface soils are poorly suited to the land application of primary treated effluent from conventional septic tanks. However, Wisconsin mound systems have proved effective in several parts of the world.

Fig. 1. Schematic of the Wisconsin Mound System.

Key components of a Wisconsin mound (Converse and Tyler 1990)

For Wisconsin mounds, effluent flows from the septic tank to the pump chamber from where it is pumped to laterals near the top of the bed, as shown above.

Each of these systems offer the advantages of even distribution of effluent over the entire area as well as dose loading. Dose loading means that the effluent volume builds up in the pump chamber until a nominated "dose" is reached, and is then pumped into the trench in about two to three minutes. This causes a wet and dry treatment that provides effective treatment of the effluent and prolongs trench life.

Another advantage of these types of system is the aeration that occurs when the effluent discharges into the aggregate bed in the trench and as it filters down through the sand mound.

Conclusion

The proposed boundary re-configuration does not cause any impediment to adequate on site effluent.

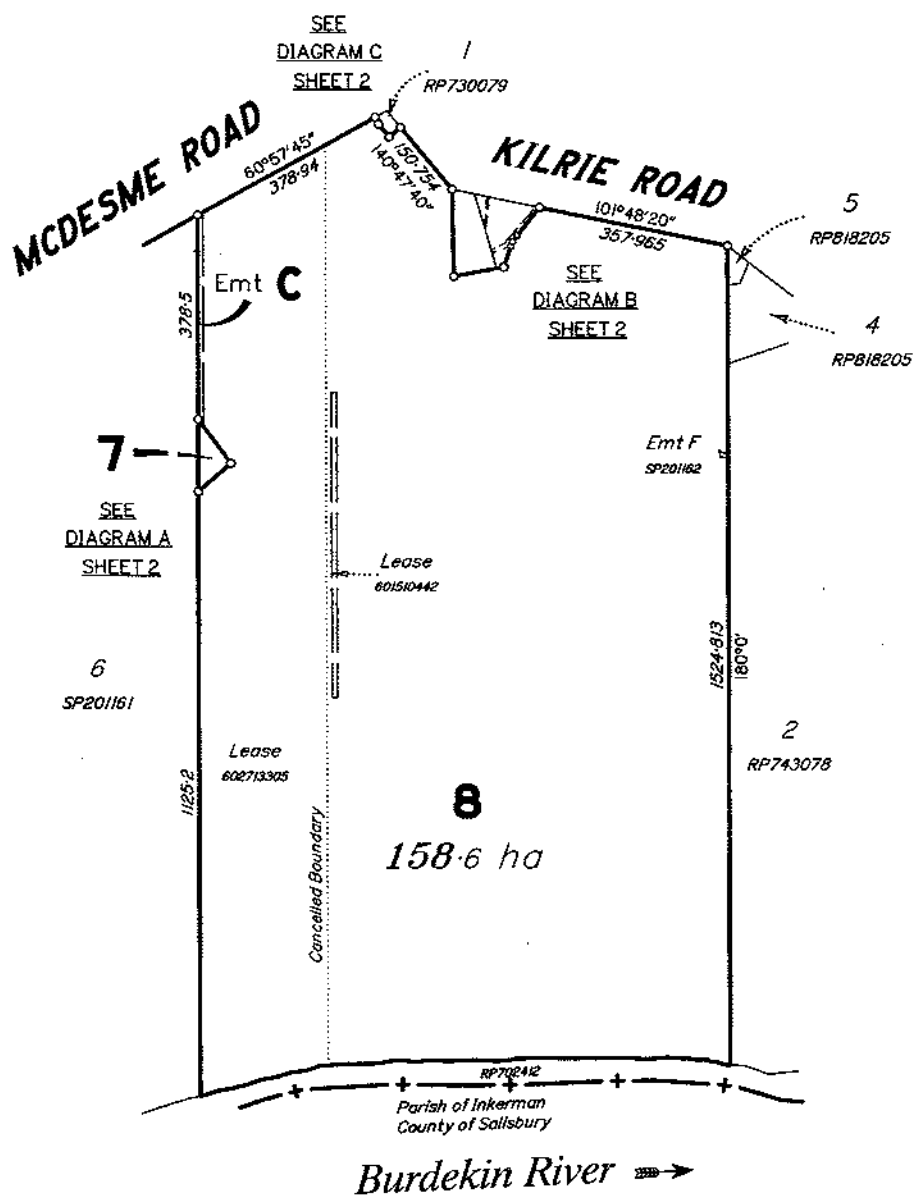

The subject soils are generally well suited to the on-site treatment of domestic wastewater.

There are no known environmental or public health constraints to the on-site treatment of domestic waste.

File No: 02/02/01B

Subject Heading: Electrification of Ayr Town Clock

Name of Applicant:

Location: Burdekin Shire

**Author and
Officer's Title:** Kevin Byers
Manager Technical Services

Executive Summary:

As a requirement of the Workplace Health and Safety Act 1995 and the Workplace Health and Safety Regulation 2008 it is essential that Council provides a safe workplace and assesses all risks within the workplace and implements any control measures required to minimise or eliminate these risks. The following issues have been raised by employees entering the Ayr Town Clock structure to carry out regular winding of the clock mechanism and associated maintenance:

1. The structure has been identified as a confined space.
2. The existing ladder does not meet current standards.
3. The access door is small requiring the employee to crawl into the structure.
4. There is a risk of the heavy weights which are part of the clock mechanism to fall on the employee in the event of failure of the supporting steel cable .
5. The platform and trapdoor installed in 2001 could cause a problem if the employee is injured or collapses. When on the platform with the trapdoor closed there is a possibility that the trapdoor can't be opened to retrieve the employee.

Numerous discussions have been held with two Clockmakers to provide a suitable proposal that will address all of the safety issues. Due to space restrictions within the structure the recommendation from both clockmakers is to eliminate the requirement for manual winding and replace the existing mechanism with an electronic GPS stabilised mechanism. This mechanism will provide corrections to ensure the clock keeps accurate time eliminating complaints about the clock displaying incorrect time. This proposal eliminates most of the risk associated with the operation of the Town Clock.

Officer's Recommendation:

That Council resolves to remove the existing clock mechanism and replace with an electronic GPS stabilised mechanism.

Background:

Workplace, Health and Safety issues regarding the access and winding of the Town Clock were first raised in August 2001 at which time a platform and trapdoor were installed to allow the clock to be wound without the need for fall arrest equipment to be worn whilst winding the clock. At this time the confined space issue was also raised, however it was anticipated that new standards to be released in October 2001 would resolve this problem. During November 2009 Council's Workplace, Health and Safety officer Mr Ian Gorey assessed the clock structure in accordance with recent changes to regulations and standards and it has been identified as a confined space. Council workshop is responsible for the winding of the clock and there is currently no employee within this area with confined space training. As an interim measure, water and wastewater employees with confined space training have been engaged to perform the task of winding the clock.

Link to Corporate/Operational Plan:

Section 1.8 of the 2009-2014 Corporate Plan adopted by Council on the 26th May 2009 states that Council will *"Provide a safe and healthy workplace by implementing the Workplace Health and Safety Plan"*

Consultation (internal/external): N/A

Legal Authority or Implications:

If Burdekin Shire Council fails to meet its obligations under the Workplace Health and Safety Act, Council and Management will be considered the responsible party and may attract a maximum penalty of \$500,000 and 2 years imprisonment in the event of a death of an employee.

Policy Implications: N/A

Financial and Resource Implications:

The winding and maintenance of the clock mechanism currently takes approximately 1.5 hrs per week to perform. The installation of the electronic mechanism will reduce the annual maintenance/inspection time from approximately 70hrs to 1hr. This will free up valuable resources to carry out other tasks.

The funds required to modify the clock shall be sourced from funded depreciation

BURDEKIN SHIRE COUNCIL	
Folder No.	117/8
19 FEB 2010	
Document No.	

Dear Mr Holt 

LGAQ PUBLIC INQUIRY ON THE NEED FOR A STATE POPULATION POLICY

LGAQ has appointed an Expert Panel to undertake a Public Inquiry on the need for a Queensland Population Policy. The Inquiry Panel is seeking to hear and record the diverse views on population growth and change in Queensland and how specific policy initiatives could enhance liveability of Queensland communities.

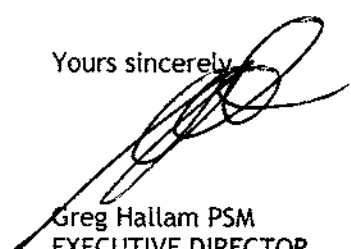

The Inquiry is calling for public submissions on issues of relevance to population policy in Queensland.

LGAQ considers that it is important that the views of councils across the state are presented to the Inquiry. The opportunity exists to make a formal submission to the Inquiry and attend a public hearing.

The attached Issues Paper includes the Terms of Reference for the Inquiry as well as outlining some of the issues to be considered and matters that might be addressed in submissions.

The Inquiry will also be holding public hearings in Dalby, Bundaberg, Townsville and Brisbane in March 2010. The dates and venues for these public hearings and registration requirements are attached. Your council may wish to be represented at one or more of these public hearings. The opportunity also exists to make a formal presentation to the Inquiry Panel at each of these hearings.

I look forward to your active participation in this important initiative.

Yours sincerely 

Greg Hallam PSM
EXECUTIVE DIRECTOR

**LGAQ POPULATION INQUIRY
PUBLIC HEARINGS**

The Inquiry will hold public hearings in the following locations during March 2010.

Location	Date	Venue
Dalby	Thursday 11 March, 2010, 10.00am to 3.00 pm	Dalby RSL
Bundaberg	Friday 12 March, 2010, 10.00am to 3.00 pm	"Supper Room" Civic Centre, Bourbong St, Bundaberg
Townsville	Monday 15 March, 2010, 10.00am to 3.00 pm	Rydges, South Bank Townsville
Brisbane	Tuesday 16 March, 2010, 10.00am to 3.00 pm	Rydges, South Bank, Brisbane

Note: Lunch break at approximately 12.30pm to 1.15 pm. Own arrangements for lunch.

To assist with registration arrangements, it is requested that all individuals or organisations who will attend one of the above public hearings **please register online at www.lgaq.asn.au under "Population Policy Inquiry" by Monday 8 March 2010.**

If you are attending a public hearing and wish to make a formal presentation to the Inquiry please indicate when registering to assist scheduling. Speakers will be in the order of receipt of registration. Approximately 5 minutes will be allocated to each presentation to maximise contributions to the Inquiry.

LOCAL GOVERNMENT ASSOCIATION OF QUEENSLAND

**PUBLIC INQUIRY
ON
THE NEED FOR A STATE POPULATION POLICY**

ISSUES PAPER

February 2010

PUBLIC SUBMISSIONS INVITED

Public submissions on issues of relevance to population policy are invited. Electronic submission direct to the Population Inquiry at populationinquiryqld@lgag.asn.au is preferred.

However, written submissions can be addressed to:

*Population Policy Inquiry,
Local Government Association of Queensland,
PO Box 2230
Fortitude Valley BC
Qld. 4006*

Submissions will be placed on the Inquiry website. Submissions marked confidential will not be accepted. Any submission that, based on legal advice to the Inquiry, is judged unpublishable, will not be posted on the Inquiry website.

The Inquiry invites submissions to address the range of issues identified in the Terms of Reference along with any other relevant matters. Attachment A of this Issues Paper provides the Terms of Reference.

Submissions should cover:-

- *the issues which could be addressed by a State Population Policy;*
- *specific mechanisms or initiatives that could be adopted through Population Policies to enhance social, economic and environmental outcomes across Queensland;*
- *impacts on matters such as affordability, capacity to pay and the distribution of costs and benefits across sectors of the community and across the State as a whole.*

Submissions should be lodged by 31 March 2010.

For more information, please contact the Inquiry Secretariat.

1. Background

1.1. Purpose of Issues Paper

This Issues Paper is intended to assist individuals, interest groups and agencies in developing submissions to the Inquiry.

The Inquiry Panel is seeking to hear and record the diverse views on population growth and change in Queensland and how specific policy initiatives could enhance liveability of Queensland communities. Policy and management initiatives need to ensure the demands placed on natural resources are also sustainable.

This Issues Paper is not intended as an in-depth analysis of population growth and change in Queensland. The focus is on providing information on this Inquiry and its scope, along with relevant background on current and anticipated changes in the Queensland population, its structure and distribution.

1.2. Scope of Inquiry

The Local Government Association of Queensland (LGAQ), the peak body representing Queensland Councils, established an Expert Panel to undertake a Public Inquiry on the need for a Queensland Population Policy. The Terms of Reference (TOR) given to the Panel are included as Attachment A of this Issues Paper.

It is not the purpose of this Inquiry to develop specific policies or to undertake new research on matters for consideration. The Inquiry aims to stimulate debate on the need for a Queensland population policy within a national context, and potential benefits from development of such a policy.

As part of this Inquiry, the Expert Panel appointed by LGAQ will review background research of relevance to sustainable population growth in Queensland. Potential initiatives that could be of value in ensuring growth is managed in a sustainable manner and that the benefits from growth are spread equitably across the State will be identified.

Matters for consideration by this Inquiry include (but are not limited to):

- a. demographic influences (ageing of population, changing fertility rates, household formation);
- b. overseas and interstate migration;
- c. economic influences (demand for labour and skill types, growth sectors, technology);
- d. calls from some sectors of the community for population "capping";
- e. concerns in relation to potential "carrying capacity" of some regions;
- f. supply/demand management and impacts on pricing/affordability of housing;
- g. urban consolidation;
- h. settlement and migration incentives (or disincentives); and
- i. regional population distribution, decentralisation and designated growth centres.

While ongoing growth in Queensland appears inevitable bearing in mind current high levels of internal migration, it is important that growth contributes to enhanced living standards and not a decline in social, economic and environmental qualities.

Interested community members have an opportunity to participate in the Inquiry process.

Written submissions are invited. These should be forwarded to the Inquiry by 31 March 2010. The Inquiry invites submissions to address the range of issues identified in the TOR along with any other relevant matters. Submissions will be placed on the Inquiry website. Submissions marked confidential will not be accepted. Any submission that, based on legal advice to the Inquiry, is judged unpublishable, will not be posted on the Inquiry website.

Public hearings are to be held in Brisbane, Bundaberg, Townsville and Dalby during March 2010. Details of venues, time and date will be advertised as well as being detailed on the LGAQ population inquiry website.

The Inquiry will also conduct market research to test community attitudes towards issues and options and obtain views on the likely public acceptability of potential policy initiatives.

1.3. Context to Inquiry

In recent months, there has been increased public debate on issues associated with population growth. The Prime Minister has recently stated that the Australian population will grow from some 22 million to 36 million over the next 40 years. The issues of population ageing, increased dependency on a smaller proportion of working people and the need to increase productivity have been highlighted in a number of his recent speeches.

These statements relate to issues discussed in the Intergenerational Report 2010 released in February this year. Some key points of relevance to population growth contained in this report¹ include:

- *Over the past 40 years the population has grown at an average annual rate of 1.4 per cent per annum taking Australia's total population to an expected 22 million in 2010. Over the next 40 years, the rate of population growth is expected to slow to 1.2 per cent on average per annum.*
- *This reflects a broadly stable fertility rate of 1.9 births per woman and continuation of net overseas migration at an average annual rate of 0.6 per cent of the total population - the same rate as over the last 40 years.*
- *In 2010, there will be an estimated 5 people of traditional working age for every person aged 65 and over. By 2050 only 2.7 people of traditional working age are projected for every person aged 65 and over.*
- *Population growth, by supporting reduced ageing of the population and adding to the labour force, benefits the Australian economy but puts pressure on infrastructure, services and the environment.*
- *Challenges of population growth can be managed, provided governments continue to plan well ahead of time for infrastructure, housing and service delivery needs.*

In South East Queensland (SEQ), in the face of rapid growth, increased congestion and pressure on essential services such as water supplies, there have been calls from some sectors for what has been termed a 'population cap'. The view is often expressed that current growth rates are unsustainable.

In other parts of the State such as Wide Bay, concerns have also been expressed about the sustainability of the population with rapidly increasing rates of elderly dependency.

In a number of resource communities including Central Queensland and the South West, major coal, oil and gas developments are putting pressure on housing affordability and workforce skills.

¹ Intergenerational Report 2010, Australian Government Treasury Department, February 2010

On the other hand, a number of smaller rural communities are facing decline or withdrawal of some public services, threatening their long-term sustainability.

Media debate on the subject of population growth has escalated both at the national and State level.

A motion at the last LGAQ Annual Conference called on LGAQ to undertake research and advocacy to ensure that population growth and distribution is planned in accordance with the State's natural resources and environment. There is recognition by councils that more needs to be done to coherently manage the impacts of a growing population on environmental and natural resources as well as providing for services and infrastructure.

1.4. Population Policy in Other Jurisdictions

Interest in population policy in the past appears to have generally related to situations where low rates of population and economic growth are occurring. An exception is China where the "one child policy" introduced in 1979 is estimated to have resulted in at least 300 million fewer people in China today than would have been the case otherwise.

A number of Australian States have considered the need for specific population policies. These include Victoria, South Australia and Tasmania, primarily during the late 1990s and early 2000 period. At that time, each of these States was not experiencing significant population growth. The issue to be addressed was generally the need to increase population growth rates.

Victoria in 2004 did adopt a specific population policy.² In the 1990s, population growth rates had been below national levels averaging less than 1%. In the last ten years, Victoria has seen a relatively significant increase in its population with growth rates approaching 2% for the two years ended June 2009, above the national average of 1.8% for that period³.

Victoria's 2004 Population Policy

Six key strategies were adopted by Victoria in 2004. These were:

- seeking to increase Victoria's low fertility rate by reducing the obstacles to raising a family and providing more support for children as they grow;
- increasing the overall level of migration from overseas, with a focus on attracting more skilled migrants, particularly into regional areas;
- achieving a balance in interstate migration with a focus on retaining and attracting young skilled people in Victoria;
- maintaining population growth in Provincial Victoria in line with Statewide trend by strengthening the economies of provincial centres and rural areas;
- preparing for the changing needs of the ageing population, encouraging workforce participation and addressing skills shortages to ensure the economy has the workforce it needs to continue growing;
- ensuring population growth is sustainable and manageable by reducing wastage of energy, water and other resources, so that Victoria maintains its world-renowned 'livability' and preserves its environment for future generations.

² Beyond Five Million – The Victorian Government's Population Policy, December 2004

³ Australian Demographic Statistics, ABS Cat. 3101.0, June 2009

While specific population policies have not been adopted in other Australian States, or for that matter in most OECD countries, the need for population policies has been examined by both governments and external commentators.

In Tasmania, a 2003 study by the Tasmanian Government⁴ observed:-

- Population outcomes depend to a large extent on the personal decisions of individuals. Lifestyle advantages are not by themselves sufficient to promote a sustained increase in the number of people who elect to move to Tasmania;
- It is difficult for the State Government to directly influence population outcomes. There is little evidence to date that suggests allocating significant funding to a specific population policy will have the desired influence on population outcomes;
- Public sector investment, in the form of both new projects and the maintenance of existing assets, is important, but is not by itself sufficient to ensure sustained economic growth. The focus should be on encouraging the private sector to provide the significant share of investment in the State.

In South Australia, 2002 research on the need for a population policy⁵ noted the difficult economic circumstances of the State at that time, and the extent of population loss through internal migration, particularly young well-educated people. The research suggested that mechanisms that could be adopted by the State to enhance economic and demographic growth include:-

- Increased fertility;
- Reduction in, or turning around, the loss from internal migration;
- Increased intake of overseas migrants.

In the United Kingdom, there is intense political debate about population issues. The government has responded by talking up its proposed reform to immigration controls and sharpening its anti-immigrant rhetoric, most notably in Prime Minister Gordon Brown's claim to want "British jobs for British workers"⁶. There is growing pressure on the government to put in place a population policy designed to curb growth by migration over the medium to long term.

1.5. National Overseas Migration Trends

As is the case in the UK debate noted above, there is often a view that overseas migration impacts adversely on jobs for residents of a country.

Australia's population grew by a relatively high 2.1% during the 12 months ended 30 June 2009. Natural increase contributed 36% while net overseas migration contributed 64% to this total population growth. This contribution by net overseas migration was the greatest in both absolute and percentage terms in the last thirty years.

While natural increase has remained relatively stable over the last 30 years, accounting for just over half the population growth in Australia, net overseas migration has fluctuated widely. Net overseas migration has ranged from a low of 30,000 in 1993 to the 2009 high of 285,000.

Figures 1.1 and 1.2 provide details.

⁴ Tasmania's Population, An information paper on recent trends and State Government policies
Department of Treasury & Finance, 2003

⁵ *A Population Policy for South Australia?* Graeme Hugo, People & Place, Monash University, 2002

⁶ *Does Britain Need a Population Policy?* A Murray, Centre Forum, 2008

As Figure 1.2 shows, the longer term trend has been for an increasing share of growth to come from net overseas migration. Since 1996, fluctuation has been less dramatic and on average net overseas migration accounted for some 52% of population growth in that period.

Source: Australian Demographic Statistics ABS 3101.0 June 2009

Source: Australian Demographic Statistics ABS 3101.0 June 2009

In February 2010, the Federal Government announced plans⁷ to abolish the Migration Occupations in Demand List (MODL) and to limit eligibility for independent skilled migration to a more targeted set of occupations, those that are considered to meet our future skill needs.

The Federal Government has invited each of State and Territory government to draw up State Migration Plans. These plans are intended to form bi-lateral compacts to frame the level and type of skilled migration sought over a rolling four-year period. The Ministerial statement notes that the best plans are likely to be those that are framed within an economic development perspective.

The State Migration Plans will allow States to specify occupations that are in short supply in their State that are not included on the national list to be prepared by Skills Australia.

⁷ Minister for Immigration and Citizenship, 8 February 2010

Migrants nominated by a State and Territory government under their State Migration Plan will be processed ahead of applications for independent skilled migration.

These changes may have implications for population growth in Queensland, including impacts on the number of overseas students coming to Queensland.

In 2006, the Productivity Commission (PC) was asked to examine economic impacts of migration. The PC notes that migration has played a critical role in shaping Australia's society and economy.

As a policy issue, migration is seen as significant in the context of an ageing population, future labour supply and the prospects for economic growth as well as for its social and environmental impacts.

The PC considered it unlikely that migration would have a substantial impact on income per capita, and productivity, because:

- the annual flow of migrants is small relative to the stock of workers and population;
- migrants are not very different in relevant respects from the Australian-born population and, over time, the differences become smaller.

The PC concluded that the overall economic effect of migration appears to be positive but small, which is consistent with previous Australian and overseas studies.

The report notes that, in terms of the selection criteria of the Migration Program, the greater emphasis on skills has been associated with better labour market outcomes for immigrants.

The report also notes that English language proficiency stands out as a key factor determining the ease of settlement and labour market success of immigrants.

Policy on overseas migration is one for the national government rather than being an element that can be directly influenced by State policies.

2. The Context of Population Growth and Change in Queensland

2.1. Population Growth Forecasts

In January 2010, the population of Queensland was estimated as 4.47 million, up 360,000 from 4.1 million at the 2006 Census.

Table 2.1 provides Queensland Government estimates of likely population growth over the next 25 to 50 years based on current trends. By 2031, Queensland will be home to between 5.8 million and 7 million people and by 2056 there could be somewhere between 6.8 million and 10 million people in Queensland.

Queensland: 200 years of growth	
1860 – 28,000	
1910 – 600,000	
1960 – 1,500,000	
2010 – 4,500,000	
2060 – 8,000,000?

	2006	2031	2056
Low	4,091,546	5,767,715	6,754,654
Medium	4,091,546	6,273,883	7,976,189
High	4,091,546	7,007,639	9,898,848

Source: Queensland Government, Population Projections to 2056: Queensland, 2008

In the national context, Queensland has been growing at more than 2% per annum over the last decade with a 2.3% growth rate in the year ending June 2008 and a 2.6% growth rate for the year ending June 2009⁸. While Queensland now has some 20% of the Australian population, over the five years to June 2008 it took 31.8% of national growth.

However, growth in Queensland is not distributed across the State. Table 2.2 shows that only SEQ and the Mackay Statistical Division are expected to increase their share of State population over the next 25 years.

Table 2.2: Population Forecasts 2031 by Region

Statistic Division	2006	Medium estimate 2031	share 2006	share 2031
Brisbane	1,820,400	2,726,836	44.5%	43.5%

Queensland Total	4,091,546	6,273,883	100.0%	100.0%

Source: Queensland Government, Population Projections to 2056: Queensland and Statistical Divisions, 2008

⁸ Australian Demographic Statistics, ABS Cat. 3101.0, June 2009

SEQ is expected to be home to around 4.2 million people by 2031, representing 67.6% of the State population. In contrast, the western parts of the State are expected to see little or no growth in population.

2.2. Components of Population Change

In recent years, there have been significant shifts in the share of population change by source as shown by Table 2.3 and Figure 2.1.

SEQ – 50 years of change
1981: 1,401,480 (59.8% of Qld)
2006: 2,706,297 (66.1% of Qld)
2031: 4,243,837 (67.6% of Qld)

Table 2.3: Components of Population Change Queensland – 2001 to 2009

Year ending	Natural Increase	Net Interstate Migration	Net Overseas Migration	Total Growth	Natural Increase Share	Net Interstate Migration Share	Net Overseas Migration Share
Jun-2001	25366	20024	21003	66393	38.2%	30.2%	31.6%
Jun-2002	24842	30035	26488	81365	30.5%	36.9%	32.6%
Jun-2003	24317	37984	27122	89423	27.2%	42.5%	30.3%

Source: ABS Cat. 3101.0, Australian Demographic Statistics June 2009

Source: ABS Cat. 3101.0, Australian Demographic Statistics June 2009

Currently (2008/09), net natural increase in Queensland accounts for 35.5% of population growth.

The largest component of population change at present is net international migration contributing 48.2% of total growth in 2008/09. Net international migration to Queensland has increased significantly from 21,003 in 2000/01 to 54,410 in 2008/09.

Net interstate migration has fallen from a high of 37,984 in 2002/03 to a 2008/09 low of only 18,388.

Table 2.4 shows forecasts of the components of population change to 2056 prepared in 2008. The forecast annual average for net international migration for the five year period 2006 to 2011 of 34,887 is well below the 2008/09 level of 54,410 and also below the average of 41,000 for the last five years.

Based on these Queensland Government medium forecasts, by 2056, net natural increase is forecast to account for 25.5% of growth whereas net international migration may contribute 45% of growth.

Table 2.4: Components of Change – Annual Average per 5 year period (Medium Series)

Component of Change	2006–11	2011–16	2016–21	2021–26	2026–31	2031–36	2036–41	2041–46	2046–51	2051–56
Births	56,498	60,141	64,990	67,840	69,424	71,279	73,761	76,468	78,976	81,194

Total Annual Average Growth	95,233	94,522	87,678	81,135	77,899	74,187	70,743	67,735	65,090	62,704

Source: Queensland Government, Population Projections to 2056: Queensland, 2008

The following figure provides details of the total fertility rate in Queensland. Prior to 1970, the fertility rate was greater than 3.0. By 1980, it had dropped to around 2.0. Since the early 1990s, the fertility rate has averaged around 1.8, well below the replacement rate of 2.1 per woman. For 2008, the data shows a fertility rate of 2.1, but this is understood to be in part due to recent changes in the processing of birth registrations in Queensland.⁹

Source: Qld Population Update #14, OESR, January 2009

⁹ Queensland Population Update #14, OESR, January 2009

In 2007/08, the main sources of settler arrivals into Queensland were New Zealand (40 per cent), the United Kingdom (19.1 per cent) and South Africa (4.8 per cent).¹⁰ Almost half of new arrivals in Australia from New Zealand settle in Queensland.

While Queensland gains from net interstate migration (18,388) in the year to June 2009 were the lowest recorded in the previous five years, Queensland is still the State with the highest gains from interstate migration. Only Western Australia, Tasmania and the Northern Territory recorded gains from interstate migration in 2008/09 but these were relatively small compared with the gains in Queensland.

A growing source of new residents in Queensland relates to long stay temporary business entrants (visa subclass 457).¹¹ It has been estimated that around 30% of these ultimately become permanent residents. Between 2004/05 and 2008/09 the number of these long stay visa entrants (including dependents) to Queensland increased from 5,310 to 19,800. Some 57% of these settled in the Brisbane Statistical Division. Relatively high proportions were also recorded in regions with significant mining activity.

Overseas students also represent a large and growing proportion of temporary entrants to Queensland. In the year to June 2009, there were 72,500 total overseas student enrolments in Queensland, an increase of around 25 % from the 2008 figure. This represented some 15.5% of overseas students nationally, well below the State population share of 20%. Victoria is the major player in the overseas student market.

These recent changes in patterns of natural increase, internal and overseas migration noted above are likely to impact on the forecasts shown at Table 2.4 which are based on 2008 data.

2.3. Population Dependency Ratios

A key concern in both Queensland and Australia is the decreasing proportion of people in the productive working ages. The increasing elderly dependency ratio has been identified by the Australian Government as a key issue, with calls for initiatives to increase overall productivity.

The following table provides details of the forecast change in dependency ratios for the elderly and young¹² in Queensland through to 2056.

Table 2.4: Dependency Ratios 2006 to 2056 – Medium Series Forecast

	2006	2011	2016	2021	2026	2031	2036	2041	2046	2051	2056
Young dependency ratio (YDR)	45.1	43.5	42.2	42.1	42.4	42.2	42.0	41.6	41.4	41.5	41.7
Elderly dependency ratio (EDR)	19.9	22.1	25.4	28.8	32.7	36.3	39.4	42.2	44.4	47.3	50.0
Total dependency ratio (DR)	65.0	65.5	67.6	70.9	75.1	78.5	81.4	83.8	85.8	88.8	91.7

Source: Queensland Government, Population Projections to 2056: Queensland, 2008

The ageing of the population is apparent from this table. The elderly dependency ratio is expected to increase from 19.9 in 2006 to 50% by 2056.

There are a number of regions that are expected to have an elderly dependency ratio significantly above the State average by 2031. These include the Sunshine Coast, Wide Bay-Burnett and Darling Downs.

¹⁰ Queensland Population Update #14, OESR, January 2009

¹¹ Overseas Migration to Queensland, Office of Economic & Statistical Research, November 2009

¹² The young dependency ratio is the 0–19 population as a proportion of the 20–64 population. The elderly dependency ratio is the 65+ population as a proportion of the 20–64 population.

Table 2.5: Dependency Ratios by Region – Medium Series Forecast

Statistical Division		2006	2011	2016	2021	2026	2031

2.4. Growth in Households

While the rate of population growth in Queensland is high, the growth in the number of households is even greater.

According to research undertaken by the Queensland Planning Information and Forecasting Unit (PIFU), Queensland's population was projected to increase by around 54% between 2001 and 2026. However, household numbers will grow by almost 73% over that period.

Most household growth will be in one person or two-person households, resulting in the average household size declining from 2.6 persons per household in 2001 to around 2.3 persons per household by 2026.¹³

¹³ Household Projections Queensland Local Government Areas, Queensland Government, 2007

3. Regional Growth Management and Population Policy

3.1. Regional Planning

In recent years, the State Government has sought to better manage growth in Queensland regions through development of statutory regional plans. With rapid population growth in SEQ, the first regional planning initiatives focused on this geographic area.

However, regional planning initiatives now cover all parts of the State. The existing statutory regional plans are:

South East Queensland Regional Plan 2009-2031

Far North Queensland Regional Plan 2009-2031

Central West Regional Plan

South West Regional Plan

Draft North West Regional Plan

Maranoa-Balonne Regional Plan

Most other Queensland regions have also developed regional plans which at this point are not statutory plans.

The SEQ Regional Plan is also supported by the SEQ Infrastructure Plan and Program, recognising the importance of planned and coordinated infrastructure investment to support growth.

Given the issues associated with rapid growth in SEQ, some of the key elements of the SEQ Regional Plan are outlined below.

The SEQ Regional Plan was updated in 2009. The Plan estimates that between 2006 to 2031, 754,000 additional dwellings will be required to cater for population growth in SEQ and provide housing choices for a more diverse population as shown by Table 3.1.

Table 3.1: SEQ Regional Plan Dwelling Projections by Location 2006-2031

	2006		2006-2031					
	Existing dwellings	share dwells.	Total additional dwellings	share additional dwellings	infill / redevelop (minimum)	share infill / redevelop	Balance / existing urban area	share balance
Brisbane	397,007	35.3%	156,000	20.7%	138,000	36.9%	18,000	4.7%
Gold Coast	202,588	18.0%	143,000	19.0%	97,000	25.9%	46,000	12.1%

Somerset	7,818	0.7%	6,500	0.9%	0	0.0%	6,500	1.7%
Sunshine Coast	130,016	11.6%	98,000	13.0%	37,000	9.9%	61,000	16.1%
Toowoomba SSD	45,538	4.1%	31,000	4.1%	4,000	1.1%	27,000	7.1%
	1,124,388	100.0%	754,000	100.0%	374,000	100.0%	380,000	100.0%

Source: SEQ Regional Plan 2009

The Plan allocates the projected 754,000 additional dwellings to local government areas based on the preferred settlement pattern principles of:

- relieving pressures on the coast;

- redistributing growth to the Western Corridor;
- promoting infill in existing centres;
- redeveloping 'infrastructure-rich' areas;
- maximising residential yield in major new residential developments.

The above principles reveal a strong effort to influence the location of future population growth in the SEQ region rather than simply allowing past trends to dictate where development occurs.

The focus on the Western Corridor is aimed at achieving almost 15.6% of new dwellings in the Ipswich local government area. At present Ipswich contains only 4.7% of SEQ dwellings.

Some 374,000 of the estimated new dwellings (49.6%) required in SEQ by 2031 are to be located in infill or redevelopment of current urban areas rather than through new broadacre development. The objective is to conserve land by making the most efficient use of land allocated for urban development. Brisbane City and the Gold Coast are the focus for this "densification", designated for over 62% of this infill or redevelopment.

The specific policies set down in the SEQ Regional Plan in relation to achieving a more compact urban form are:-

- accommodate a higher proportion of growth through infill and redevelopment of existing urban areas;
- focus higher density and mixed-use development in and around regional activity centres and public transport nodes and corridors;
- include in Development Areas a diversity of uses and employment opportunities at densities that support walkable communities, shorter vehicle trips and efficient public transport services;
- achieve a minimum dwelling yield of 15 dwellings per hectare net for new residential development in development areas.

The land allocated to the urban footprint is based on these preferred settlement outcomes. In other words, the SEQ Plan includes measures which could form elements of any State Population Policy. Similar Regional Plans are being developed in other growth regions of the State.

There have been calls from some groups for a population cap to be introduced for SEQ. How such a cap could be implemented is not clear given it is a matter of free choice where people settle in Australia.

Nevertheless, land availability for development and the location of employment opportunities do play a significant role in the location of growth. In particular, a constrained land supply in locations with high demand will potentially lead to increased prices. This in turn may impact adversely on housing affordability for some sectors of the community.

3.2. Infrastructure Investment

Rapid population growth requires significant investment in new public infrastructure to meet the needs of new residents. This includes hospitals, schools and transport.

Figure 3.1 shows the rapid increase in gross fixed capital formation in Queensland since 2003. It suggests State Government recognition of the importance of infrastructure investment to meet the needs of the growing population as well as a recognition of under-investment in the past.

According to a report prepared for the Queensland Civil Infrastructure Alliance¹⁴, gross fixed capital formation by the public sector increased from 4.2% of gross state product in June 2004 to 8.2% by June 2008. The report argues that the required infrastructure investment per capita is directly related to both the actual and expected future rate of population growth, to ensure an appropriate stock of infrastructure for a growing population.

The rapid increase in infrastructure investment raises issues in relation to capacity to pay. For example, recent investment in the “water grid” in SEQ is expected to result in a doubling of water prices over the coming years. For example, figures released by the Queensland Water Commission in 2008 showed the bulk water price for an average Brisbane customer increasing from \$438 in 2007/08 to \$747 by 2012/13, a 71% increase in that period (excluding inflation increases).

Source: Building our Future 2009 Update, Layton A & Morton A, July 2009

New toll roads in the Brisbane metropolitan area will also introduce an increased element of user pays in the transport system, although for some the savings in costs associated with congestion may outweigh the direct cost involved.

The increase in electricity prices has also been substantial in recent years.

Nevertheless, many commentators point to the importance of infrastructure investment on productivity growth necessary for a sustainable economic environment.

The Prime Minister has recently emphasised the importance of infrastructure investment

In a recent speech¹⁵ he noted that “Advanced infrastructure will play a central role in putting Australia back on track to higher productivity growth ... economic evidence, including that cited in the Australia to 2050 report, shows that infrastructure investment contributes directly to a more productive, growing economy... despite this fact, measures of Australia's infrastructure investment in recent decades show a trend decline in our infrastructure investment. That has contributed to a growing backlog of infrastructure projects and an

¹⁴ Building our Future 2009 Update, Layton A & Morton A, July 2009

¹⁵ Building 21st Century infrastructure for a more productive economy, Prime Minister, Adelaide, 20 January 2010

increasing number of choke points that have held back our economic growth... in response to the infrastructure backlog, the Australian Government has for the first time made infrastructure a national priority."

3.3. Employment Growth

While the estimated resident population of Queensland increased by 12.7% between 2001 and 2006, employment grew by 17.4%.

Table 3.2 shows the growth in employment by industry over the 2001 to 2006 period. As the table reveals, the main growth sectors were in service industries. In absolute terms, construction industry employment accounted for almost 20% of new employment growing by almost 48% over five years relative to the overall change of 17%.

In percentage terms, mining employment grew by almost 60%, reflecting the resources boom. Government administration also grew significantly with a 33% increase in the period.

Table 3.2: Employment by Industry, Queensland, 2001 and 2006

	2001	2006	change	change %
Construction	110,737	163,666	52,929	47.8%
Health and Community Services	149,288	190,239	40,951	27.4%
Retail Trade	238,025	268,953	30,928	13.0%
Property and Business Services	151,920	181,851	29,931	19.7%
Government Administration and Defence	74,617	99,524	24,907	33.4%
Manufacturing	165,888	187,055	21,167	12.8%
Education	118,200	135,154	16,954	14.3%
Transport and Storage	77,133	89,249	12,116	15.7%
Mining	19,130	30,566	11,436	59.8%
Accommodation, Cafes and Restaurants	87,823	96,161	8,338	9.5%
Finance and Insurance	43,758	51,867	8,109	18.5%
Personal and Other Services	57,058	64,597	7,539	13.2%
Electricity, Gas and Water Supply	12,199	14,987	2,788	22.9%
Wholesale Trade	79,104	81,384	2,280	2.9%
Cultural and Recreational Services	36,816	36,544	-272	-0.7%
Communication Services	22,795	21,732	-1,063	-4.7%
Agriculture, Forestry and Fishing	74,867	62,666	-12,201	-16.3%
Non-classifiable economic units/not stated	34,851	48,803	13,952	40.0%
Total	1,554,209	1,824,998	270,789	17.4%

Source: ABS Census 2001 and 2006

The Global Financial Crisis (GFC) has however impacted on the rate of employment growth. Between November 2007 and November 2009, the labour force in Queensland grew by 2.7% to 2.218 million.¹⁶ The Construction sector however recorded only a 1.3% increase in that period.

Clearly the growth in employment opportunities by type and location in Queensland will have an impact on ongoing trends in population growth. There are currently a number of major resource projects under consideration in Central Queensland and the South West.

¹⁶ Queensland Statistics, ABS Cat. 1318.3, January 2008 and 2010

4. Environmental Sustainability

Many environmental and conservation groups consider that current growth rates in Australia are unsustainable.

For example, the Australian Conservation Foundation (ACF) argues that, while some population growth is unavoidable due to demographic inertia, lower migration and fertility rates could stabilise Australia's population at between 25 and 30 million this century.¹⁷

In particular, ACF considers that the skilled migration program should be cut with priority given to humanitarian and family migration. ACF argues that the growth of a consumption-intensive population in Australia is damaging the Australian environment.

Business groups do not share the above views and have argued that skilled migration is important in enhancing productivity. They are also skeptical about the views that ongoing growth is not environmentally sustainable.

A report commissioned by the Business Council of Australia (BCA) in 2000¹⁸ examined:-

- the environmental constraints on population growth in Australia; and
- technological, behavioural, pricing and settlement planning interventions which can be used to manage population-related environmental issues.

The report identifies four environmental issues that have a strong connection to population growth:

- pollution of land (and groundwater basins);
- pollution of coastal waters, rivers and lakes near major urban areas;
- depletion of fresh water stocks near major urban areas;
- pollution of urban air sheds.

The authors considered that adverse impacts of population growth on the environment in Australia relate to:

- the structure and functioning of our cities (eg. urban sprawl and dominance of car transport);
- Australia being a high resource using and waste generating society; and
- Australia's dry climate resulting in low stocks of fresh water near the major population centres.

The report concludes that there are a wide number and range of technological, behavioural, pricing and settlement planning strategies (52 identified) that could be applied to address the four major population-related environmental issues. The report argues that these strategies could potentially deliver superior environmental outcomes even in the context of a range of population scenarios in 2050. In other words, population growth is not the problem but rather the planning and management of urban settlement has failed to ensure sustainability.

5. Issues for Submissions

The previous sections of this Paper provide some background on matters of relevance to this Inquiry. Issues touched on include:-

- natural population change and fertility rates,
- overseas and interstate migration,
- regional population distribution, including increasing urbanisation,
- ageing of the population,
- dependency ratios within regions,
- employment trends, labour force skills and availability,
- regional planning and growth management policies,
- household formation,
- infrastructure investment, capacity to pay and productivity gains,
- environmental sustainability and resource capacity.

Formatted: Bullets and Numbering

Formatted: Bullets and Numbering

Formatted: Bullets and Numbering

Public submissions on issues of relevance to population policy are invited. Electronic submission direct to the Population Inquiry at populationinquiryqld@lgaq.asn.au is preferred.

However, written submissions can be addressed to:

Population Policy Inquiry,
Local Government Association of Queensland,
PO Box 2230
Fortitude Valley BC
Qld. 4006

Submissions will be placed on the Inquiry website. Submissions marked confidential will not be accepted. Any submission that, based on legal advice to the Inquiry, is judged unpublishable, will not be posted on the Inquiry website.

Submissions should address:-

- the issues which could be addressed by a State Population Policy;
- specific mechanisms or initiatives that could be adopted through Population Policies to enhance social, economic and environmental outcomes across Queensland;
- impacts on matters such as affordability, capacity to pay and the distribution of costs and benefits across sectors of the community and across the State as a whole.

Submissions should be lodged by 31 March 2010.

For more information, please contact the Inquiry Secretariat.

LGAQ PUBLIC INQUIRY ON THE NEED FOR A QUEENSLAND POPULATION POLICY

TERMS OF REFERENCE

Synopsis:

The Local Government Association of Queensland (LGAQ), the peak body representing Queensland Councils, is to undertake a Public Inquiry on the need for a Queensland Population Policy. The LGAQ is seeking to:-

1. review and analyse demographic and growth related issues of relevance to the sustainability of population increases, pressures on environmental and natural resources, community/industry capacity to pay, development and liveability of Queensland. Matters to be considered include:
 - a. regional population distribution
 - b. cost of future infrastructure/service demand
 - c. ageing of the population,
 - d. dependency ratios within regions
 - e. labour force skills and availability,
 - f. natural population change,
 - g. overseas and interstate migration
2. identify opportunities for policy initiatives at Federal, State or Local Government level to enhance outcomes for Queensland from future growth including matters such as:
 - a. mechanisms that constrain population growth in some regions or enhance growth opportunities in others;
 - b. initiatives that could ensure a better match between the costs and benefits of population growth.
3. stimulate debate on the need for a Queensland population policy within a national context, and potential benefits from development of such a policy.

It is not the purpose of the Inquiry to develop specific policies or to undertake new research on matters for consideration.

Background:

LGAQ has sought to have the State Government develop a population policy for a number of years, but no action has been taken. At present planning is based on reacting to trends in growth rather than seeking to influence aspects of population growth, distribution and structure. While Regional Planning initiatives do establish urban growth strategies including the desired urban footprint and urban consolidation requirements to meet anticipated growth over a twenty year period, this does not include a state-wide perspective on desirable settlement patterns or explicit policies on population growth.

A motion at the last LGAQ Annual Conference called on LGAQ to undertake research and advocacy to ensure that population growth and distribution is planned in accordance with the State's natural resources and environment. There is recognition by councils that more needs to be done to coherently manage the impacts of a growing population on environmental and natural resources as well as providing for services and infrastructure.

There are now more than 4.4 million Queenslanders with almost 70% of these resident in South East Queensland.

By 2031, the State is currently estimated to be home to 6.3 million people, a long term annual growth rate in excess of 1.7% per annum.

The population of the State is expected to double over the next 40 years while the rest of Australia will see a 50% increase in population.

Given the significant challenges associated with servicing the current population growth the issues of community/industry capacity to pay, intergenerational equity and who ultimately are the beneficiaries will escalate.

However, in the western areas of Queensland, projections suggest little or no change in current population levels.

This rapid growth is concentrated in South East Queensland and a number of coastal provincial cities.

This population growth and its distribution presents a number of challenges. There is a need to ensure growth is managed in a sustainable manner and that the benefits from growth are spread equitably across the State.

There is also a need to ensure Queensland communities remain liveable and that the demands placed on natural resources are sustainable. Growth must result in enhanced living standards and not a decline in social, economic and environmental qualities.

There are issues in relation to an ageing population and a declining proportion in the labour force, and these may differ from region to region. For example, in the Wide Bay-Burnett region, the total dependency ratio (the proportion of people less than 20 or greater than 65 as a percentage of those aged 20-64) is expected to increase from 77.6% in 2006 to 91.5% in 2031.

Such outcomes do not appear to be in the best interest of these communities, and strategies may be required to ameliorate potential adverse social and economic outcomes.

Specific Brief:

This Inquiry will review background research of relevance to sustainable population growth in Queensland. It will identify issues and potential initiatives that could be of value in ensuring growth is managed in a sustainable manner and that the benefits from growth are spread equitably across the State. The Inquiry will make recommendation in relation to the need for a Queensland population policy within a national context, and potential benefits from development of such a policy.

Matters for consideration include (but are not limited to):

- j. demographic influences (ageing of population, changing fertility rates, household formation);
- k. overseas and interstate migration;
- l. economic influences (demand for labour and skill types, growth sectors, technology);
- m. calls from some sectors of the community for population "capping";
- n. concerns in relation to potential "carrying capacity" of some regions;
- o. supply/demand management and impacts on pricing/affordability of housing;

Formatted: Bullets and
Numbering

- p. urban consolidation;
- q. settlement and migration incentives(or disincentives); and
- r. regional population distribution, decentralisation and designated growth centres.

In undertaking this review, the Inquiry will examine social, economic and environmental costs and benefits of a population policy for Queensland, having regard to:

- a. environmental and natural resource impacts including land use, habitat and vegetation, water supplies and air quality;
- b. demand for services and associated infrastructure requirements, costs and capacity to pay;
- c. the distribution of costs and benefits across the various Queensland regions and sectors of government; and
- d. impacts on Queensland's economic growth and competitiveness.

Community attitudes towards these issues and potential mechanisms or initiatives will be gauged by inviting public and community comment via submissions and attendance at regional hearings. Other market research processes such as community surveys will also be used where appropriate.

The LGAQ proposes to, as part of the Inquiry,

- Call for public submissions and invite input from appropriate government, private sector, tertiary and non-government organisations.
- Hold public meetings in Brisbane, Bundaburg, Townsville and Dalby.
- Test community attitudes towards issues, options and initiatives and comment on the likely public acceptability of such initiatives.
- Provide a final report on the findings of the Inquiry including recommendations to Local, State and Federal Governments.

Outcomes:

The Inquiry will focus on determining whether an explicit state-wide population policy has merit for enhancing outcomes for Queensland in terms of sustainability and liveability resulting from population growth and its distribution. Opportunities will be identified for policy initiatives at Federal, State or Local Government level to enhance outcomes for Queensland from future growth and which address the carrying capacity of our communities.

The attitude of the community to the need for such a state-wide policy will also be identified.

Timing:

The Inquiry is expected to present a final report within five months of commissioning.

Dear Tamika

Thank you for the letter Mayor Lyn McLaughlin sent requesting CSR Sugar Burdekin Region's financial support for the newly operational Silver Link Shuttle.

We're proud to be part of the Burdekin and believe the shuttle is an excellent initiative which will benefit many members of the community. As discussed with you, we will be pleased to be Gold Sponsors of the service. I will arrange for payment of our two-year sponsorship to be processed as soon as possible after a receipt of an invoice.

I will arrange for a magnetic sticker to be delivered to you in the coming weeks. We would be keen to take advantage of any other opportunities which may arise to promote CSR Sugar's support of the service. Please contact me on 4722 1958 or kstockdale@csr.com.au if you would like to discuss this further.

Yours sincerely

Kylie Stockdale
Community Relations Manager

The Chief Executive Officer,
Burdekin Shire Council,
P.O. Box 974,
AYR Q 4807

Dear Ken,

Re: 2009/2010 Annual Donation

I would appreciate if you could convey, on behalf of all the team and members of the Burdekin Neighbourhood Centre, our gratitude to the Burdekin Shire Council for the generous donation of \$10 720.00 for 2009/2010.

As you would be aware, all contributions are greatly valued - they enable us to continue our services and support to the Burdekin community. Our Centre could not function at our current capability without the Council's support - so this donation is greatly welcomed and appreciated.

The Management Committee would also like to thank all the Councillors who have made themselves available for our various activities. It always a pleasure to have our local Councillors attend and showing their support for local community organisations.

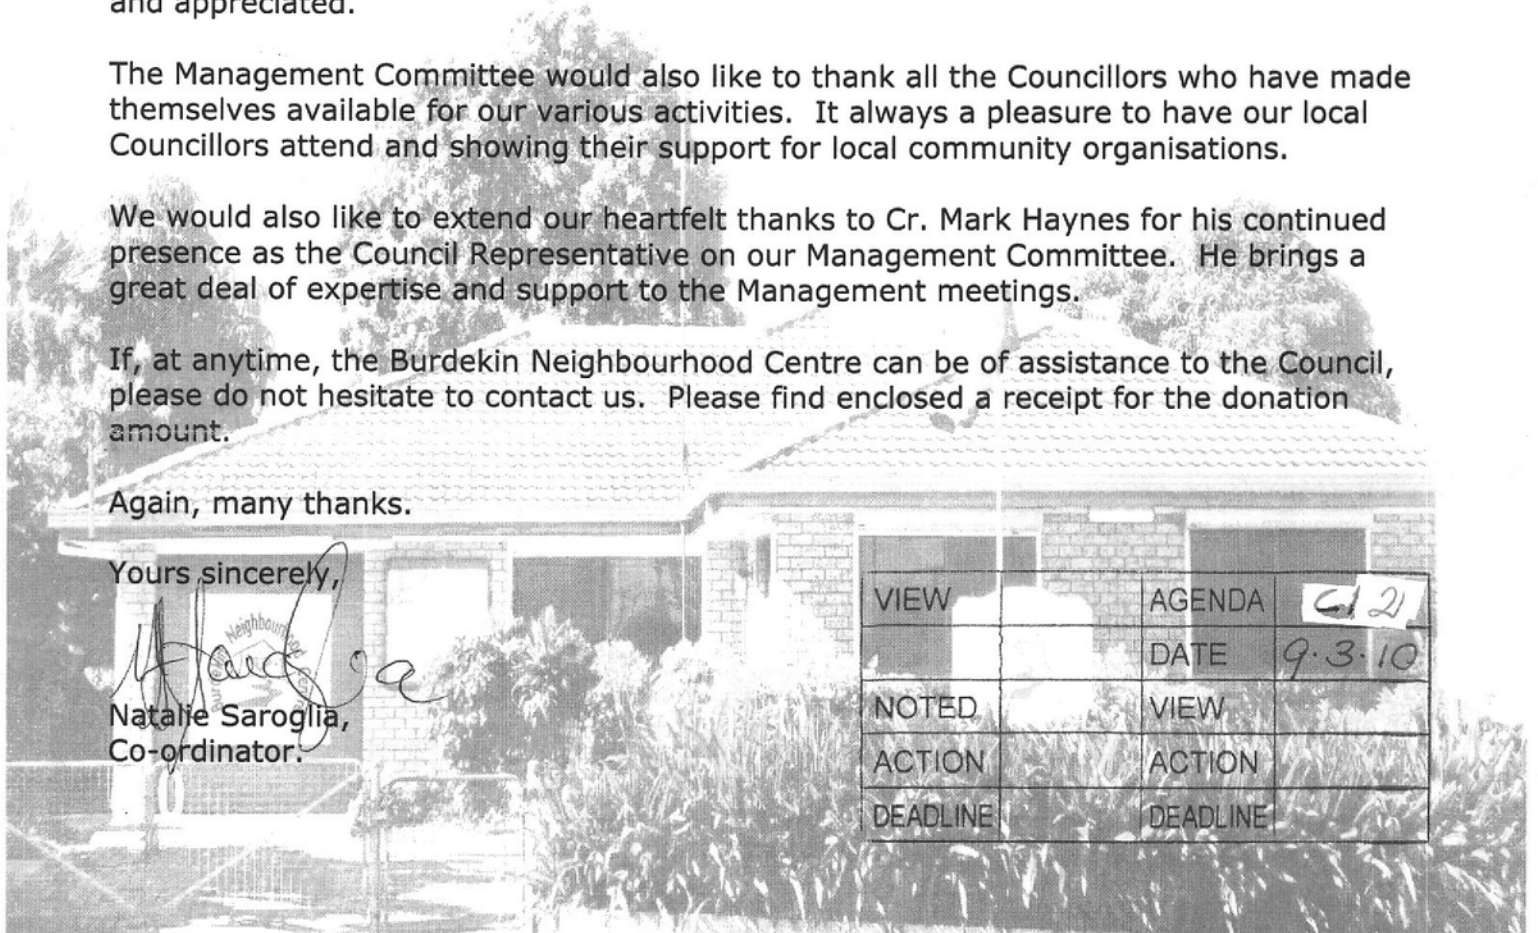

We would also like to extend our heartfelt thanks to Cr. Mark Haynes for his continued presence as the Council Representative on our Management Committee. He brings a great deal of expertise and support to the Management meetings.

If, at anytime, the Burdekin Neighbourhood Centre can be of assistance to the Council, please do not hesitate to contact us. Please find enclosed a receipt for the donation amount.

Again, many thanks.

Yours sincerely,

Natalie Saroglia,
Co-ordinator.

AYR, Qld., 4807.
burdekinsc@burdekin.qld.gov.au ;

Dear Ken,

Re: Notice of Conference – Normanton – 5th to 7th May, 2010.

I enclose the Notice of Conference for the Association's upcoming biannual conference, to be hosted by Carpentaria Shire Council from 5th to 7th May, 2010. The conference venue is Normanton Shire Hall, 99 Landsborough Street, Normanton.

Delegates and observers will be responsible for arranging their own accommodation, directly with their preferred accommodation house, stating the booking is for the NQLGA Conference. I have included details of accommodation houses with the registration form.

Please complete the attached Registration Form, and forward it to **Carpentaria Shire Council**, no later than **Thursday 1st April, 2010**. Ms. Shannon Gallagher of Carpentaria Shire Council will coordinate the conference and you may contact her by phone on 4745 2200, by facsimile on 4745 1340 or by email – am@carpentaria.qld.gov.au.

Agenda Items must be submitted as a Word document to me at dianne.schultz@burdekin.qld.gov.au by **Friday 26th March, 2010**. The early deadline will enable the agenda to be available on Burdekin Shire Council's website – www.burdekin.qld.gov.au one month prior to the conference. This will allow each council to discuss agenda items at their own council meeting prior to the NQLGA Conference.

As a courtesy and for your information, I am also enclosing with this letter a 'date claimer' for the November 2010 conference.

I look forward to hearing from you and thank you in anticipation of your response to the notice for the May conference.

Yours faithfully,

Cr. Lyn McLaughlin
President

AYR, Qld., 4807,
burdekinc@burdekin.qld.gov.au; ;

Dear Ken,

NOTICE is hereby given that the next Conference of this Association will be held at Normanton Shire Hall, 99 Landsborough Street, Normanton from 5th to 7th May, 2010, with Carpentaria Shire Council acting as the host Council.

All motions requiring consideration at the Conference should be forwarded to me no later than **Friday 26th March, 2010**, and should be supported by a short background statement on the subject matter for inclusion in the agenda.

Under the operational guidelines as agreed between this Association and the Local Government Association of Queensland Inc., any matter of State-wide implication is to be handled by the latter organisation. This means that if your proposed motion is covered under those operational guidelines, then your motion should reflect that you are requesting action of the Local Government Association of Queensland.

In addition, if NQLGA adopts your motion and you wish NQLGA to refer it to the LGAQ Conference, you should also make this clear in your motion. Unless NQLGA requests LGAQ to refer the matter to the LGAQ Conference, LGAQ may handle the matter internally.

I look forward to receiving your notice of motion by **Friday 26th March, 2010**.

Yours faithfully

Cr. Lyn McLaughlin
President

Dear Councillor McLaughlin

As you are aware, the *Sustainable Planning Act 2009* (SPA) commenced on 18 December 2009. This is a key part of delivering a smarter, better and simpler planning system for Queensland.

The next three years will be significant for planning and development in Queensland, as the reform agenda continues to be implemented. As your Council works with Qplan – Queensland's new planning, development and building system – and adapts to the changes brought about by SPA, I expect there will be new opportunities for partnerships and collaboration between State and Local Government.

The process of achieving reform of Queensland's planning system does not end with the commencement of SPA and I am committed to ongoing communication with all stakeholder groups to continue to improve planning outcomes across our State. SPA and other legislative and operational instruments provide some of the tools for improvement but it only once these are used that we will see real change in our planning system.

One very important initiative of SPA is the standard planning scheme provisions, which have been called the Queensland Planning Provisions (QPPs). These will guide Local Governments as they prepare new planning schemes. A CD containing the QPPs and associated fact sheet are enclosed. It is also available on the Department of Infrastructure and Planning's website. This is the first version of the QPPs and will be subject to review and refinement over time. I look forward to your feedback as your Council works with QPPs.

A range of other supporting materials such as forms and guides are available on the Department's website www.dip.qld.gov.au/spa with additional resources to be added over the coming months. A summary of current, available materials is also attached.

If you require further information please contact Mr James Ross, Manager Planning Reform Implementation, Planning Services Division, Local Government and Planning Group, Department of Infrastructure and Planning on 07 3247 3087, who will be pleased to assist.

Yours sincerely

Stirling

19th February 2010

Dear Sir/Madam,

2010 Water Festival Ambassador Nominations

BURDEKIN SHIRE COUNCIL	
Folder No.	1/10/4
22 FEB 2010	
Document No.	

The Water Festival Ambassador Program has proven to be a very successful form of positive exposure for both the entrant and their supporting organisation. As a key component of the festival, the program provides an invaluable opportunity to the ambassador and their sponsoring organisation to showcase who they are and what they are about to the general public.

The Water Festival Ambassador Committee is extending an invitation to your organisation to consider sponsoring and entering an ambassador in the 2010 SunWater Burdekin Water Festival.

Attached is a copy of the Rules and Conditions of Entry that should be considered prior to nomination. Listed below are the nomination fees, **nominations close on 31st May 2010.**

Entry Fee's

Senior Ambassador - \$400 – *must be aged 18 or over before 1st July 2010*

Junior Ambassador - \$200 – *must be a Grade 7 student*

The Water Festival Launch and Official Presentation of the Ambassadors is being held on Sunday 20th June 2010. Ambassadors will be required to attend this and other events in conjunction with the 2010 Water Festival. A complete calendar of events will be available closer to the festival date.

To nominate an ambassador please complete the attached forms and return with payment in full to the above postal address. Once nominations have been received all entrants will be provided with a handbook outlining their obligations and expectations as an ambassador.

We hope that you strongly consider supporting an entrant in the 2010 SunWater Burdekin Water Festival. For further information please do not hesitate to contact me.

Regards

LGAQ NEWS RELEASE - 23 FEBRUARY 2010

DEVELOPERS DISHONEST IN BID TO AVOID FAIR TAX SHARE

There would be no council rate increases as a result of the state government reintroducing a previously-imposed tax on property developers, Local Government Association of Queensland president, Cr Paul Bell said today.

"A continuing, dishonest advertising campaign by the Property Council and the Shopping Centre Council wants to assure the public that, because the state government has correctly asked them to again pay their fair share of land tax, that this will cause councils to raise rates," Cr Bell said.

"If you can stretch a bow to its limit, that's what this claim is doing," he said.

"The truth is that the amendments to the legislation prevent a recent Court of Appeal decision overturning decades of past practice in the valuation of commercial property.

"The decision will, in fact, help to stabilise rates for ordinary ratepayers by insulating them from higher land valuation-associated costs.

"What these groups want is to pocket a windfall of more than a billion dollars in rates and property taxes - never mind that they would be reducing the funds available for hospitals, roads, water and sewerage.

"There is no new tax. What the big end of town is doing is attempting to thrust their taxes onto the ordinary punter.

"Councils throughout Queensland are right behind the state government move.

This campaign by the property developers should be seen for what it is - a ridiculous, unsubstantiated bluff," Cr Bell said.

MF/36

Dear Councillor McLaughlin

I am hosting a Roads Summit for Mayors from Far North and North Queensland, to discuss National Network needs in North Queensland, with a focus on the Bruce Highway (Sarina to Cairns). There is an urgent need to strengthen our advocacy for those needs, given that a federal election will be held before the end of the year.

I invite you to join me and your colleagues at the summit on Friday, 5 March 2010 at 10.00am. The summit will be held at the Townsville Office of the Premier, Floor 10, Suncorp Building, 61-73 Sturt Street, Townsville (*Invitation enclosed*).

A similar summit was held in June 2007, to discuss urgent needs for the 760km section of the Bruce Highway (Sarina to Cairns). It resulted in formation of the North Queensland Road Alliance, a bipartisan group of Mayors and representatives from LGAQ, RACQ and road user peak groups.

The Alliance's declared aim was to "to ensure investment in North Queensland's Bruce Highway is adequate to meet the needs of local communities and the North Queensland economy".

The summit and the Road Alliance's subsequent submission to the federal government proved to be very effective mechanisms for securing substantial funding. During the federal election campaign later that year, bipartisan federal funding commitments were made to a range of projects listed in the submission. The outcome was that the Rudd Government provided a total of \$915m in federal funding for projects listed in the submission, on the Bruce Highway (Sarina to Cairns).

As for the 2007 summit, the Department of Transport and Main Roads will assist by providing information about unmet needs, as well as progress in delivering federally-funded commitments to date.

While much has been achieved by securing the \$915m for the Bruce Highway (Sarina to Cairns) and in delivering the funded projects, there are still important upgrading and maintenance needs for the National Network in North Queensland.

NATIONAL AWARDS FOR LOCAL GOVERNMENT – ENTRIES OPEN

Nominations have now opened for the 2010 National Awards for Local Government.

These prestigious awards, now in their 25th year, reward local governments for the innovative and important work they do in supporting local communities.

The Rudd Labor Government recognises the critical role of local governments in making our communities more productive, liveable and sustainable.

The National Awards are an important plank of the Rudd Labor Government's partnership with local government.

This year, the National Awards have been revamped to recognise local governments' efforts in delivering local infrastructure, collaborating with neighbouring councils, improving their asset and financial management planning and building their capacity to serve communities.

I encourage all elected councils to submit entries that showcase best practice local projects and policies.

The national winners will be judged by an independent panel and announced at the third Australian Council of Local Government meeting at Parliament House in June.

Since their inception, thousands of projects have been recognised and have highlighted creative solutions to local and national challenges.

Award entries will close on 31 March 2010.

For further information on the National Awards for Local Government contact the Department of Infrastructure, Transport, Regional Development and Local Government on free call 1800 065 113, or visit the Department's website at www.infrastructure.gov.au/local/awards.

Minister for Infrastructure and Planning

Our ref: 10/7736

24 February 2010

Mr Ken Holt
Chief Executive Officer
Burdekin Shire Council
PO Box 974
Ayr QLD 4807

Dear Mr Holt

I am writing to you regarding Schedule 4 of the Sustainable Planning Regulation (SPR).

As you would be aware the SPR came into effect in conjunction with the *Sustainable Planning Act 2009* (SPA) on 18 December 2009. Further, I am pleased to advise that the Government will be amending Schedule 4 to provide Councils with further clarity as to the application of these new regulations to streamline residential building and planning applications.

The Schedule will be amended so that it only applies in areas where the Council opts into managing duplex approvals through the simplified method.

I anticipate that these changes will be in effect by the end of March, and your Council will receive formal notification that the changes have occurred.

I would like to take this opportunity to reinforce that for Councils that wish to cut the timeframes and the large costs associated with the current assessment system, that the schedule 4 processes can be easily adopted and tailored to suit Council requirements.

I am aware that some Councils across Queensland have passed resolutions, or are considering passing resolutions that provide a working solution for compliance assessment processes for duplex type developments in the Local Government area. I support these Councils for their actions in this matter.

The Government will continue to work with Queensland's Councils to deliver on our commitment of keeping housing affordable for all Queenslanders. I encourage you to provide feedback to the State in relation to the SPA and supporting documents.

I trust this information is of assistance. Should you require any further information please contact my office on (07) 3224 4600.

Yours sincerely

Stirling Hinchliffe MP
Minister for Infrastructure and Planning

Circular

A New Queensland Policy and Planning Framework for Strategic Cropping Land Out for Comment by 12 March, 2010

For Information/Action

Circular: 2010-038

Release Date: Friday, 26th February, 2010

Authorised by: Greg Hallam PSM Executive Director

New policy discussion paper to stem the loss of important cropping land is out for comment.

A discussion paper proposing a new statutory planning instrument, development assessment guidelines and amendment to resources legislation in an attempt to stem the loss of good quality agricultural land to mining and urban development has been released for comment by the State.

Loss of Queensland's highest value agricultural land has the potential to reduce the state's future capacity to grow crops with associated economic, environmental and social implications.

Intensified land use competition for agricultural land, particularly in relation to mining development, has highlighted shortcomings in the current planning framework to conserve agricultural land. The government is committed to addressing this gap to ensure that the state's interest in agricultural land is given due consideration in land use planning and development decisions.

The Queensland Government is seeking to develop a more comprehensive policy that will minimize the loss of strategic cropping land.

The discussion paper puts forward policy principles that outline how the State thinks this will be achieved:

- Planning and development decisions will aim to conserve strategic cropping land for agricultural production.
- Development proposals, which government considers are in the overwhelming long term public interest, will only be approved where detailed assessment of the impact of the development on strategic cropping land values has been undertaken.

The proposed framework will consist of four elements:

- defining strategic cropping land
- developing a new statutory planning instrument
- amending resources sector legislation

Circular

- establishing guidelines for development assessment

Discussion paper for comment

The Queensland Government has released a discussion paper on the proposed [policy and planning framework](#) for public comment. Councils interested in providing a submission can do so by email, fax or mail and should be received by **12 March 2010**.

[Information sessions](#) have been planned by the State at a range of locations across the state to provide information about the discussion paper.

Circular

LGAQ Meeting with the Premier

For Information/Action

Circular: 2010-031

Release Date: Wednesday, 24th February 2010

Authorised by: Greg Hallam PSM Executive Director

The full Executive of the LGAQ met with the Premier and Minister for Local Government on Tuesday 23 February at Parliament House.

The meeting called by the Premier lasted for an hour and a quarter. It was constructive and good humoured.

The LGAQ raised seven matters which together with the Premier's response are listed below:

Population Inquiry

The Premier's Office had requested that the LGAQ extend the deadline for submissions to its Population Inquiry, which the Executive agreed too in order that the outcomes of the Premier's Growth Summit could be taken into account.

There was a strong commitment from both levels of government to work co-operatively on dealing with growth and population matters.

Compensation for Amalgamated Councils

The Premier advised that an announcement on this matter would be made in the next few weeks.

Capacity Building for non-amalgamated Councils

The Minister for Local Government committed to working with the LGAQ to advance the 11 recommendations from the review, with the Premier further committing to a final outcome no later than August 2010 ie before our Annual Conference in Mackay.

Stamp Duty Exemption on Creation of LGAQ Ltd

The Premier advised we could expect a ruling from the Under Treasurer over the next few weeks.

Local Government Electoral Matters

The Executive emphasised the need for urgent advice on the timing of the election in light of both budget development and strategic planning. The Premier noted those concerns

Circular

indicating she had to first consult with the community on that matter with a targeted outcome by May 2010.

In relation to the LG Electoral Act itself the Premier and Minister indicated it was their desire to see a discussion paper for public consultation be developed in the first half of 2010 with an outcome by December of that year.

Waste Management Strategy/Levy

The Premier indicated that she would honour her promise of not introducing a domestic waste management levy in this term of office. She did note the difficulties of dangerous and hazardous waste being trucked from interstate and dumped in Queensland. The Executive committed to working with the State Government to address that problem.

Local Government Legal Status

The President made the case for the return of local governments' corporation status in light of the repeal of the Federal WorkChoices legislation, in accordance with the commitment in Minister Pitt's second reading speech in introducing the Local Government Reform Bill. Both the Premier and the Minister committed to looking at this issue.

PRESIDENT'S INVITATION

The Civic Leaders Summit has cemented a unique place in the Local Government biennial calendar over the past decade.

The fifth edition of this signature event which is conducted exclusively for Mayors, Deputy Mayors and CEOs is practically future focussed and rich in content. We provide the best presenters for our own cream of the crop. The event is closed to the media, enhancing your ability to canvass and explore the most challenging issues.

The Summit is not a forum for the discussion of roads, rates, planning, libraries or pest control. It's about the business of leadership and the special and unique roles of Mayor, Deputy Mayor and CEO. It's purposely different there is no other program like it in Local Government.

In 2010 we have substantially lifted the number of presentations from your mayoral colleagues. Peer to peer learning is a great way to learn from those who have made their fair share of mistakes and survived!

Additionally hear from a true living legend John Eales! To cap it off the former Victorian Premier Jeff Kennett tells as it is on political leadership.

The 2010 Summit will be held at Twin Waters Resort, Mudjimba on the beautiful Sunshine Coast.

I hope you will find time in your busy schedule to invest in your own personal development through attendance at this unique event.

Cr Paul Bell AM
President

DAY ONE – WEDNESDAY 28 April 2010

12.30pm REGISTRATION, TEA AND COFFEE

1.00pm Welcome and Opening

Cr Paul Bell AM
President, LGAQ

1.15pm Expectations of Mayors and CEOs under the new Local Government Act

Hon Anna Bligh MP
Premier of Queensland (invited)

1.45pm Mayors and CEOs – Altered Roles and Rules

Mr Tim Fynes-Clinton
Managing Partner, King & Company

2.45pm Mayor CEO Relationship – New Model

Mr Tony Goode
Director, Workforce and Organisational Services, LGAQ

3.15pm AFTERNOON TEA

3.45pm CEO Appraisal

Ms Gabrielle Walsh
Manager, Workplace Relations, LGAQ

4.15pm Mayor Directing the Budget Process – the Brisbane City Council Model

Rt Hon Campbell Newman
Lord Mayor, Brisbane City Council

4.45pm New Mayor CEO Model – Making it Work (Panel Discussion)

Cr Paul Bell AM, President, LGAQ - Moderator
Cr Peter Maguire, Mayor, Central Highlands Regional Council
Mr Chris Rose, Chief Executive Officer, Logan City Council
Cr John Wharton, Mayor, Richmond Shire Council
Cr Melva Hobson, Mayor, Redlands City Council
Mr Tim Fynes-Clinton, Managing Partner, King & Company

5.30pm NETWORKING DRINKS

7.30pm Optional Dinner – The Spirit House, Yandina (Transport provided – bus leaves at 7pm)

Set in lush tropical gardens nestled around a tranquil pond, bubbling waterfalls, tinkling wind chimes, the sounds of nature - the Spirit House is a delight for all senses.

The Spirit House food is best described as contemporary Thai cuisine. With two best-selling cook books under their belt, and a string of prestigious food awards, the Spirit House has evolved into an iconic food destination.

Crisp and balanced flavours are enhanced by fresh ingredients delivered daily to their kitchen door by local growers - ginger, lemongrass, turmeric, chillies, kaffir lime are just a few of the Asian ingredients grown in the area.

Each year senior chefs head off to Asia on food tours to gather new ideas, inspiration and skills. The result is a menu that is blend of old traditions with modern twists.

DAY TWO – THURSDAY 29 April 2010

8.30am REGISTRATION, TEA AND COFFEE

9.00am New Model – Same Challenges

Mr Greg Hallam PSM
Executive Director, LGAQ

9.30am Dealing with Naughty Councillors – Applying New Rules – Hypothetical

BY: MF/19.....

Dear Councillor McLaughlin

2010 Queensland Greats Awards

I am delighted to announce the launch of the 2010 Queensland Greats Awards. This awards program recognises individuals and institutions whose ongoing contributions and achievements have played a significant role in the history and development of Queensland.

These individuals and institutions go above and beyond what is reasonably expected and have made a significant difference within their industry, community, the state or country. I encourage you to nominate inspirational Queenslanders for the 2010 awards.

There are 45 Queensland Greats from all spheres of the community including singer and songwriter Kev Carmody, rugby league coach Wayne Bennett, and the founder of Angel Flight Bill Bristow.

The four institutions awarded in the program are Surf Lifesaving Queensland, Blue Care, Royal Flying Doctor Service and the Mater Hospital.

To view the list of Queensland Greats or download a nomination form visit www.queenslandweek.qld.gov.au. For more information please contact Events Coordination, Department of the Premier and Cabinet on telephone (07) 3405 5215.

I thank you for your support of these important state awards.

Yours sincerely

ANNA BLIGH MP
PREMIER OF QUEENSLAND

Noted
2/3/10
S.S.

Please address the three questions relevant to your nomination of an individual or institution (this must be completed to be valid and assessed by the judges). Please attach the official nomination form to your response to these three questions. When completing this nomination form, it is important to provide specific examples of how the nominee's contribution(s) has been outstanding.

It is helpful to include examples of how the nominee has gone above and beyond what could reasonably be expected of someone in a similar position. In preparing this nomination, time should be devoted to considering why you think the nominee's service and achievements are outstanding and worthy of recognition.

You are encouraged to submit relating supporting documentation with your nomination. This may include personal references, portfolios, newspaper articles. Please note that all supporting documentation will be retained by the Department of the Premier and Cabinet, Queensland Government.

Nominations must not exceed 700 words in total. Typed nominations and references are preferred.

Nominating an individual

1. Please provide a brief overview of the nominee (maximum 150 words).

2. What is the nominee's significant achievements and contribution to Queensland? Please provide demonstrated evidence that is accurate, factual and specific (maximum 450 words).

3. What are the exemplary and inspirational qualities demonstrated by your nominee (maximum 100 words)?

Nominating an institution

1. Please provide a brief overview of the organisation including staff, locations and nature of the work (maximum 150 words).

2. What are the institution's significant achievements and contributions to the Queensland community? How has this organisation delivered beyond what could reasonably be expected of a similar organisation. Please provide demonstrated evidence that is accurate, factual and specific (maximum 550 words).

3. Please attach to your nomination two references written by a person external to the nominated organisation.

Awards please visit www.queenslandweek.qld.gov.au or phone (07) 3405 5215.

Conditions of entry

1. Individual nominees must be Australian citizens who were born in Queensland or have resided in Queensland for a considerable period.
2. Institution nominees must have contributed to Queensland for a considerable period and can be any company or organisation operating in Queensland, private or public, regardless of size or industry. This includes multi-national subsidiaries, partnerships, franchises, non government associations, community organisations, registered charities, government agencies and bodies.
3. Awards will not be awarded posthumously.
4. Sitting state and federal politicians and current vice regal officers are not eligible. Retired politicians and officers will be considered based on work in addition to their official duties.
5. A person or institution cannot receive more than one Queensland Greats Award.
6. Nominations must address the specific questions and not exceed 700 words in total.
7. Mandatory fields (indicated with an * symbol) on the nomination form must be completed for entry to be valid.
8. Entries close 5pm Friday 26 March 2010.
9. The Department of the Premier and Cabinet reserves the right to disclose the identity of the nominator to the nominee.
10. The nominee's and/or nominator's name, image, statements or otherwise may be published and/or used in any form of media, in any context pertaining to the Queensland Greats Awards.
11. The judges' decision is final and no correspondence will be entered into.
12. Entries must be on an official nomination form.

Please post nomination forms and supporting documentation to:

The Queensland Greats Awards are part of Queensland Week celebrations, 29 May – 6 June 2010.

Celebrating 10 years
of honouring the lifelong achievements of Queenslanders.

Message from the Premier of Queensland

Each year during Queensland Week, I have the wonderful opportunity of awarding those great Queenslanders or organisations with a Queensland Greats Award. These awards honour individuals and institutions whose remarkable long-term or lifetime achievements have made a significant contribution in the history and development of Queensland.

It's a special year this year, as we celebrate 10 years of Queensland Greats.

Nominate a friend, colleague, family member, community leader, well known individual or institution who you believe has made a lifelong contribution to the state.

Anna Bligh MP
Premier of Queensland

Dear Councillor McLaughlin

RE: Proposal to host 2010 Crime Prevention Symposium

Thank you for your letter dated 26th October 2009 proposing to host the annual Crime Prevention Symposium in conjunction with the Burdekin Shire Council and Building Safer Community Action Team 2nd Crime and Prevention and Community Safety conference.

I have discussed your proposal with Ms Miria Bastock, Manager, Policy and Research Unit, Community Safety and Crime Prevention Branch, Queensland Police Service. The Crime Prevention Symposium is conducted in conjunction with the State Neighbourhood Watch (NHW) Conference and it has been the practice for a number of years to schedule the NHW conference on the first Saturday in October (2nd).

The regional location of the NHW conference is determined a number of years in advance and this year Brisbane Metro South will be the host.

The Symposium is planned to be held on 29 September to 1 October with the launch of Crime Prevention Month taking place on 1 October. Given the planning already undertaken to date it is not feasible to move the Crime Prevention Symposium to the Burdekin nor change the date.

The QPS are supportive of the Burdekin Crime Prevention Symposium in 2010.

I thank you for your proposal and QPS wish both the Burdekin Shire Council and Burdekin Building Safer Community Action Team all the best with 2nd Crime and Prevention and Community Safety conference.

Yours faithfully

Brad Taylor
Senior Community Crime Prevention Officer
Townsville District

Dear Councilor,

1956 OLYMPIC TORCH RELAY - 50TH ANNIVERSARY

I refer to my earlier correspondence to the shire council in 2005 regarding the establishment of a plaque to commemorate the 50 th anniversary of the passage of the Olympic Flame through Queensland and the civic reception given the Flame at major centres and towns along the eastern seaboard passage of the Flame to the border of New South Wales

I wrote on 5th May 2007 requesting details of progress in this regard and requested a 6 x 4 photograph to be included in a brochure to be included in a report for all councils concerned with the project.

I received advice in mid May 2007 from Vicki Walker, Acting Administration Co-ordinator, that council considering an appropriate place for all shire Olympic memorabilia and that when this decision was made in the near future and that a plaque would be install as soon as practicable.

I then wrote on the 10th October 2009 requesting further advice regard council's deliberations in this matter, requesting again a 6 X 4 photograph without any acknowledgement being received.

The statewide media announcement that what is now called the "Queensland Commemorative Trail", extending through twenty regional councils, shires and cities, has to be completed and the production of a tourist brochure for distribution to tourist outlets is short of the final piece for the announcement to take place

I would be grateful for any assistance you may be able to give to reach the conclusion of what has been a five year project to have the efforts of the local volunteer organising committees, local sportsmen torchbearers, volunteer drivers, local councils, unpaid university staff, army staff and communities, recognised for completing what the organiser/controller called "The Peoples Relay"

Kindest regards,

John Rogers
Secretary
Queensland Commemorative Trail
Co-ordinator

2nd February, 2010

Aims of the Chamber:

To support local business
To facilitate Chamber members' business prospects through networking opportunities
To provide a medium to discuss and solve common interest problems
To develop the local business areas by attracting other diversified businesses to the area.
To act as a lobby group for the benefit of the local community
To provide relevant learning through guest speakers at monthly meetings
To establish special interest and support groups as required.'

A strong voice for small business

Mayor Lyn McLaughlin
Burdekin Shire Council
Young Street
Ayr Qld 4807

Dear Lyn

At a recent Executive Meeting of the Ayr Chamber of Commerce it was agreed that a very important part of our role was to support the Burdekin Members of the Chamber of Commerce in regard to developments by Council in terms of:

- Economic development
- Tourism development
- Infrastructure development
- New business development

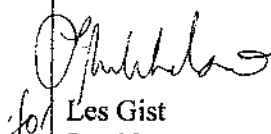

It goes without saying that a major part of our role should be to also support and assist Council (as required) with these types of matters whether that be from an advisory position or liaison between stakeholders. We believe this can only be for the betterment of the Burdekin as a vibrant and progressive Region.

To this end we would appreciate an update of current or mooted projects and what stage they are currently at, although we also understand there may be certain sensibilities that would limit the amount of information available.

Could you also give us some feedback on the "Proposed Burdekin Enterprise" and how the Chamber and the Burdekin Enterprise might work in partnership. Would it be possible to arrange a meeting with yourself and John Quirke (Executive Member) allowing him to report back to the Executive Committee.

We would like to update our Members with this information at possibly our April Chamber meeting, and would welcome representatives of the Council to present this information.

Regards

for Les Gist
President

Ayr Chamber of Commerce

Dear Lyn

Creation of an Australia Wide Rural Lobby Group

This letter is an invitation extended jointly from my Council and Moree Plains Shire Council for your Council to be represented at a forum to be held at the Rydges Capital Hill, Canberra, on Monday 15th March 2010 (9 am) to form a co-operative of rural based, likeminded, Councils.

This invitation has been extended to all those local government areas where the gross value of their agricultural activity exceeded \$100 million in 2006/07 year. In some cases there have been amalgamations during the interim period.

Collectively our agricultural production during 2006/07 was a staggering \$18,522,810,000!

The issues that we collectively face in meeting our mutual obligations to our agricultural sectors, to ensure a reliable local road network, require a concerted attempt on our part to lobby for additional local road funding.

Obviously our ability to achieve a satisfactory outcome will be greatly enhanced if we work cooperatively in this endeavour as a united team.

Initially this group should strive to encourage the Federal Government to allocate additional money to a *Productive Local Roads* program.

Once the government has determined an acceptable level of funding to be allocated to this program, the level of allocations to the various local government areas could be tied to the amount contributed to the Gross Domestic Product (GDP) for certain regions or Local Government Areas expressed as an amount per kilometre of the road network length. Therefore higher productive areas that provide our nation with vital produce will obviously incur higher road maintenance and replacement costs and would be funded accordingly. Alternatively other productivity measures could be used such as the total of tonnage produced.

Gwydir Shire has considered using a productivity measure such as described in the classification of its local road network as an additional factor but the reality is this would only be relocating the deck chairs on the Titanic as the basic problem is the inadequate pool of funds available from local rates.

GWYDIR
SHIRE COUNCIL

No doubt your Council is confronted with a similar problem.

Our efforts should cut across political barriers as our cause is in the national interest.

We apologise for the relatively short notice but it is possible that the Federal Parliament will not sit beyond the Budget Sitting days set down for May and this forum needed to be organised for a sitting day and the 15th March 2010 is the beginning of the last week of the House of Representatives sitting prior to 11th May.

A complete list of all Councils invited is attached for your information.

We encourage your Council to be represented and to complete the attached registration information, which can be emailed (canberra_forum@gwydir.nsw.gov.au), posted or faxed (02 6724 1771) back to Gwydir Shire Council.

Please do not hesitate to contact John Coulton if you require any additional information on 0427 297 082.

We look forward to greeting you on the 15th March 2010.

Yours sincerely

Cr. John Coulton
