Dear Mr Brennan

I write regarding the environmental impact statement (EIS) process for the CopperString Project, for which your representatives provided comments on the draft EIS documentation.

The draft EIS was released for public consultation from 21 December 2020 to 12 February 2021. A total of 28 submissions were received. Following a request for additional information the project proponent, CuString Pty Ltd, provided a revised draft EIS. This was distributed to draft EIS submitters for review from 12 October 2021 to 10 November 2021.

In accordance with section 34A of the *State Development and Public Works Organisation Act 1971*, I have decided to accept the draft EIS and revised draft EIS as the final EIS for the project.

I will now prepare an evaluation report on the project EIS. My office may engage further during preparation of this report to discuss appropriate conditions for subsequent approvals. Thank you for your ongoing assistance with the EIS process for this project.

If you require any further information, please contact Ms Melissa Williams, Project Manager, Office of the Coordinator-General, on [REDACTED] or at [REDACTED] who will be pleased to assist.

Yours sincerely
